Board Strategic Planning Committee (BSPC) Activities

June 2026

Section I: Completed Activities – January to June 2026

Topic (as per BSPC workplan)	Description	Completion Date	Accomplishments/Outcome
Annual Review of the BSPC Charter and the Calendar Year 2026 workplan	BSPC Committee Meeting	19 February 2026	The BSPC members reviewed the committee charter and scope of responsibilities and the related 12 month rolling workplan.
Overview of the Annual Strategy Review program	BSPC Committee Meeting	19 February 2026	ICANN org provided a brief overview of the Annual Strategic Review program. The objective of the Annual Strategy Review Program is to ensure that the Strategic Plan is on track and remains relevant and evaluates if any strategic adjustments are necessary. The program may also impact the annual Operating Plan and Budget process, if any strategic adjustments are necessary. A key component of this program is holding environmental scan sessions with the Community, Board and Staff to evaluate macro or internal environment trends that may impact the Strategic Plan. There were eight sessions held from February through April, including at ICANN85. The sessions included ~330 participants.
ICANN Annual Strategy Review Environmental Scan Session	BSPC-led session at the Board Workshop	07 March 2026	The Board Strategic Planning Committee led a brainstorming session with the Board to discuss emerging trends, opportunities, and threats that may impact our current five-year Strategic Plan.

Board Strategic Planning Committee (BSPC) Activities

June 2026

Topic (as per BSPC workplan)	Description	Completion Date	Accomplishments/Outcome
Environmental Scan analysis Discussions	BSPC Working Sessions	14 and 26 May 2026	The BSPC held 2 working sessions in May 2026. During these working sessions, the BSPC reviewed the highlights of external and internal environmental factors identified in the environmental scan sessions. The BSPC evaluated the impact of these trends on ICANN's Strategic Plan.

Section II: Appendix – Board Resolutions Recommended by the BSPC to the ICANN Board
