2012-01-01 to 2023-11-03

November 3, 2023

[Armenian IGF 2023 \(/event/internet-ecosystem/armenian-igf-2023/\)](/event/internet-ecosystem/armenian-igf-2023/)

Asia/Australia/Pacific, Europe

Yerevan, Armenia / Hybrid

[Internet Ecosystem \(/taxonomy/term/27\)](/taxonomy/term/27)

ICANN is proud to sponsor the 8th Armenian Forum on Internet Governance to take place on 3 November 2023, in Yerevan, Armenia, and remotely.

ICANN is participating in the following sessions:

6:00-6:30 UTC - Opening

Mikhail Anisimov | Senior Stakeholder Engagement Manager Eastern Europe and Central Asia, ICANN

10:00-11:00 UTC - What is WSIS+20, importance in the digital age, Global Digital Compact

Veni Markovski | VP, UN Engagement - New York, ICANN

Moderator: Mikhail Anisimov | Senior Stakeholder Engagement Manager Eastern Europe and Central Asia, ICANN

Registration will be closed on 25 October!

[Domain Days Dubai, UAE \(/event/internet-ecosystem/domain-days-dubai-uae\)](#)

Asia/Australia/Pacific

Dubai, United Arab Emirates

[Internet Ecosystem \(/taxonomy/term/27\)](#).

ICANN is a proud sponsor of the Domain Days event taking place in Dubai, UAE on 1–2 November 2023.

Domain Days Dubai is the domain industry event in the Middle East & North Africa (MENA) region for Domain Investors, Registrars, Registries, Monetization & Traffic, Web 3.0 Domains, Hosting & Cloud Providers, SaaS, and Industry Enthusiasts.

More information coming soon.

October 23, 2023 - 14:30 to 15:30

[APAC Space \(at ICANN78\) \(/event/icann-organization/apac-space-icann78\)](#)

Asia/Australia/Pacific, Europe

Hamburg, Germany

[ICANN Organization \(/event-source/icann-organization\)](#).

At APAC Space during ICANN78, Jia-Rong Low will be delivering the APAC Regional Office FY23 Highlights.

Additionally, Diane Middleton and Yuko Yokoyama will be speaking on RDRS.

October 18, 2023

[Kazakhstan IGF \(/event/internet-ecosystem/kazakhstan-igf\)](/event/internet-ecosystem/kazakhstan-igf)

Asia/Australia/Pacific

Almaty, Kazakhstan

[Internet Ecosystem \(/taxonomy/term/27\)](/taxonomy/term/27)

ICANN is proud to sponsor the first Kazakhstan Internet Governance Forum (Qazaqstan IGF), taking place in Almaty, Kazakhstan, on 18 October 2023.

ICANN is participating in the following sessions:

04:30-05:30 UTC - Opening Plenary:

Multistakeholder Internet Governance as a Way of Sustainable Development Goals Implementation

Mikhail Anissimov, Senior Stakeholder Engagement Manager Eastern Europe and Central Asia, ICANN

10:00-10:50 UTC - Session:

Fault Tolerance and Security of Digital Infrastructure as a Critical Factor of Digital Integration

Mikhail Anissimov, Senior Stakeholder Engagement Manager Eastern Europe and Central Asia, ICANN

October 3, 2023 to October 4, 2023

[SAFNOG-8 \(/event/internet-ecosystem/safnog-8\)](/event/internet-ecosystem/safnog-8)

Africa

Lusaka, Zambia

[Internet Ecosystem \(/taxonomy/term/27\)](/taxonomy/term/27)

ICANN is proud to sponsor the Southern Africa Network Operators Group SAFNOG-8, being held in Lusaka, Zambia, on 3-4 October 2023, under the theme "Building and Sustaining Regional Communities".

ICANN sessions:

DAY 1 - 03 Oct

08:00 - 08:30 UTC: Be Kind, Be KINDNS! - Yazid Akanho, ICANN

DAY 2 - 04 Oct

The Day 2 sessions are co-organized between ICANN and SAFNOG.

07:00 - 07:15 UTC: Welcome remarks, Pierre Dandjinou, ICANN

07:15 - 07:45 UTC: Keynote: confirmed "DNS evolution and new challenges", John Crain, ICANN

07:45 - 08:30 UTC: Session 1: KINDNS: a framework to improve DNS operational best practices

08:45 - 09:45 UTC: Session 2 - state of the art:

Recursive resolvers usage in Zambia (ICANN)

RPKI deployment in Zambia (AFRINIC)

Reverse DNS in Zambia (ICANN)

09:45 - 11:00 UTC: Panel: the role of ISPs and mobile operators in securing the DNS: ZICTA, NSPAZ, AFRINIC, ICANN

Moderator: June OKAL, ICANN

*Adiel AKLOGAN and David HUBERMAN will also contribute remotely as presenter and panelist.

Visit the website to learn more: <https://safnog.org/> (<https://safnog.org/>).

Asia/Australia/Pacific

Guwahati, India

[Internet Ecosystem \(/taxonomy/term/27\)](/taxonomy/term/27)

At the GFCE Triple-I Workshop, Maarten Botterman will be delivering Introductions.

Yazid Akanho will be speaking remotely as part of a panel discussion on a few topics. These include DNSSEC, TLS and Dane, as well as on KINDNS in a separate session.

Jia Rong Low will also be speaking on a panel discussion on "UA/IDN status overview for India - Where is it at and What's Next. How can stakeholders help".

September 26, 2023 - 16:00

[A Session Discussing Cryptography \(/event/internet-ecosystem/session-discussing-cryptography/\)](/event/internet-ecosystem/session-discussing-cryptography/)

Europe

Oslo, Norway

[Internet Ecosystem \(/taxonomy/term/27\)](/taxonomy/term/27)

ICANN and ISOC Norway will hold a session discussing Cryptography. Experts in applied cryptography will discuss current practices, including key management and quantum key cryptography, and generally talk about the state of cryptography in ICT in 2023.

Agenda

- Current state of Norwegian cryptography, including latest research and standardization work.. Sondre Rønjom (TBC), Norwegian National Security Authority
- Automated key rollovers in the DNS | Lars-Johan Liman, Netnod
- Real-world crypto mistakes | Tor Erling Bjørstad, Mnemonic
- A Brief Primer on Managing the Keys to the Internet | David Huberman, ICANN
- Quantum-readiness and high function crypto | Arne Tobias Malkenes Ødegaard, Norwegian National Security Authority (NSM)

Registration for in-person attendance has been closed.

Registration for remote participation: <https://us06web.zoom.us/meeting/register/tZcud-GprjwqGd1PYYuvUAFXekgDfOe...> (<https://us06web.zoom.us/meeting/register/tZcud-GprjwqGd1PYYuvUAFXekgDfOed9ijm>).

Visit the ISOC webpage for more updates and more information >> <https://isoc.no/event/a-session-discussing-cryptography/> (<https://isoc.no/event/a-session-discussing-cryptography/>).

[First DNSSEC Day in Paraguay \(/event/icann-organization/first-dnssec-day-paraguay\)](/event/icann-organization/first-dnssec-day-paraguay)

Latin America/Caribbean

Asunción, Paraguay

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

The Internet Corporation for Assigned Names and Numbers (ICANN) is excited to announce its participation in the first Domain Name System Security Extensions (DNSSEC) Day in Paraguay. This national-level event is intended to promote the deployment of DNSSEC in the Latin American and Caribbean region (LAC). It will be held on 21 September 2023 during the yearly meeting of the Association of Internet Service Providers of Paraguay (ASISPY) in Asunción, Paraguay.

The Network Information Center – Paraguay has successfully implemented DNSSEC for the .PY domain zone, which serves as an example for the entire LAC region. DNSSEC adoption is important because it protects against DNS poisoning and other malicious attacks that can compromise Internet security and privacy. To function properly, DNSSEC requires the support of both domain name registries and registrars, and Internet service providers. This includes hosting providers, companies that run critical infrastructure or services, government network infrastructure, companies that have their own Internet infrastructure, and universities.

DNSSEC is an example of how the Internet continues to become more secure and resilient for its users through the voluntary adoption of open standards. Below is a preliminary list of participants in DNSSEC Day at ASISPY 2023:

Tempus Group S.A.
WIND NET S.A.
Panda Connect S.A.
Núcleo S.A.
KDM NET TELECOM
COPACO S.A.

Register today (<https://dnssecday.com.py/participar/> (<https://dnssecday.com.py/participar/>)) to help make the Internet safer and more secure. Learn more about how ICANN is helping to promote DNSSEC adoption best practices through its Knowledge-Sharing and Instantiating Norms for DNS and Naming Security initiative (<https://kindns.org/> (<https://kindns.org/>)).

About ASISPY

ASISPY is a nonprofit civil association whose objective is the representation of its associates in society, government, and regulatory bodies in matters related to the Internet sector. The associates of ASISPY are in various departments of Paraguay, and represent companies developing Internet access. Some of these companies have been promoting the service since the beginning of the Internet in the country, bringing quality broadband to cities where the large operators have little commercial interest.

September 19, 2023 to September 21, 2023

[Africa Internet Governance Forum 2023 \(/event/internet-ecosystem/africa-internet-governance-forum-2023/\)](/event/internet-ecosystem/africa-internet-governance-forum-2023/)

Spitak, Armenia

[Internet Ecosystem \(/taxonomy/term/27\)](#)

ICANN is proud to sponsor the Armenian School on Internet Governance 2023 edition, taking place on 15 - 16 September 2023, onsite in the Spitak region.

Check the website for more information >> <https://armsig.am/> (<https://armsig.am/>).

September 13, 2023 - 12:00 to 12:45

[ICANN Training Series - Nordics: Detecting Shutdowns and Estimating Their Impact: The Internet Society Pulse \(/event/icann-organization/icann-training-series-nordics-detecting-shutdowns-and-estimating-their\)](#)

Europe

Zoom

[ICANN Organization \(/event-source/icann-organization\)](#)

At the Internet Society, we believe that the Internet is for everyone and our work aims to ensuring that the Internet remains open, globally connected, secure, and trustworthy. Artificial Internet Limitations, including shutdowns, are deliberate actions that limits access to the Internet, in direct opposition to the vision of open Internet.

This session looks at how we can monitor and detect shutdowns, based on multiple resources and tools. We will also look at the Calculator, a new feature we've added to the Pulse platform to provide an estimate of the economic outcomes of Internet shutdowns by way of a rigorous methodology.

Speaker: Hanna M Kreitem, Senior Advisor, Internet Technology and Development, ISOC

Virtual

[ICANN Organization \(/event-source/icann-organization\)](#)

In collaboration with ICANN, AFRINIC is hosting a workshop on the Domain Name System (DNS), designed to promote industry operational best practices for a secure and resilient DNS ecosystem in Africa.

This session will explain the ins of Domain Name System Security Extensions (DNSSEC) validation looking at its importance and how Internet users can protect themselves from attacks. The session will use presentations, demonstrations and experiences from the panelists.

Moderator: Mr Stephen Musa Honlue -Project Manager and Transformation Lead, AFRINIC

Panelists:

1. Mr Yazid Akanho-Technical Engagement Senior Specialist, Middle-East & Africa, ICANN.
2. Mr David Njuki - Senior Systems Engineer, AFRINIC.

Don't miss this opportunity to equip yourself with the knowledge and tools needed to secure your DNS infrastructure and contribute to a safer and more reliable Internet for all.

August 3, 2023 - 09:00 to 10:30

[MEA Webinar “Be a Kind DNS Operator, be KINDNS!” \(/event/icann-organization/mea-webinar-%E2%80%9Cbe-kind-dns-operator-be-kindns%E2%80%9D\)](#)

Africa

Virtual

[ICANN Organization \(/event-source/icann-organization\)](#)

Get to understand the KINDNS initiative and how it can help you evaluate and enhance your DNS operations and security. Discover best practices to fortify your DNS ecosystem and contribute to a more secure Internet in Africa and the Middle East.

This workshop aims to introduce the KINDNS initiative to operators running DNS services in the Africa and Middle East region, as well as how they can use it to :

- Self-evaluate their DNS operations and security and receive anonymized assessment report and recommendations
- Learn from the KINDNS practices to improve their DNS operations and security
- Join and promote the initiative in their place of business for a more secure Internet ecosystem.

Target audience: Network/IT engineers and system administrators in charge of DNS servers, IT Managers, IT auditors, CTO, CIO in ISPs and network operators, researchers, policy-makers, and anyone providing DNS services in MEA.

Moderator: Mr. Stephen Musa Honlue -Project Manager and Transformation Lead, AFRINIC

Panelists:

- Mr. Yazid Akanho-Technical Engagement Senior Specialist, Middle-East & Africa, ICANN
- Mr. Cedrick Mbeyet-Stakeholder Development Manager, AFRINIC

Draft Agenda:

KINDNS presentation with Q/A: 40 min

Demo : 20 min

AFRINIC usage of KINDNS: 20 min

Q/A and wrap up : 10 min

REGISTRATION: https://us02web.zoom.us/webinar/register/4016899256742/WN_ANQi7bw_TjKoe9...

Online

[Internet Ecosystem \(/taxonomy/term/27\)](#)

The Registration Operations Workshop (ROW) was conceived as an informal industry conference that would provide a forum for discussion of the technical aspects of registration operations in the domain name system and IP addressing. The ROW series is being co-sponsored by Verisign [verisign.com] and ICANN and organized by Cofomo [cofomo.com], and we are looking forward to an engaging set of talks, panel discussions, and conversations with individuals involved with the operation of domain name registrations systems.

The 12th ROW will be held Online on Tuesday, June 20th, 2023 at 13:00 – 17:00 UTC.

The discussion topics for this session are:

RIR RDAP profile and related standardization work

ICANN's Command Line Interface RDAP Client: Perspectives on RDAP When Building a Client

Designing a Better Registration System for Registries, Registrars, and Requesters

An anomaly detection system of the .it Registry database

Responsible Integration into Blockchain Namespaces: Considerations for DNS TLD Operators

Reducing EPP traffic volume with the Related Objects extension

DNS Abuse - Decisive Mitigation Based on Evidence

Stand Up For Your Routes! Using the Resource Public Key Infrastructure (RPKI)

Verisign's path to RPKI

Use of DNS in Connection with Trust Registries (panel)

While there is no fee to attend the ROW, we encourage anyone interested to register [regiops.net] so that we may provide Zoom URL and credentials. The workshop is open to all industry members including address/gTLD/ccTLD registries, domain name registrars, resellers, and second level domain registries, to present and discuss technical topics related to real world experiences of implementing registration operations.

For more information about the workshop, go to <https://regiops.net> (<https://regiops.net>) [regiops.net].

ICANN is sponsoring this event.

Zoom

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

There has recently been more discussion of how quantum computers will affect the cryptography we use on the Internet every day for privacy and authentication. This talk will give a very high-level description of how quantum computers will affect Internet security, when we might expect them to have an effect, and what the technical community is doing to prepare for them. It will focus on two areas of Internet security, TLS and DNSSEC.

Audience: Everyone with some technical understanding of the Internet, none of cryptography or quantum

Speaker: Paul Hoffman, Distinguished Technologist, ICANN

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](#)

For years, different communities including cyber threat intelligence research, incident response teams, law enforcement, cybersecurity, and the ICANN community itself, have been discussing about, and addressing, online malicious activity. But do you know what ICANN actually does in these areas? In this webinar, you will learn about ICANN's work in the field of Trust and Public Safety Engagement and the related efforts towards helping ensure a secure, stable, and resilient Domain Name System.

If you are interested in learning more on how ICANN's anti-abuse work is performed in this context, please join!

Speaker: Carlos Alvarez, Director of Trust and Public Safety Engagement, ICANN

[Internet Ecosystem \(/taxonomy/term/27\)](/taxonomy/term/27)

UA Day is an opportunity to rally local, regional, and global communities and organizations to spread Universal Acceptance (UA) awareness and to encourage UA adoption with key stakeholders. Around 50 UA Day events will be held in more than 40 countries worldwide on or around 28 March.

Find a UA event near you: <https://uasg.tech/ua-day/> (<https://uasg.tech/ua-day/>)

A cornerstone of today's global Internet, UA offers many benefits for both individual Internet users as well as the organizations that serve them. There are currently approximately five billion Internet users, and at least one billion more are expected to come online. Most of these potential new users live in

countries that speak and write in languages other than English. Achieving UA ensures everybody has the ability to experience the full social and economic power of the Internet using their chosen domain name and email address that best aligns with their interests, business, culture, language, and script.

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization/)

In this webinar, two ICANN projects will be described, which both make use of Reputation Blocklist (RBL) data – DAAR (Domain Abuse Acitivity Reporting) and DNSTICR (Domain Name Security Threat Information Collection and Reporting) — and how the different projects use the data in different ways. We then explain how ICANN's Office of the Chief Technology Officer (OCTO) tries to understand the data from the combination of multiple RBLs and why this is important.

Europe

Zoom

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

You might have heard of some people who "hold the keys to the Internet". This sounds very exciting - but is it really correct?

In our webinar series for the Central European and Baltic region, David Huberman (Technical Engagement Manager, ICANN) will explain what this really is about and why it's critical to Internet security. He will describe the purpose of these keys, the responsibilities of the key holders, and he'll take us through what a key signing ceremony looks like.

You will also have a chance to meet and ask questions to a key holder from the region: Ondrej Filip (Czech Republic), who will tell us about his experience being a keyholder and how he serves the global Internet in this role.

Speakers:

David Huberman, Technical Engagement Manager, ICANN

Ondrej Filip, CEO CZ.NIC

Europe

Virtual

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

Understanding and Combating DNS Abuse – Encouraging Best Practice webinar is part of the ICANN Stakeholder Assembly Webinar Series.

Join Rowena Schoo and Graeme Bunton of the DNS Abuse Institute <https://dnsabuseinstitute.org/> (<https://dnsabuseinstitute.org/>), for a discussion about the current trends and thinking about DNS abuse.

The DNS Abuse Institute was created in 2021 to provide independent, credible, and transparent research with the aim of reducing DNS Abuse and encouraging best practice in the DNS community. Rowena and Graeme will introduce the scope of the Institute's work, their measurement initiatives, and current state of DNS abuse, highlighting issues relevant to the UK – and how UK stakeholders can participate in the institute's work, access their research, and contribute to initiatives across the community.

Nigel Hickson, Senior Advisor, Department of Culture, Media and Sport (DCMS), the UK government's representative to ICANN's Governmental Advisory Committee (GAC), will comment and respond. He will be joined by an additional governmental sector commentator, whose participation remains to be confirmed.

AGENDA:

Introduction: Adam Peake, Senior Manager, Stakeholder Engagement, Europe (5 mins)

Presentation: Rowena Schoo and Graeme Bunton, DNS Abuse Institute (30 mins)

Response and comments: Nigel Hickson, Senior Advisor, DCMS UK Government, and speaker TBC (10 mins)

Questions: 15 minutes.

RESOURCES:

[Webinar: Building African IXP Infrastructure: Progressing the Coalition for Digital Africa. \(/event/icann-organization/webinar-building-african-ixp-infrastructure-progressing-coalition-digital\)](#)

Africa

Virtual

[ICANN Organization \(/event-source/icann-organization\)](#)

In Africa, there is an insufficient number of active Internet Exchange Points (IXPs). Because of this, high volume of Internet traffic has to travel unnecessarily too far to be exchanged before it then returns to the same geographical location, resulting in higher costs and slower speeds. IXPs improve Internet access by keeping local traffic localized and, because of that, faster and more affordable. To be effective, IXPs need engineers, service providers, content developers, and policymakers who share the belief that a strong, collaborative community can leverage the Internet ecosystem to improve connectivity and increase the value of the Internet for end users.

The Internet Corporation for Assigned Names and Numbers (ICANN) and the Internet Society (ISOC) invite you to join us on Monday, 30 January 2023, at 14:00 UTC, for a webinar on “Building African IXP Infrastructure: Progressing the Coalition for Digital Africa”. We’ll discuss the ever-changing landscape of African interconnection and explore our new partnership to improve IXP infrastructure in Africa.

ICANN Interim President & CEO Sally Costerton, ISOC CEO Andrew Sullivan, and the African IXP Association (AF-IX) Co-Coordinator Kyle Spencer will share their thoughts about the future of peering and interconnection in Africa and how our partnership will help to speed Internet access for users across the continent.

The webinar will be conducted in English, with simultaneous interpretation in French; and recorded for those who cannot attend the live session.

All are welcome to attend this webinar. Please feel free to share this event with anyone you think may be interested.

Africa, Asia/Australia/Pacific, Europe, Latin America/Caribbean, North America

Virtual

[ICANN Organization \(/event-source/icann-organization\)](#)

The upcoming webinar, "ICANN for Beginners: Universal Acceptance," will introduce newcomers to the basics of Universal Acceptance (UA).

UA is the bridge to a multilingual Internet. It enables people everywhere to access and use the Internet in their own languages and scripts which is essential to bringing the next billion users online. Webinar participants will learn more about UA and how they can get involved.

The ICANN for Beginners Virtual Program comprises a series of interactive webinars held via Zoom and provides participants with an overview of the global Internet ecosystem. The program also describes how newcomers can join the global community and help shape Internet governance.

How to participate:

Participating is easy, free, and open to all. No prior technical or Internet governance experience is necessary. The "ICANN for Beginners: Universal Acceptance" webinar will be offered on two dates. Simply register for the one that suits you best:

17 January 2023 at 14:00 UTC

[Register to attend](#)

18 January 2023 at 6:00 UTC

[Register to attend](#)

Closing date for registration: 16 January 2023. The webinars are in English only. Recordings will be posted here after the webinars.

For inquiries, please email: beginners@icann.org (<mailto:beginners@icann.org>).

December 15, 2022 - 17:00 to 18:00

ICANN Informational Webinar - FY24-28 Operating and Financial Plan and FY24 Operating Plan and Budget Webinar #2 (/event/icann-organization/icann-informational-webinar-fy24-28-operating-and-financial-plan-and-fy24-0).

Virtual Meeting - Time in UTC

ICANN Organization (/event-source/icann-organization).

The Internet Corporation for Assigned Names and Numbers (ICANN) invites the ICANN community to participate in an informational webinar about the Draft FY24-28 Operating and Financial Plan, and Draft FY24 Operating Plan and Budget. Both webinar#1 and webinar #2 will present identical information.

The five-year Operating and Financial Plan articulates the feasibility and timing of activities and milestones identified to achieve the objectives and goals set forth in the Strategic Plan. This plan is intended to serve as a comprehensive view of activities that ICANN org is undertaking, or will undertake, in support of the Strategic Plan and to carry out ICANN's mission in the public interest over the next five years. The Annual Operating Plan and Budget provides an overview of how ICANN will carry out its mission in the public interest over the next fiscal year, by defining and describing ICANN's planned activities in FY24, and the anticipated funding sources and levels.

During the webinars, ICANN org will present information for the community to gain a deeper awareness and understanding of the draft plans. Webinar attendees will also have the opportunity to ask questions about the draft plans.

Register to attend webinar #2:

https://icann.zoom.us/meeting/register/tJltce2rpzgiHtL_UzB7qkXkHAC3W4tiU8hx

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](#)

As one of the world's five Regional Internet Registries, the RIPE NCC collects a lot of data around Internet development and connectivity throughout Europe - including IPv6 deployment. In this talk, we'll explain the basics of IPv6 and why it's so important for the Internet's continued growth and innovation.

We'll also give an overview of the current state of IPv6 deployment in the Nordic countries, including how traffic is routed over IPv6, the relationship between different networks in these countries, how much IPv6 address space is actually in use.

Speaker: Suzanne Taylor, Senior Public Policy and Governance Advisor, RIPE NCC

Europe

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

In the most recent years, the European Union has increased their legislative and policy initiatives in the field of technology. Many of these have a direct impact on the DNS – such as the Digital Services Act and the NIS2 Directive. The ambition is always to serve the greater good – however, regrettably, lawmakers may overlook the technical specifics and in some cases even take or propose steps that undermine key functionalities of the global Internet. This webinar will discuss some of those recent initiatives and their possible impact on the Internet's unique identifier system, as well as possible impacts on its bottom-up, multi-stakeholder governance.

Speakers: Lars-Johan Liman, Senior Systems Specialist Netnod; Nora Mari, ICANN Government and IGO Engagement Manager

[ICANN DNS Symposium \(/event/icann-organization/icann-dns-symposium\)](/event/icann-organization/icann-dns-symposium/)

Europe

Brussels, Belgium

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization/)

The fifth ICANN DNS Symposium (IDS 2022) will be held 15-16 November 2022 in Brussels, Belgium. IDS 2022 will be held immediately before the IANA Community Day on 17 November.

The theme for IDS 2022 is "Examining the effects of both centralization and diversification in the DNS."

The devices of more than 20% of Internet users are configured to use public Domain Name System (DNS) resolvers, according to some studies. A small set of registry service providers are responsible for a large set of top-level domains (TLDs). An attack against a single service provider's infrastructure can affect a large percentage of Internet users. At the same time, there are more public resolver services and more TLDs than ever. This prompts the question, "Is the DNS overly centralized or adequately diversified?" ICANN invites speakers to present topics on centralization and diversification in the DNS. Presentations could include measurements and fact-based predictions, and discussions about risk mitigation and scalability in relation to either greater or lesser centralization, greater or lesser diversity, or both.

Adjacent to the ICANN DNS Symposium, IANA will be holding a half-day workshop focused on key technical evolution projects within IANA relating to the DNS. Topics will include a discussion of how to perform a DNSSEC algorithm rollover for the DNS root zone, and reviewing and updating the TLD technical requirements for root zone changes. TLD managers, DNS experts, and other interested parties are encouraged to attend.

For more information and to register, visit: <https://www.icann.org/ids> (<https://www.icann.org/ids>).

[Decentralized Domain Names: What Will the DNS Look Like in Web3? \(/event/internet-ecosystem/decentralized-domain-names-what-will-dns-look-web3\)](/event/internet-ecosystem/decentralized-domain-names-what-will-dns-look-web3)

North America

Virtual Meeting - Time in UTC

[Internet Ecosystem \(/taxonomy/term/27\)](/taxonomy/term/27)

Decentralized Domain Names: What Does DNS Look Like in Web3?

The Decentralized Web is presenting complications with our current DNS structure. Can Domain-Nameaggedon be avoided?

For over 50 years the Internet's Domain Name System (DNS) has enabled users to seamlessly connect with servers on the Internet by using human-friendly names like example.com.

International governments, industry, and internet stakeholders have worked together to ensure that the DNS works. Yet, this system is not extending directly into web3.

Several blockchain-based naming systems are popping up on the decentralized web. From .eth to Unstoppable Domains, there are millions of registered domains on web3 and none of them interact with the Internet's DNS.

Domain names used in the Decentralized Web may collide with each other and present complications Web 2.0's DNS structure. Can Domain-Nameagedon be avoided?

Join us!

To protect DNS data, it is important for DNS operators to understand DNS Security Extensions (DNSSEC). This course will discuss the DNSSEC concepts in detail covering the signing and validation of DNS data.

Expected Outcome:

Participants should be able to understand the concepts of DNSSEC and the deployment aspects.

Course Outline

- Public Key Cryptography
- DNSSEC Overview
- Signing
- Validation
- Non-existence
- Key management
- Chain of Trust
- Policy Considerations

Audience: DNS Administrators, Policy Makers with technical background, Network Engineers

Speaker: Ulrich Wisser

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](#)

This course will cover the best practices in securing the overall ecosystem of DNS, from the threats to mitigation perspective. At the end of the course, the participants should be able to understand the best practices in securing the DNS.

Course Outline:

Introduction: An Example Attack

Refresher: Inter-domain Routing 101

Refresher: DNS Resolution 101

Common Attacks: Cache Poisoning, Fast Flux, Homographic Attacks, Emojis, IoT, etc.

Mitigation with DNSSEC

Mitigation with RPKI

Mitigation with Request Data Encryption DNS (Stub-->Resolver)

Mitigation with DMARC, SPF, or DKIM

Collaborating with ICANN

Speaker: David Huberman, Technical Engagement Manager, ICANN

ENCUENTRO ANUIES-TIC UADY 2022

Instructores: Nicolás Antoniello, Daniel Fink

Modalidad de impartición: Virtual

Duración total de taller: 4 sesiones virtuales de 2 horas c/u.

Área: Desarrollo de internet

Fechas: 12, 14, 19, y 26 de octubre

II. Descripción

Destinatarios:

- Administradores de redes
- Proveedores de internet
- Usuarios especializados en temas de TI.
- Tomadores de decisión de TI

Objetivo(s) o competencia(s):

Una implementación de DNS moderna y bien estructurada es muy importante para la calidad de los servicios del proveedor. Actualmente contamos con protocolos que aumentan la seguridad y el rendimiento de un servidor recursivo que se pueden implementar de forma relativamente sencilla, teniendo en cuenta ciertas precauciones y recomendaciones. Este es el caso del protocolo DNS Security Extensions (DNSSEC) y la copia local de la zona raíz (Hyperlocal). En este tutorial realizaremos una implementación didáctica de dos servidores recursivos populares (BIND y Unbound) en servidores

virtuales Xubuntu y CentOS8 a través de un paso a paso que cada uno podrá realizar en su propio navegador de internet. Cubriremos la instalación de los paquetes de software necesarios para ambos servidores recursivos, configuraremos validación DNSSEC, configuración de Hyperlocal y por último realizaremos algunas verificaciones y pruebas útiles.

Metodología y Actividades:

Sala virtual de exposiciones y provisión de guías prácticas para la realización de los ejercicios.

Mecanismo y criterios de evaluación:

Mínimo 80% de asistencia, examen y participación en las actividades del taller.

Más información y registro : <https://encuentro-tic.anuies.mx/laboratorio-servidores-dns-recursivos/>
(<https://encuentro-tic.anuies.mx/laboratorio-servidores-dns-recursivos/>)

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](#)

DNS resolution is typically done either by Internet service provider (ISP) resolvers or by public resolvers. In January 2022, ICANN's Office of the Chief Technical Officer (OCTO) observed that 95% of consumers served by large European Union (EU) consumer ISPs are using their ISP- provided Domain Name System (DNS) resolvers. Only about 4% of consumers served by large EU consumer ISPs are using public resolvers such as Google Public DNS (3%), Cloudflare (0.6%), and Cisco OpenDNS (0.4%). This talk will explore those findings in more details.

Speaker: Alain Durand, Principal Technologist ICANN

The presentation based on an ICANN OCTO study published in March 2022:

Europe

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](#)

The Domain Name System (DNS) has changed dramatically over the last decade in regard to the overall number of top-level domains (TLDs), their character length and the scripts and languages used for them. There are now more than 1,200 active generic TLDs (gTLDs), as well as more than 60 country code top-level domains (ccTLDs) that are available in different scripts. These new TLDs provide greater consumer choice and can represent cultures, brands, geographies, special interests, and more (e.g. .ไทย, .LONDON, .PIZZA, .PHOTOGRAPHY). Universal Acceptance (UA) supports a multilingual Internet by ensuring all domain names and email addresses - in any language, script or character length - are accepted equally by all Internet-enabled applications, devices, and systems. With more than 5 billion internet users, Universal Acceptance is key to ensuring every person has the ability to navigate and communicate on the Internet using their chosen domain name and email address that best aligns with their interests, business, culture, language, and script. The session provides a technical introduction to UA and what the technical community needs to do to support it.

Speaker: Sarmad Hussain, Senior Director IDN & UA Programmes, ICANN

The Internet Corporation for Assigned Names and Numbers (ICANN) is pleased to invite you to a webinar on 24 August 2022 at 18:00 UTC on the topic of maintaining top-level domain (TLD) health.

ICANN helps coordinate key technical services critical to the operation of the Internet's address book, the Domain Name System (DNS). TLDs require regular maintenance, both on technical and operational levels. Part of this maintenance uses best practices to operate the name server set for a TLD and update information associated with the TLD in the DNS root zone.

During the webinar, ICANN's Internet Assigned Numbers Authority (IANA) team will discuss good operational practices for maintaining the health of a TLD in the DNS root zone. This discussion includes keeping IANA records up to date, how to plan for periodic Domain Name System Security Extensions (DNSSEC) key rollovers, how to submit change requests, and what to do in cases where a TLD change in the DNS root zone is urgent.

Additionally, ICANN's Vice President for Technical Engagement, Adiel Akplogan, will present a new initiative called the Knowledge-Sharing and Instantiating Norms for DNS and Naming Security (KINDNS). By collaborating with a global, multilingual community of technical experts, ICANN, through KINDNS, is developing a clear framework of operational best practices for DNS security with the objective of making the Internet safe, secure, and interoperable. You can subscribe to the KINDNS mailing list to join the conversation or email kindns-info@icann.org (<mailto:kindns-info@icann.org>) for more information.

This effort is part of the North American webinar series launched in April 2021. ICANN's stated mission is to foster a more robust DNS ecosystem. This is reflected in its 2021–2025 strategic goals, which emphasize active promotion of DNS ecosystem security and relevant best practices, particularly, the need to improve the security of the DNS and the adoption of global open standards and best practices.

[18th Caribbean Internet Governance Forum and Caribbean Youth IGF Workshop in collaboration with Small Island Developing States \(SIDS\) IGF \(/event/internet-ecosystem/18th-caribbean-internet-governance-forum-and-caribbean-youth-igf-workshop\)](#)

Latin America/Caribbean

Online

[Internet Ecosystem \(/taxonomy/term/27\)](#)

The Caribbean Internet Governance Forum (CIGF) is a regional, multi-stakeholder forum initiated by the Caribbean Telecommunications Union (CTU) and the Caribbean Community (CARICOM) Secretariat in 2005 to coordinate a regional approach to Internet Governance (IG), initially focussed on the proceedings of the United Nations' World Summit on the Information Society (WSIS). The forum has since met annually and has delivered significant and pioneering benefits to the region including formulation of a Caribbean Internet Governance Policy Framework; the proliferation of Internet exchange points (IXPs); capacity building in IG Principles and best practices; and growth in Caribbean influence in international IG fora. The CIGF is the longest running Internet Governance Forum in the world.

This year, the 18th CIGF will feature a Caribbean Youth IGF (CYIGF) and the CIGF will also be held jointly with the inaugural Internet Governance Forum for Small Island Developing States (SIDS IGF). Having been discussed as a goal of the DC-SIDS for quite a few years, the SIDS IGF was catalysed by an intervention and offer of support by the CTU SG in 2021. Support for the idea grew given the realisation that SIDS worldwide share similar development challenges and there existed no collective IG forum that addressed SIDS-specific issues. The CIGF will provide functional input and logistical support to the inaugural SIDS IGF to facilitate its successful launch and ultimate sustainability.

ABOUT THE WEBINAR:

Protecting the Domain Name System from Harms webinar is part of the ICANN Stakeholder Assembly Webinar Series.

Join Steve Forbes, Head Product Management at Nominet Cyber and Siôn Lloyd, ICANN Office of the Chief Technology Officer (OCTO) for a webinar discussing measures to protect the Domain Name System from harm, and understanding the data used in assessing harms.

Steve Forbes will introduce UK Protective DNS (PDNS) and its benefits. PDNS, created by the UK National Cyber Security Centre (NCSC) and delivered by Nominet, hampers the use of DNS for malware distribution and operation to protect UK public services. Securing over 900 organisations, PDNS forms a vital part of the UK's Active Cyber Defence, tackling cyber-attacks to improve national resilience.

Siôn Lloyd will describe two ICANN projects which make use of Reputation Blocklist (RBL) data –DAAR and DNSTICR— and how the different projects use the data in different ways. Siôn will explain how OCTO try to understand the data from the combination of multiple RBLs and why this is important.

Agenda

Chris Mondini- Introduction and welcome (5 minutes)

Steve Forbes- Introduction to PDNS and its benefits (20 mins)

Siôn Lloyd- ICANN-OCTO use and understanding of RBL data (15 minutes)

Q&A (15 minutes)

Chris Mondini and Adam Peake- Close (5 minutes)

Brussels, Hybrid

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

In January 2022, the European Commission proposed digital principles that include an open and interoperable Internet. This free event, jointly organized by the Internet Corporation for Assigned Names and Numbers (ICANN) and Member of the European Parliament Miapetra-Kumpula Natri, will explore how geopolitical tensions are putting this principle to the test.

The event will feature ICANN CEO and President Göran Marby and MEP Miapetra-Kumpula Natri, who will delve into topics of Internet governance, the multistakeholder model, and threats to the future of this model. Together with Werner Stengg, Executive Vice President Margrethe Vestager's Cabinet expert for the Platform Economy, and MEP Christel Schaldemose, rapporteur for the Digital Services Act (DSA), the event also will focus on the services and content that are accessed via the Internet, in the context of the recently agreed-upon DSA.

Featuring Panelists:

Ms. Miapetra Kumpula-Natri – Member of the European Parliament

Mr. Göran Marby – President and CEO, ICANN

Ms. Christel Schaldemose – Member of the European Parliament

Ms. Werner Stengg – Cabinet expert Platform Economy, Executive Vice President, European Commission

Due to limited capacity, in-person attendance will be on a first come, first-served basis.

The event will be conducted as a hybrid event to accommodate in-person and virtual attendance.

Online

[Internet Ecosystem \(/taxonomy/term/27\)](/taxonomy/term/27)

The XVI National Meeting of Technicians is organized by the Argentine Internet Chamber -CABASE and brings together professionals committed to the engineering, security and operation of the Internet in Argentina.

ICANN's Nicolás Antoniello will deliver a presentation on DNSSEC on 9 June 2022 and will lead a practical DNSSEC setup Lab on 10 June 2022.

June 6, 2022 to June 16, 2022

[ITU WTDC 2022 \(/event/internet-ecosystem/itu-wtdc-2022\)](#)

Africa

Kigali, Rwanda

[Internet Ecosystem \(/taxonomy/term/27\)](#)

The International Telecommunication Union, World Telecommunication Development Conference (WTDC) 2022 is being held under the theme “Connecting the unconnected to achieve sustainable development”. WTDC is organized every four years by the Telecommunication Development Bureau to consider topics, projects and programmes relevant to telecommunication development.

+ WTDC will set the strategies and objectives for the development of telecommunication/ICT, providing future direction and guidance to the ITU Telecommunication Development Sector (ITU-D) in the next four years.

+ WTDC is a unique opportunity to develop innovative approaches and new models of collaboration for connectivity and digital solutions in this final Decade of Action to achieve the SDGs .

+ WTDC will be held in Kigali, Rwanda, from 6 to 16 June 2022.

+ WTDC will feature the Partner2Connect Digital Development Roundtable from 7 to 9 June.

ICANN will be attending the Partner2Connect (P2C) Digital Development Roundtable 7-9 June 2022

For more information: <https://www.itu.int/itu-d/sites/partner2connect/partner2connect-p2c-digi...>

(<https://www.itu.int/itu-d/sites/partner2connect/partner2connect-p2c-digital-development-roundtable/>)

About the WTDCs

The International Telecommunication Union, through its Telecommunication Development Bureau (BDT), organizes a World Telecommunication Development Conference (WTDC) (<https://www.itu.int/en/ITU-D/Conferences/WTDC/Pages/default.aspx> (<https://www.itu.int/en/ITU-D/Conferences/WTDC/Pages/default.aspx>)) every four years in the period between two Plenipotentiary Conferences (<https://www.itu.int/web/pp-18/en> (<https://www.itu.int/web/pp-18/en>)) to consider topics,

projects and programmes relevant to telecommunication development.

WTDCs set the strategies and objectives for the development of telecommunication/ICT, providing future direction and guidance to the ITU Telecommunication Development Sector (ITU-D).

The Serbian Internet Governance Forum (IGF Serbia), for the first time under this name and as part of the NRI network of the global IGF, represents the continuation of national discussions about digital policy and internet governance. It has been initiated in the multi-stakeholder spirit of IGF as the shared initiative of several organisations and institutions, under the auspices of the Ministry. The establishment of a national IGF is also one of the objectives set out in the Serbian Information Society and Information Security Development Strategy which was approved in autumn 2021 and runs until 2026.

[Internet and Geopolitics Webinar \(/event/internet-ecosystem/internet-and-geopolitics-webinar\)](/event/internet-ecosystem/internet-and-geopolitics-webinar)

Europe

Universidade Aberta, Lisbon, and Livestream

[Internet Ecosystem \(/taxonomy/term/27\)](/taxonomy/term/27)

The term Splinternet is used to designate a fragmented Internet where the visibility of other networks and services is subject to filters introduced for economic, political or geopolitical reasons. It is important, however, not to forget that the term Splinternet does not apply to filters applied to combat banditry and terrorism. Technically, as advocated by the governance bodies of Internet protocols, names and addresses (IETF, ICANN and Regional Registries), the possibility of communication between equipment, connected to different areas of the Internet is, theoretically, always possible. These governing bodies refuse to contribute to Splinternet.

For a still preliminary analysis of what Splinternet is and how its negative impacts can be mitigated, the Portuguese Association for the Development of the Information Society (APDSI) and the Portuguese Chapter of the Internet Society (ISOC PT), with the support of Open University, promote this session debate.

Working languages — Portuguese and English

Europe

Virtual

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

"ICANN, the Internet, and Geopolitics: A UK perspective." from the ICANN Stakeholder Assembly Webinar Series.

A number of geo-political events -- ranging from war, to debates at Intergovernmental organizations, to legislative proposals around the world -- threaten the Internet's successful multistakeholder governance model. This in turn might impair the stability and connectivity of the Internet itself. Will we connect the next billion Internet users, or do we risk fragmentation? The United Kingdom has long recognized the importance of the global Internet to its economy and society. What developments should UK stakeholders be following, and how can we insure continued success?

Goran Marby, ICANN CEO, and Kaoutar Abousmir, Head of the Digital Standards & Internet Governance at the Department of Culture Media and Sport (DCMS) will discuss events of the day, the UK response to them and ICANN's efforts to raise awareness among stakeholders worldwide They will be joined by Nigel Hickson, Senior Policy Adviser at DCMS and Elena Plexida, VP Government Engagement at ICANN to share their view of the geo-political landscape. They will share ICANN's technical advice, and discuss the interplay between technical governance of the Internet and diverse governmental initiatives.

You can watch the session recording here:

May 19, 2022 - 17:00 to 19:00

[Panel on DNS Privacy \(/event/internet-ecosystem/panel-dns-privacy\)](/event/internet-ecosystem/panel-dns-privacy)

Latin America/Caribbean

Online

[Internet Ecosystem \(/taxonomy/term/27\)](/taxonomy/term/27)

The Domain Name System (DNS) is a hierarchical naming system that allows Internet users to use names instead of having to remember numeric IP addresses.

DNS queries are transmitted in plain text and can reveal not only which websites a person visits, but also data about other services provided on certain domains. This facilitates the collection of sensitive user information for unwanted purposes.

In order to improve privacy in DNS, several protocols such as DNS Query Name Minimisation (Qname), DNS-over-TLS (DoT), DNS over Datagram Transport Layer Security (DTLS), DNS-over-HTTPS (DoH), and other ideas under development such as DNS-over-Quic (DoQ).

In this panel on DNS Privacy we will exchange views on the benefits and risks that could arise from the massive use of these protocols.

Moderator

Cesar Diaz, Head of Telecommunications Affairs, LACNIC

Panelists

Carlos Martinez, CTO, LACNIC

Cristine Hoepers, General Manager, CERT.br

Hugo Salgado, Investigación y Desarrollo, NIC Chile

Nicolás Antoniello, Regional Technical Engagement Manager, ICANN

Europe

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](#)

This course will cover the best practices in securing the overall ecosystem of DNS, from the threats to mitigation perspective. At the end of the course, the participants should be able to understand the best practices in securing the DNS.

Course Outline:

Introduction: An Example Attack

Refresher: Inter-domain Routing 101

Refresher: DNS Resolution 101

Common Attacks: Cache Poisoning, Fast Flux, Homographic Attacks, Emojis, IoT, etc.

Mitigation with DNSSEC

Mitigation with RPKI

Mitigation with Request Data Encryption DNS (Stub-->Resolver)

Mitigation with DMARC, SPF, or DKIM

Collaborating with ICANN

Europe

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

DNS resolution is typically done either by Internet service provider (ISP) resolvers or by public resolvers. In January 2022, ICANN's Office of the Chief Technical Officer (OCTO) observed that 95% of consumers served by large European Union (EU) consumer ISPs are using their ISP- provided Domain Name System (DNS) resolvers. Only about 4% of consumers served by large EU consumer ISPs are using public resolvers such as Google Public DNS (3%), Cloudflare (0.6%), and Cisco OpenDNS (0.4%). This talk will explore those findings in more details.

Speaker: Alain Durand, Principal Technologist ICANN

The presentation based on an ICANN OCTO study published in March 2022:

[ICANN Training Series - Central Europe & Baltics: History of the Root Server System \(/event/icann-organization/icann-training-series-central-europe-baltics-history-root-server-system\)](/event/icann-organization/icann-training-series-central-europe-baltics-history-root-server-system)

Europe

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

The History of the Root Server System is a 30-minute informal lecture that takes the audience from the beginnings of the DNS in 1983 through the present day. It focuses on the development of the Root Server System from just one root server to today's 13 root servers. It explains some of the mystery behind why the root servers are assigned the way they are. It highlights the status of root service in the local region. Finally, it discusses the next steps in Root Server System governance.

The audience for this informal talk is anyone interested in the Root Server System, its history and governance. This is a non-technical talk, although it assumes the audience knows what a root server is and why it exists.

Everyone with a general interest in the DNS is invited. Although this is an outreach effort to reach Internet community members from the Nordic region, stakeholders from other regions are welcome to join.

[ICANN Training Series - Nordic Region: Meet the Nordic Key Holders!](#)
[\(/event/icann-organization/icann-training-series-nordic-region-meet-nordic-key-holders\)](#)

Europe

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](#)

You might have heard of some people who "hold the keys to the Internet". This sounds very exciting - but is it really correct?

In our webinar training series for the Nordics, Kim Davies, Vice President IANA Services, will explain what this really is about, what function these keys and their holders actually fulfil - and how the Corona pandemic complicated it all. You will also have a chance to meet all three keyholders from the Nordics!: Anne-Marie Eklund-Löwinder (Sweden), Ólafur Gudmundsson (Iceland) and Kristian Ørmen (Denmark). They will tell us about their experiences being a keyholder and how they serve the global Internet in this role.

We would like this webinar to be as interactive as possible, so please, prepare questions! They can either be asked during the webinar, or posted earlier to gabriella.schittek@icann.org (<mailto:gabriella.schittek@icann.org>) (and will then be read-out during the meeting.)

Recording: https://icann.zoom.us/rec/share/-B55w8gacc8PVIbcQGr2DaWOCQZoDe6nUd_SQv-H...

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

Topic: The Future of the Domain Name System

Date

3 March 2022

Time

1100 - 1200 (UTC +8)

Session Description

This session will explore developments that will have an impact on the future of the Domain Name System (DNS) and the domain name marketplace.

What to Expect

What are current developments that will have an impact on the future of the DNS and the domain name marketplace?

What does the future of the DNS look like?

February 28, 2022 - 23:00 to March 1, 2022 - 00:00

[Understanding IANA and its post-transition governance \(/event/large/understanding-iana-and-its-post-transition-governance\)](/event/large/understanding-iana-and-its-post-transition-governance)

Latin America/Caribbean

Online

[At-Large \(/event-type/alac\)](/event-type/alac)

Speaker: Kim Davies - President, PTI & VP of IANA.

This session is part of a series of webinars organized by LACRALO and ICANN's Latin American and Caribbean Stakeholder Engagement Team. Please contact Rodrigo Saucedo if you plan to attend (rodrigo.saucedo@icann.org (<mailto:rodrigo.saucedo@icann.org>)).

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

ICANN's Technical Engagement Manager David Huberman delivers a one-hour training session to provide an overview of how the Domain Name System (DNS) works and how different DNS components interact with each other.

The training covers following topics:

- A Brief History of DNS
- The Name Space, Delegation, Zones
- Components for the DNS: Authoritative Servers, Resolvers (Stub & Recursives)
- Root Server System 101
- DNS Data: Zone Files, RR Types, Glue
- DNS Security Overview

Audience: General Public, Newcomers, Policy Makers, Network Engineers. This webinar is primarily aimed at the Internet Community in Central Europe and the Baltics - however, anyone interested is welcome to join!

Webinar for the Nordics: Internet Fragmentation? Technical and Political Perspectives (/event/internet-ecosystem/webinar-nordics-internet-fragmentation-technical-and-political-perspectives)

Europe

Virtual Meeting - Time in UTC

[Internet Ecosystem \(/taxonomy/term/27\)](/taxonomy/term/27)

Speakers:

Patrik Fältström - Technical Director and Head of Security, Netnod

Chris Mondini - ICANN Vice President, Stakeholder Engagement, Europe and Managing Director for Europe

This interactive webinar will address the question of Internet Fragmentation, from both technical and geo-political perspectives. Is it a true risk?

Patrik Fältström and Chris Mondini will share their perspectives, giving an overview of the technical hurdles, challenges and developments faced by the Internet, as well as the geopolitical, governmental and business challenges to global interoperability. What does the future hold for the ever expanding and resilient global Internet?

Please come with your own perspectives and questions. These can be raised live, during the webinar, or pre-submitted - they will then be read-out by the moderator during the discussion. Questions can be submitted to: gabriella.schittek@icann.org (<mailto:gabriella.schittek@icann.org>)

Topic: Digital Initiatives in the APAC Region

Date

20 January 2022

Time

1100 - 1230 (UTC +8)

Session Description

The APAC region is accelerating towards digitization and digitalization. This session will discuss various digital initiatives related to the use of domain names – public or private led – which will benefit businesses and organizations in the region and contribute to the development of the region's digital economy.

What to Expect

What are some recent digital initiatives in the APAC region?

How would APAC businesses/ organizations benefit from these initiatives?

Organized by: Arab Information & Communication Technologies Organization (AICTO) and ICANN
Registration: https://us06web.zoom.us/webinar/register/WN_96xb042JQK6mwe0I7kkwlw
(https://us06web.zoom.us/webinar/register/WN_96xb042JQK6mwe0I7kkwlw).

Description: Universal Acceptance" (UA) is an effort to address potential user issues and obstacles observed in the use of new Top-Level Domains, including Internationalized Domain Names (IDNs). Despite the availability of domain names and their corresponding email addresses in local languages and scripts, such as Arabic, their acceptance (i.e., usability) is not well supported by current software and applications. Analysis for universal acceptance (published at UASG.tech [uasg.tech]) shows that only about 11% of the top global websites would accept email addresses in Arabic as valid, and only about 7% of the email servers will receive an Arabic email address. All the remaining websites and email servers reject Arabic email addresses. The session will explore the role different stakeholders, including web developers, email system administrators, top-level domain registries and registrars, community, and the government, should play to address UA. For until UA is achieved across the board, the Internet is not accessible to everyone.

Moderator: Mr. Fahd Batayneh, Stakeholder Engagement Sr. Manager, ICANN, Middle East

Speakers

Mr. Abdelmonim Galilla, UASG Vice-Chair and UA Ambassador

Mr. Nabil Benamar, UASG Measurement WG Chair

Mr. Sami Triemeh, AICTO

Session Title: Encouraging Universal Acceptance

Date & Time 09:00-10:30 Dec 11 (Sat.)

Moderator: Edmon Chung (CEO of DotAsia Organisation, Board Member of ICANN)

Panelists:

- Akinori Maemura (GM of Internet Development Department of JPNIC, Board Member of ICANN)
- Kenny Huang (CEO of TWNIC, Chair of IDN ccTLD Policy)
- Jia-Rong Low (VP of ICANN Asia Pacific)

Specific Issues of Discussion and Description:

Universal Acceptance is a foundational requirement for a truly multilingual Internet, one in which users around the world can navigate entirely in local languages. It is also the key to unlocking the potential of new generic toplevel domains to foster competition, consumer choice and innovation in the domain name industry.

The Internet Corporation for Assigned Names and Numbers (ICANN) community has been working hard to make the Internet more open and accessible for everyone. Internationalized Domain Names (IDNs) was introduced into the cyber space, in which non-English Internet users to use their own language to access the Internet. The following challenges of Universal Acceptance to be tackled is to allow people to use IDNs and ensure that all types of top-level domains are accepted.

This session will start by introducing the current status of Universal Acceptance development, including the establishment of Universal Acceptance Steering Group in 2015 and its recent activities. The following issues will be discussed:

- Technology Gaps for Universal Acceptance
- Business Opportunity with UA
- Challenges ahead & what Taiwan's Internet community can contribute?

December 8, 2021 to December 9, 2021

[ICANN Draft FY23 Plans Informational Webinar \(/event/icann-organization/icann-draft-fy23-plans-informational-webinar\)](/event/icann-organization/icann-draft-fy23-plans-informational-webinar)

Virtual

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

The Internet Corporation for Assigned Names and Numbers (ICANN) invites the ICANN community to participate in an informational webinar about the Draft FY23-27 Operating and Financial Plan and Draft FY23 Operating Plan and Budget. Please register for one of the two webinars.

8 December 2021 at 16:00 UTC:

https://icann.zoom.us/meeting/register/tJUUpdeyqrj0pGdUI_Lga6Uja48P5zU63c_ud
(https://icann.zoom.us/meeting/register/tJUUpdeyqrj0pGdUI_Lga6Uja48P5zU63c_ud)

9 December 2021 at 01:00 UTC: https://icann.zoom.us/meeting/register/tJYvc-2opz8oH9duqz37_gQLXlihmZxDHhju (https://icann.zoom.us/meeting/register/tJYvc-2opz8oH9duqz37_gQLXlihmZxDHhju)

The Draft FY23-27 Operating and Financial Plan continues to define and demonstrate how ICANN organization (org) will implement the FY21-25 Strategic Plan. The Strategic Plan enables ICANN to continue to fulfill its mission and to meet new and continuously evolving challenges and opportunities. The Five-Year Operating and Financial Plan is intended to serve as an overarching view of the activities ICANN org performs or will support to satisfy the FY21–25 Strategic Plan. The Annual Operating Plan and Budget provides a comprehensive overview of how ICANN org will carry out its mission in the public interest over the next fiscal year, by defining and describing ICANN org's planned activities in FY23, and the anticipated funding sources and levels.

During the webinar, ICANN org will present information to help the community gain a deeper awareness and understanding of the draft plans. Webinar attendees can ask questions about the draft plans and its Public Comment proceeding.

The 3rd APAC DNS Forum pre-event webinar is on:

Topic: Search Engine Optimization (SEO) and Domain Names

Date: 18 November 2021 (Thursday)

Time: 1100 - 1230 (UTC+8)

The COVID-19 pandemic has accelerated digital transformation among businesses to ensure sustainability. In today's digital world, optimizing search engine queries are essential to enhancing business opportunities. This session will share how Search Engine Optimization (SEO) works and how it relates to domain names, and in this regard why domain names matter for your business. The session will also feature SEO tips and strategies, as well as the use of new generic top-level domain (gTLD) and Internationalized Domain Names (IDNs) to positively benefit online businesses.

Register for the webinar now!

November 17, 2021 - 19:00 to 20:00

New round of generic top-level domain names (gTLDs) / Operational Design Phase (Karen Lentz, ICANN)

DNS Security Threats - Summary of ICANN72 Sessions (Nicolas Antonello, ICANN)

Appreciation/Acknowledgement to Lito Ibarra, Sergio Salinas and Harold Arcos (Rodrigo de la Parra, ICANN)

November 17, 2021 - 12:00 to 14:00

[DNSSEC in the Nordics \(/event/icann-organization/dnssec-nordics\)](/event/icann-organization/dnssec-nordics)

Europe

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

This webinar will focus on how the five Nordic country code Top Level Domain (ccTLD) operators .dk, .fi, .is, .no and .se have tackled the implementation of DNS Security Extensions (DNSSEC) and its current state in the region. ICANN will also provide an overview of what the world-wide DNSSEC implementation looks like.

Audience: DNS Administrators, Policy Makers, Network Engineers, anyone with an interest in the DNS.

Agenda:

1) Why do we need DNSSEC? Michal "rysiek" Wozniak, .is

2) Stimulating a higher degree of DNSSEC signing

- .no: Introducing DNSSEC as an infrastructure upgrade - paving the way for rapid adoption, Hilde Thunem, .no

- .se: Health Status of the Swedish Internet - our work with the government and other essential sectors to improve security on the Internet, Ulrich Wisser, .se

- .dk: Four steps to increase DNSSEC signing for .dk domains, Kristian Hansen, .dk

- .fi: Increasing the DNSSEC validation rate - case Finland, Juhani Juselius, .fi

3) .is: Status update, transitioning from Open DNSSEC, Einar Bjarni Halldórsson, .is

4) ICANN: World-wide DNSSEC roll-out status, David Huberman, ICANN

To protect DNS data, it is important for DNS operators to understand DNS Security Extensions (DNSSEC). This course will discuss the DNSSEC concepts in detail covering the signing and validation of DNS data.

Expected Outcome:

Participants should be able to understand the concepts of DNSSEC and the deployment aspects.

Course Outline

- Public Key Cryptography
- DNSSEC Overview
- Signing
- Validation
- Non-existence
- Key management
- Chain of Trust
- Policy Considerations

Audience: DNS Administrators, Policy Makers with technical background, Network Engineers

This is the 2nd webinar of the monthly webinar series jointly organized by MYNIC and ICANN as part of APAC DNS Forum 2022. The session is titled: State of the Domain Name Industry – Challenges & Opportunities

Session Description:

Continuing from the first webinar, this session seeks to provide an introduction and overview of the Domain Name System (DNS) industry, as well as how the industry's different players interact with their customers and/or Internet end users. The session will also discuss the various challenges and corresponding potential opportunities in the DNS marketplace particularly in the APAC region.

What to Expect:

Who are the main players in the DNS industry?

What are their roles?

What are the trends, opportunities, and challenges in the domain name market?

Moderated by David Chui, Chief Innovation Officer, MYNIC

Speakers:

Mohamad Shidiq Purnama, Chief Registry Operator, Pengelola Nama Domain Internet Indonesia

Jacob Williams, General Manager, Domain Services, Interlink

Susan Lien, Co-founder, Reg.Asia by Web Commerce Communications

Prissilla John, Case Counsel, Asian International Arbitration Centre (AIAC)

[Training for the Nordics - History of the Root Server System \(/event/icann-organization/training-nordics-history-root-server-system\)](#)

Europe

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](#)

The History of the Root Server System is a 30-minute informal lecture that takes the audience from the beginnings of the DNS in 1983 through the present day. It focuses on the development of the Root Server System from just one root server to today's 13 root servers. It explains some of the mystery behind why the root servers are assigned the way they are. It highlights the status of root service in the local region. Finally, it discusses the next steps in Root Server System governance.

The audience for this informal talk is anyone interested in the Root Server System, its history and governance. This is a non-technical talk, although it assumes the audience knows what a root server is and why it exists.

Everyone with a general interest in the DNS is invited. Although this is an outreach effort to reach Internet community members from the Nordic region, stakeholders from other regions are welcome to join.

North America

Online

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

When:

Thursday, 09 September 2021 - 10AM EDT | 7AM PDT | 2PM UTC

The Internet has become one of the biggest drivers of the global economy, a hub for social interaction and mobilization efforts, and an indispensable tool for everyday life.

One of the key organizations that keeps the Internet secure, stable, and interoperable is the Internet Corporation for Assigned Names and Numbers (ICANN). While ICANN performs a very important technical function, it is also a forum for stakeholders from across the world to meet and develop the policies that make the Internet what it is today.

There are many ways to get involved at ICANN, but getting started can be daunting. Luckily, ICANN has newcomer programs to help you begin your ICANN journey. Learn how you can utilize your education, background, and knowledge to help form the Internet of the next decade.

During this webinar, aimed at the North American community, you will have the opportunity to hear first-person experiences from two ICANN program alumni. In addition, our staff will explain each of the newcomer programs to help you determine which program best meets your needs.

Join us and don't miss this opportunity to shape the future of the Internet!

...

September 8, 2021 - 12:00 to 13:00

[DNS 101 Training for the Nordics \(/event/icann-organization/dns-101-training-nordics\)](/event/icann-organization/dns-101-training-nordics)

Europe

Virtual Meeting - Time in UTC

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

ICANN's Technical Engagement Manager David Huberman delivers a one-hour training session to provide an overview of how the Domain Name System (DNS) works and how different DNS components interact with each other.

Training covers the following topics:

- A Brief History of DNS
- The Name Space, Delegation, Zones
- Components for the DNS: Authoritative Servers, Resolvers (Stub & Recursives)
- Root Server System 101
- DNS Data: Zone Files, RR Types, Glue
- DNS Security Overview

Important deliberations are happening at the United Nations (U.N.) and within the European Union (EU) that could affect your business. These discussions and proposed actions could mean changes in how the Internet's critical infrastructure is governed. ICANN is pleased to be hosting a comprehensive briefing on these happenings featuring members of its Government and Intergovernmental Organizations Engagement (GE) team.

At present, there are three processes at the United Nations General Assembly (UNGA) that you should keep an eye on. The Group of Governmental Experts (GGE) just finished its work and published a report, and the new Open-Ended Working Group (OEWG) is starting a 4-year process to discuss cybersecurity, while at the same time the Open-Ended Ad-Hoc Committee of Experts (AHC) is on the edge of starting to draft a new U.N. cybercrime convention. Only member-states are going to decide the outcome of these discussions, so it is vital that diplomats have all the information and knowledge necessary to craft sound policy. The OEWG and the GGE recently adopted their respective consensus reports; the AHC just had its organizational session, and a new OEWG held its organizational session on 1 June.

In Europe, a new landscape has emerged after the passing of the General Data Protection Regulation (GDPR). Registries and registrars are already navigating this new reality, but what else is happening that could affect the space? In addition to GDPR, there are legislative proposals currently under negotiation that are presenting new challenges for ICANN's contracted parties, including the proposals for a revised Directive on Security of Network and Information Systems (NIS2 Directive) and a Digital Services Act Regulation (DSA Regulation).

ICANN's GE team will explain these developments, and their potential impact on the Domain Name System, providing you with a sense of what can be expected in the near future.

Join us for this important briefing on Tuesday 20 July 2021 at 12pm EDT/9am PDT/ 4 pm UTC. Please register to receive the Zoom information. All stakeholders, regardless of whether they are an ICANN contracted party, are welcome to attend. We look forward to seeing you!

The GE team's publications on these topics can be found here:

<https://www.icann.org/resources/pages/government-engagement-publications...>

[SSAD ODP Project Update Webinar \(/event/icann-organization/ssad-odp-project-update-webinar\)](/event/icann-organization/ssad-odp-project-update-webinar)

Africa, Asia/Australia/Pacific, Europe, Latin America/Caribbean, North America
[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

This webinar will provide the community with an update on the System for Standardized Access/Disclosure to Non-Public Registration Data (SSAD) Operational Design Phase (ODP). It will give an update on the work being done by ICANN org's SSAD ODP project team, including the recently opened Request for Information (RFI), outline next steps in the project, and provide a timeline as to when the Operational Design Assessment (ODA) is expected to be delivered to the ICANN Board. The webinar will also include a general overview of the org's ODP process, and a question and answer session with community participants.

Please register in advance to receive details on how to join the webinar.

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

Registry / Registrar, Technical, Government, Business

A dialogue on how UA issues impact the APAC community, how best to address these issues, and highlight business opportunities by being UA-ready.

Part of the APAC UA Training Program, a partnership between ICANN and APTLD.

May 26, 2021 - 14:00 to 16:30

[Cyber Trends 2021 \(/event/internet-ecosystem/cyber-trends-2021\)](/event/internet-ecosystem/cyber-trends-2021)

Europe, North America

Online

[Internet Ecosystem \(/taxonomy/term/27\)](/taxonomy/term/27)

Event Description:

Now in its fifth year, Cyber Trends draws on the experience of industry practitioners, government representatives, and researchers to examine the current trends and what is on the horizon for the cybersecurity ecosystem, across the UK and around the world.

This year the debates will consider the impact of the global pandemic on the current and future cyber scene. We are at a critical juncture where new trends are appearing and transformative initiatives are taking place.

ICANN's Participation:

Panel: Domain Trust, a Project to Shape the Future of the Internet

Moderator: Andy Bates (Executive Director, UK, India, and Middle East, GCA)

Kelly Hardy (Head of Registry Policy, CentralNic)

Göran Marby (President and CEO, ICANN)

Līga Raita Rozentāle (Senior Director, Cybersecurity and Emerging Threats Policy, Microsoft)

Rowena Schoo (Policy and Government Relations Manager, Nominet)

May 25, 2021 - 15:00

[ICANN Webinar on Work Stream 2 Implementation \(/event/icann-organization/icann-webinar-work-stream-2-implementation\)](/event/icann-organization/icann-webinar-work-stream-2-implementation)

Virtual Meeting

[ICANN Organization \(/event-source/icann-organization\)](#)

The Internet Corporation for Assigned Names and Numbers (ICANN) organization's Implementation Operations Team will host a webinar on 25 May 2021 at 15:00 UTC, providing an update on the implementation of over 100 consensus recommendations contained in the Cross-Community Working Group on Enhancing ICANN Accountability, Work Stream 2 (WS2) Final Report. Please register in advance to receive details on how to join the webinar.

During this webinar, the newly created Implementation Operations Team will provide an update on progress in addressing the WS2 recommendations, which were adopted by the ICANN Board in November 2019. The list of recommendations is to be addressed by both community organizations and ICANN org. Therefore, the completion of WS2 implementation requires, in many instances, action and collaboration from all three components of ICANN: the community, Board, and org. The Implementation Operations Team welcomes feedback on the proposed roles and responsibilities it has outlined for each party.

[ICANN DNS Symposium \(IDS 2021\) \(/event/icann-organization/icann-dns-symposium-ids-2021\)](#)

Africa, Asia/Australia/Pacific, Europe, Latin America/Caribbean, North America

Online

[ICANN Organization \(/event-source/icann-organization\)](#)

The fourth ICANN DNS Symposium (IDS 2021) will be held virtually from 25 to 27 May 2021, in the +2 UTC time zone.

The theme for the ICANN DNS Symposium (IDS) 2021 is: "DNS ecosystem security: we're all in this together". As the DNS protocol and its ecosystem have matured, the risk tradeoffs and threat landscape have evolved with it. IDS 2021 will focus on measurements and mitigation measures driven by continued progress lead by community work.

Latin America/Caribbean, North America

Online

[Internet Ecosystem \(/taxonomy/term/27\)](#)

The American Registry for Internet Numbers (ARIN) and the Caribbean Telecommunications Union (CTU) are pleased to host the 4th ARIN/CTU Public Policy Group Special Forum. The theme for this event is "Caribbean Priorities Within A Changing Global Internet."

This virtual forum will feature keynote speakers, interactive discussions, and case studies on international Internet public policy topics relevant in the Caribbean.

The Forum will offer attendees a current, holistic view of the issues, trends and opportunities affecting adoption, resilience, and security of the Internet in the Caribbean. The goal is to foster awareness of approaches and practical strategies in the following areas:

Synchronization: coordination and collaboration on Internet policy development initiatives

Cooperation: safeguarding national, regional, and international development interests

Participation: facilitating Caribbean involvement in and tracking of international policy developments

[The Root Zone from A to Z \(/event/icann-organization/root-zone-z\)](/event/icann-organization/root-zone-z)

North America

Online

[ICANN Organization \(/event-source/icann-organization\)](/event-source/icann-organization)

The North America Global Stakeholder Engagement (GSE) team invites you to a webinar to discuss several operations involved in the creation and distribution of the Domain Name System (DNS) root zone.

Topics:

- Overview of the root server system,
- ICANN Managed Root Server (IMRS) strategy,
- Technologies such as hyperlocal,
- The mechanics involved in generating and securing the contents of the DNS root zone.

This webinar is intended to anyone interested in learning more about root server system.

When? 21 April 2021 at 1800 UTC.

This webinar will feature ICANN's foremost experts on the topic. You'll have the opportunity to hear from our Chief Technology Officer (CTO) David Conrad, the head of IANA, Kim Davies, the leader of our Security and Network Engineering (SaNE) team, Terry Manderson, and one of the Office of the CTO's top researchers, Roy Arends.

[North America Regional Engagement Plan Community Webinar \(/event/icann-organization/north-america-regional-engagement-plan-community-webinar\)](#)

North America

Online

[ICANN Organization \(/event-source/icann-organization\)](#)

The North America Global Stakeholder Engagement (GSE) team invites members of the ICANN community to join us for a webinar on creating the North America Regional Engagement Plan in alignment with the ICANN Strategic Plan FY21-25.

The webinar will be held on 6 April 2021 at 1800 UTC (14:00 EDT). Please register at:

<https://icann.zoom.us/meeting/register/tJEpdOqrrj0oGdCjriKIptdJsPRUxulHbq2M>

(<https://icann.zoom.us/meeting/register/tJEpdOqrrj0oGdCjriKIptdJsPRUxulHbq2M>).

Creating a regional engagement plan for North America provides an opportunity for the community and ICANN Org to focus on regional priorities and customize its goals and engagement activities to focus on those priorities. During this webinar we will explain the timeline and process to be used to create the plan.

A group of community members called the Advisory Panel have teamed with the North America GSE staff members to work on developing the regional plan. If you wish to join the Advisory Panel, please contact joe.catapano@icann.org (<mailto:joe.catapano@icann.org>) and naela.sarras@icann.org (<mailto:naela.sarras@icann.org>) to express your interest.

The North America Regional Engagement Plan will be effective starting 1 July 2021.

April 5, 2021 to April 7, 2021

To register click on the link.

Registration is now extended until 2 March 2021.

Agenda is attached, and can be seen here:

14.00 – 15.00 (CET)

ICANN's Technical Remit:

1. Overview
2. IANA Technical Operations
3. Key Signing Ceremonies in the Time of CoViD

This session provides an overview of ICANN's coordination of the Internet Assigned Numbers Authority (IANA) function, its responsibilities, and a description of what a Domain Name System Security Extensions (DNSSEC) Key Signing Ceremony looks like today.

15.00 – 16.00 (CET)

ICANN and the DNS Root:

1. IMRS Overview
2. Hyperlocal
3. Evolution of Root Server System Governance

This session will explain the approach for the ICANN Managed Root Server (IMRS) and give an introduction to Root server governance in general. It will also explain how Hyperlocal technology is used for decentralization of the root zone.

16.00 – 17.00 (CET)

ICANN's Contributions to the Security and Stability of DNS Operations:

1. DAAR
2. ITHI
3. DNSTICR
4. KINDNS

ICANN will present various technical projects related to security and stability of the Domain Name System: Domain Abuse Activity Reporting (DAAR); Identifier Technologies Health Indicators (ITHI); Domain Name Security Threat Information Collection and Reporting (DNSTICR) and Knowledge-sharing and Instantiating Norms for Domain Name Security (KINDNS).

Join us for an interactive webinar with the European Commission on its recent initiatives, including:

- The Digital Services Act (DSA)
- The EU Cybersecurity Policy Initiatives:
- The Cybersecurity Strategy
- The revised Network and Information Security Directive (NIS2)

During the webinar the European Commission will provide an overview of the recently announced initiatives, focusing on the areas of relevance to the DNS and the broader ICANN community, and answer your questions on these important initiatives and their possible impacts.

AGENDA:

- Welcome and Opening Remarks - 5 minutes

Elena Plexida, Vice President, Government and IGO Engagement
(Internet Corporation for Assigned Names and Numbers -ICANN)

- Introductory Remarks about the initiatives - 10 minutes

Olivier Bringer, Head of Unit "Next Generation Internet"
(European Commission)

- DSA: Overview and Q/A - 40 minutes

Irene Roche Laguna, Deputy Head of Unit "Ecommerce and Platforms"
(European Commission)

- EU Cybersecurity initiatives (Cybersecurity Strategy & NIS2): Overview and Q/A - 55 minutes

Gemma Carolillo, Deputy Head of Unit "Next Generation Internet",
Benjamin Boegel, Policy Officer "Cybersecurity Policy";
Christian D'Cunha, Policy Officer "Cybersecurity Policy"
(European Commission)

- Conclusions - 10 minutes

Olivier Bringer, Head of Unit "Next Generation Internet" (European Commission)

- Closing Remarks - 2 minutes

Elena Plexida, Vice President, Government and IGO Engagement (ICANN)

Questions can be submitted in advance to nora.mari@icann.org (<mailto:nora.mari@icann.org>).

For background information, you can view the recording of the ICANN Stakeholder Assembly: ICANN Perspectives on EU Digital Initiatives that took place on the 27 Jan here:

Session 2

Security: DoH, DoT, and DNS

Now that major Internet companies have implemented DoH and, partly, DoT, they have become a key topic in many forums, where the expression “DOH!” can be heard as an expression of concern, disappointment and misunderstanding of the impact DoH (and DoT) can have. Let’s revisit the matter and see if one could try a better expression. Or worse, for that matter.

- Presentation - download the attached pdf document

Please join David Conrad, Chief Technology Officer, and Elena Plexida, VP for Government and IGO Engagement, for a European regional Stakeholder Assembly presenting ICANN Org reflections on current European Union initiatives, including:

- Digital Services Act (DSA)
- Digital Market Act (DMA)
- Network and Information Security (NIS2) Directive
- EU Cybersecurity Strategy

This interactive webinar is open to all who register, and will provide an overview of areas where EU legislative and regulatory initiatives make mention of, or potentially affect, the Domain Name System. We will present potential impacts on ICANN's mission and technical remit and invite discussion on how various members of the broader ICANN community and ICANN policy development may be affected.

Agenda

1. Welcome and Opening Remarks - Chris Mondini
2. Overview of EU Initiatives – Elena Plexida
3. Technical Considerations for Policy Makers – David Conrad
4. Potential Impacts on ICANN Org and Community – Elena Plexida
5. Questions and Answers / Open Discussion – All

You can read more about the background on these issues here:

Virtual Meeting

Domain Name Industry, Regional Event

ICANN Organized Masterclass Session: "Demystifying the Internet Domain Names System Vs Intellectual Property, Copyright & Trademarks in the Wake of Covid-19".

Agenda:

- Introductory remarks - Pierre Dandjinou: 5 mn
- ICANN and the Domain Name Ecosystem - Bob Ochieng: 15 mn
- Domain Name dispute resolution - Seher Sagiroglu: 20 Mn
- Q/A: 15 mn

Questions the Session Will Answer:

1. Domain Names as digital Identity
2. Types of Domain Names; Why does this difference matter?
3. The process of domain name registration, legal concerns when registering domain names and how it varies from domain name ownership
4. Who owns a domain Name?
5. How can Domain Names Abused
6. Are domain name subject to copyrights law and what is the intersect between Domain name registration, Trademarks and copyright infringement?
7. The use of alternative dispute resolution as opposed to the judicial system in dealing with domain disputes and its role in promoting access to justice
8. Understanding Domain Names Registration Protection Mechanisms

Backdrop:

In its process of evolution, the Internet has become a vehicle for large volumes of commercial transactions, and so as to participate in this, one needs a presence in the Internet, an address in cyberspace – a domain name. As such, domain names are an equivalent to your digital real estate, your identity and brand online and as such have become highly valuable business assets.

This discussion will seek to enumerate the principles that regulate the domain name system (how the domain registry process works), the place of domain names as a tangible property and more specifically as an intellectual property. In this regard, we will consider issues surrounding copyrights, Trademarks and related potential infringements as they apply to the Domain Names. These issues have even increased in the wake of COVID-19 which has caused a boon in Domain Names registrations as more and more people turn to online platforms to remain connected.

With many countries now organizing their intellectual property rights structures, it is of significant necessary to better inform the legal fraternity in on the linkages or lack thereof between domain names, brands and trade marks as well as Intellectual property right protections mechanisms This session seeks

to address the trademark and rights protection issues that domain names registry managers, registrars and registrants in Africa are facing by providing a platform for sharing ideas on the best practices from experienced experts in the Domain Name space as well IP law

ICANN is a sponsor and participant of "Africa Legal Innovation Week 2020". To register:

Paul Hoffman and Alain Durand from ICANN Office of CTO will outline the political aspects of DoH/DoT, as well as ICANN's position on the topic. They will also deliver an introduction to ITHI.

October 29, 2020 - 09:00 to 11:30

[High Level Group on Internet Governance Agenda of the Multistakeholder Open Session \(/event/icann-speaking-events/high-level-group-internet-governance-agenda-multistakeholder-open\)](/event/icann-speaking-events/high-level-group-internet-governance-agenda-multistakeholder-open)

Europe

Online Meeting - Time is in UTC

Regional Event

ICANN's Elena Plexida, Vice President, Government and IGO Engagement, will be participating.

TO REGISTER

Please register by Wednesday 28 October 2020, 15.00 CET.

Full Agenda:

1. Opening remarks - Adoption of the agenda

2. Updates from the European Commission

Update from the European Commission on main ongoing policy initiatives, including Next Generation EU, Digital Services Act, cybersecurity, followed by Q&A.

Update on the launch of the call for selection of the .eu Registry.

3. 'New IP'

Presentation by Emily Taylor (Oxford Information Labs) of the different initiatives undertaken by China to adopt new internet standards and protocols.

Update from the European Commission on the discussions on a 'new IP' in ITU.

4. Follow-up on the UNSG High Level Panel report and future initiatives

Updates on ongoing and new initiatives shaping the future of internet governance, including the conclusions of REC 5A/B roundtables and follow-up actions.

Discussion on the implementation of the UNSG roadmap for digital cooperation.

5. EuroDIG

Takeaways from EuroDIG 2020.

6. IGF 2020

Update on the 15th Annual Meeting of the Internet Governance Forum (IGF).

Brief presentations of the Dynamic Coalition on Data and Trust (DC-DT) and the Dynamic Coalition on Internet Standards, Security and Safety (DC-ISSS).

7. ICANN69

Discussion on the outcome of ICANN69 and the state of play of the WHOIS policy development process.

8. AOB

Webinar: FY21 Action Plan for Universal Acceptance of Domain Names and Email Addresses

When: 20 August 2020

Time: 14:00 UTC

The Universal Acceptance Steering Group (UASG) is a community initiative supported by ICANN and formed in February 2015. It is tasked with undertaking activities that will target Universal Acceptance of all domain names and email addresses.

Universal Acceptance (UA) is a foundational requirement for a truly multilingual Internet, one in which users around the world can navigate entirely in local languages. It is also the key to unlocking the potential of new generic top-level domains (gTLDs) to foster competition, consumer choice and innovation in the domain name industry. To achieve Universal Acceptance, Internet applications and systems must treat all TLDs in a consistent manner, including new gTLDs and Internationalized Domain Names (IDNs). Specifically, they must accept, validate, store, process, and display all domain names.

The UASG will present its FY2021 action plan which includes the different projects and activities to advance and promote UA and Email Address Internationalization (EAI). More details can be found on UASG.tech website.

Online Meeting - Time is in UTC

Technical, Domain Name Industry

Adam Peake, Global Stakeholder Engagement, ICANN will be part of the panelists, along with Alissa Cooper, Chair of the Internet Engineering Task Force (IETF), Fergal Cunningham, Acting Chief Communications Officer, RIPE NCC, Sandra Hoferichter, EuroDIG Secretary General, and Edward McNair, Executive Director of NANOG.

"All across the industry, we have seen events moving online, with presenters and participants from all over the world logging on to follow sessions remotely. That so many large and small events have made this transition so quickly and smoothly has been truly impressive. And there's much we can gain by creating a level playing field for everyone through an online medium.

But are there also things that we risk losing when we move our events online? With the future of international travel still unclear, as we look to longer-term community approaches, what have we learnt so far and what can we do to support strong communities? And how do we ensure sound, consensus-based decision making in our virtual industry events?"

June 29, 2020 - 23:15 to 23:45

encryption-internet-ecosystem-and-its-users)

Europe

Online Meeting - Time is in UTC

Regional Event

ICANN's Mikhail Anisimov, Head of Eastern Europe and Central Asia will be a moderator.

"DNS over HTTPS (DoH) is a technical standard for enhancing the privacy and security of end users by preventing man-in-the-middle attacks and eavesdropping on DNS traffic. Browser vendors have proposed different implementation models of DoH but essentially some of these might lead to the centralization of internet infrastructure. The session will look into what are the effects of centralized and encrypted DNS name resolutions on cybersecurity as well as the effects of browser centric control of core infrastructure functions on policy making and Internet architecture."

June 10, 2020 - 16:30 to June 11, 2020 - 17:45

[EuroDIG 2020 -PRE 7: IoT and Core Internet values Dynamic Coalition – Internet successes and failures to support a world living under COVID19 lockdown \(/event/icann-speaking-events/eurodig-2020-pre-7-iot-and-core-internet-values-dynamic-coalition-%E2%80%93\)](#)

The Domain Name System in the Time of COVID-19: A Technical Perspective

9 April 2020, 13:00 UTC

Experts from ICANN's Office of the CTO (OCTO) will be discussing how the Internet, and the Domain Name System (DNS) in particular, are performing during the COVID-19 crisis.

The program will feature observations of DNS resiliency and other COVID-19 related issues from an ICANN perspective. Highlights from observations of DNS queries, along with news on community-based efforts to address DNS abuse will be featured topics. An invitation to partner with ICANN OCTO in ongoing research efforts, will also be shared.

Attendees are invited to contribute to the conversation with questions or comments.

Speakers:

Matt Larson, Vice President of Research

John Crain, Chief Security, Stability, and Resiliency Officer

[ICANN Training for European GAC Members and Newcomers \(/event/icann-speaking-events/icann-training-european-gac-members-and-newcomers\)](#)

Europe

Brussels, Belgium

Government, Regional Event

The Internet Corporation for Assigned Names and Numbers (ICANN) will hold a half-day long training workshop for European Governmental Advisory Committee (GAC) Members and Newcomers at our Brussels' Office on 9 October 2019.

The training aims to provide an overview of ICANN and its work to European Government Representatives and other interested parties. It will also include an overview of the Domain Name System (DNS) in addition to topical issues such as the General Data Protection Regulation (GDPR).

Active community involvement is crucial to ICANN's multistakeholder model, which aims to provide a bottom-up policy-making process in shaping the Internet's future. Through trainings for its stakeholders across the globe, ICANN hopes to provide clarity on the complexities and methods of its working processes to enable effective participation of potential community members.

The full agenda is available below.

Who Should Attend

- Governmental Advisory Committee (GAC) members interested in getting a better idea of ICANN and its work
- Community representatives interested in the GAC's work, or ICANN in general
- Community members from a governmental institution or organization, who would like to learn more about ICANN and its work

The training will be held in conjunction with the CENTR meeting on 9 October and will finish in time for participants wishing to attend the CENTR session for governments in the afternoon.

Meeting Venue: The Hotel, Boulevard de Waterloo 38 , 1000 BRUSSELS

Meeting Room: MEET 25 ONE

Register here: <https://go.icann.org/2L8nv9v> (<https://go.icann.org/2L8nv9v>)

For any questions, please contact Gabriella Schitteck at gabriella.schitteck@icann.org (<mailto:gabriella.schitteck@icann.org>).

AGENDA

09.00 – 09.40

DNS fundamentals & ecosystem overview

Patrick Jones, ICANN

09.40 – 10.10

Introduction to the IANA

Kim Davies, IANA

10.10 – 10.35

Introduction to ICANN, Internet Governance and ICANN's place in Internet Governance

Nigel Hickson, ICANN

10.35 – 11.00

ICANN Structure/GAC's role and interaction with ICANN's community through its Supporting Organizations and Advisory Committees-SOs/ACs

Laurent Ferrali, ICANN

11.00 – 11.15 Coffee Break

11.15 – 11.50

GNSO Policy making / current policy drafts/ when and how to get involved

Emily Barabas, ICANN

11.50 – 12.15

'Flash session' - Deep dive: Mitigating DNS Abuse within ICANN's Remit

Patrick Jones, ICANN

12.15 – 12.45 'Flash session' - Deep dive: GDPR and the evolution of WHOIS

Nigel Hickson, ICANN

12.45– 13.00 ICANN Engagement with Governments

- Legislative tracking
- Cooperation and ICANN capacity building
- How to stay engaged with ICANN

Nigel Hickson, ICANN

13.00 – 13.30 Lunch

October 8, 2019 - 14:00 to October 9, 2019 - 15:45

Automation, fragmentation, governance: The Future Internet between Business-as-usual and disruption?

Opportunities, risks and options for upcoming Internet development

Expert roundtable, Wednesday 25 September, 2019 – Eco, Lichtstraße 43h, 50825 Köln

Networking is the basic principle of this decade, at the same time a motive and driver for the majority of all current research and innovation, new business models and social developments. While the main technical performance parameters continuously evolve, the framework for these developments has become more fragile – key players are changing, old-fashioned technologies are increasingly viewed critically, and states are intervening and "censorship" is an increasingly common vocabulary.

The beautiful new world of the Future Internet can be described by more and more FTTH, high mobile bandwidths, low latency and more and more network automation, but also the wide availability of digital infrastructure such as clouds or even AI-on-demand.

In order to get a balanced picture, the upcoming Expert Roundtable on the Future internet, but also other perspectives: there is talk of increasing fragmentation, at least at the regional level, and perhaps even the development of separate Internet networks worldwide; talk of increasingly oligopolistic, even monopolistic platforms; and the problem of social media [and content regulation]. But what impact does it have on Internet governance when algorithms influence management, assign preferred routes and even filter what we see? What private and state influences is the Internet in the future exposed to? Who will set the rules in the future and monitor compliance? What will be able to do if someone doesn't follow the rules?

And the legal framework also fragments: Some experts see the Internet as an innovative, often lawless space, while others swear that it should be treated through traditional, established legal principles. This concerns various infringements on the Internet, such as trademark infringements, theft of ideas and piracy – and the different ways in which such violations at the legal and political level in different regions of the world.

After a series of conferences and roundtables looking at the recent experience in broadband fixed and mobile networks, Smart Networks, Internet Governance and Next-Generation Networks, the organisers want to tap into where it all could go in the future....

Tel Aviv, Israel

Domain Name Industry, Regional Event

On 21 July 2019, the Internet Corporation for Assigned Names and Numbers (ICANN) will hold a day-long training for the local Domain Name Industry Stakeholders at 4 Yosef Yekutieli St. (Bitan 26), Tel Aviv, Israel.

This initiative is part of ICANN's efforts to encourage effective engagement from its stakeholders, and invite newcomers to participate in ICANN. Speakers will include ICANN org members, as well as ICANN community experts.

Who should attend:

-DNS Industry professionals

-IP right holders

-Registrars, newly accredited by ICANN or interested in ICANN accreditation

-Staff at ICANN contracted parties, particularly those involved in ICANN's compliance processes and policy work

Register here: <https://go.icann.org/2Kv9p27> (<https://go.icann.org/2Kv9p27>).

Attendance is free of charge.

Space is limited and attributed on a first-come, first-served basis.

For more information or any queries, please email Gabriella Schittek: gabriella.schittek@icann.org (<mailto:gabriella.schittek@icann.org>).

[Domain Name Industry Stakeholder Training \(/event/icann-speaking-events/domain-name-industry-stakeholder-training\)](/event/icann-speaking-events/domain-name-industry-stakeholder-training)

Europe

Lisbon, Portugal

Domain Name Industry, Regional Event

On 19 June 2019, the Internet Corporation for Assigned Names and Numbers (ICANN) will hold a day-long training for Domain Name Industry Stakeholders at the SALÃO NOBRE D. MARIA II In Lisbon, Portugal (<https://www.ccip.pt/pt/o-que-fazemos/aluguer-de-espacos/salao-nobre>

(<https://www.ccip.pt/pt/o-que-fazemos/aluguer-de-espacos/salao-nobre>)). The training will take place the day before NamesCon Europe in Cascais, 20- 22 June (<https://namescon.com/europe/> (<https://namescon.com/europe/>)).

This initiative is part of ICANN's efforts to encourage effective engagement from its stakeholders, and invite newcomers to participate in ICANN. Speakers will include ICANN org members, as well as ICANN community experts.

Who should attend:

- DNS Industry professionals
- IP right holders
- Registrars, newly accredited by ICANN or interested in ICANN accreditation
- Staff at ICANN contracted parties, particularly those involved in ICANN's compliance processes and policy work

How to register:

To register, please go to <https://go.icann.org/DNI-Training-Lisbon> (<https://go.icann.org/DNI-Training-Lisbon>)

Attendance is free of charge.

Space is limited and attributed on a first-come, first-served basis.

For more information or any queries, please email Gabriella Schitteck at gabriella.schitteck@icann.org (<mailto:gabriella.schitteck@icann.org>).

AGENDA:

09.00– 09.30

Introduction to ICANN:

- Mission
- Role in the Internet Ecosystem Presentation:

Jean-Jacques Sahel, ICANN

09.30 – 10.30

ICANN's Structure and Policy Making Processes

- The Generic Names Supporting Organization (GNSO)
- ICANN's Policy Development Process (PDP)
- Relevant PDPs in Progress

Presentation:

Emily Barabas, ICANN

Jean-Jacques Sahel, ICANN

10.30 – 10.45 Coffee Break

10.45 – 11.15

General Data Protection Regulation (GDPR) and Temporary Specifications

Presentation:

Jean-Jacques Sahel, ICANN

11.15 – 12.30

The New Generic Top-Level Domain (new gTLD) Program:

- Subsequent Procedures' Progress
- Rights Protection Mechanisms
- Dispute Resolution Procedures

Presentation:

Aysegul Tekce, ICANN

Panel:

Michaela Cruden, Afilias

Kristian Ormen, Larsen Data

Moderator:

Amadeu Abril i Abril, CORE

12.30 – 13.15 Lunch Break

13.15 – 14.00 So, you were a Reseller – What now?

- How to become an ICANN accredited Registrar
- How to survive in the ICANN world as a newly accredited registrar

Presentation:

Aysegul Tekce, ICANN

Panel:

Michaela Cruden, Afiliias
Amadeu Abril i Abril CORE

Moderator:

Kristian Ormen, Larsen Data

14.00 – 14.45

ICANN's Contractual Compliance Approach and Processes

- Overall approach and processes
- Registrar-related compliance issues: What does it mean? How does it impact you?
- Abuse, domain renewal, transfer, data escrow and the Uniform Domain Name Dispute-Resolution Policy (UDRP)

Presentation: Zuhra Salijanova

14.45 – 15.00 Coffee Break

15.00 – 15.45

Operational Issues:

Best Practices: UDRP, Transfers, Domain Renewals, Abuse - What works and what doesn't?

Panel:

Verónica Marreiros, amen.pt
Amadeu Abril i Abril, COREhub

Moderator: Kristian Ormen, Larsen Data

15.45 – 16.00

Staying in Touch

Presentation:

Gabriella Schitteck, ICANN
Kristian Ormen, Larsen Data

Business

This is a closed teleconference, and open only to members of the Commercial Stakeholder Group (CSG).

About Us:

The Commercial Stakeholder Group (CSG) represents the views of users and connectivity providers; its mission is to ensure ICANN policy and ICANN contracts are consistent with the development of an Internet that is a safe place for business-to-business and business-to-consumer transactions and communications to take place based on high levels of business, user and consumer confidence.

The CSG is comprised of the following groups; visit their respective websites below to learn more:

- Commercial and Business Users Constituency (BC): <https://www.bizconst.org/>

(<https://www.bizconst.org/>).

- Intellectual Property Constituency (IPC): <https://www.ipconstituency.org/>

(<https://www.ipconstituency.org/>).

- Internet Service Providers and Connectivity Providers Constituency (ISPCP): <https://www.ispcp.info/>

(<https://www.ispcp.info/>).

Africa

Kampala, Uganda

Regional Event

ICANN Day

Place: Victoria Room, Sheraton Hotel Kampala

Time: 09:00 – 18:30

ICANN will host the ICANN Day for the fifth year in a row. Building on our past efforts, the goal is to continue raising awareness about ICANN's role in the Internet governance ecosystem and foster ICANN's engagement in Africa. This year's agenda will cover some of the hot topics on the global and

regional DNS agenda, such as:

- Universal Acceptance
- Internationalized Domain Names
- Evolution of Registry and Registrar Activities in Africa
- Cybersecurity: DNS as a Critical Component of a Secure and Reliable Internet
- Ensuring Effective Participation of the African Community in ICANN

Pierre Dandjinou, ICANN VP of Global Stakeholder Engagement in Africa, will also present ICANN's Africa Strategy Implementation Report.

You can register here: <http://input.icann.org/go?iv=1n5v44dw02b4t> (<http://input.icann.org/go?iv=1n5v44dw02b4t>)

[Africa Internet Summit 2019 \(/event/icann-speaking-events/africa-internet-summit-2019\)](#)

Africa

Kampala, Uganda

Regional Event

The Africa Internet Summit (AIS) is an annual, regional, multi-stakeholder ICT conference. It is the pinnacle educational and business ICT event in Africa where key players in the Internet industry can interact with the global Internet community. Launched in The Gambia in 2012, the Summit consists of seminars, workshops, tutorials, conference sessions, birds-of-a-feather (BOFs), and other forums for sharing ICT knowledge within the African region.

The Summit aims to bring the ICT business and technical community in Africa together under one roof to discuss ICT issues and challenges.

The African Internet community, drawn from academia, public and private sectors, technical organisations, governmental institutions and civil society, interact on Internet issues and Internet development in general. Our audience benefits from various panels of international experts who deliver insightful knowledge on ICT technologies.

The range of topics spans mobile networking, applications, cybersecurity, cyber laws, Internet governance, ICT for development, research, civil and information society issues, and African ICT success stories.

This is an open platform for everyone. Join your peers as well as business and technical leaders for the Africa Internet Summit - the place for sharing knowledge and networking within the Africa ICT community.

[ICANN Registrar Training \(/event/community-global-events/icann-registrar-training-0\)](#)

Moscow, Russia

Registry / Registrar

On 6 June 2019, the Internet Corporation for Assigned Names and Numbers (ICANN) will be conducting a day-long training – “Get Engaged in ICANN - Seminar for Registrars” – in Moscow, Russia, organized in partnership with REG.RU registrar.

This pilot initiative is a result of discussions with the registrar community wanting to learn more about topics ranging from ICANN functions to key DNS issues, and is part of ICANN's efforts to encourage effective engagement from its stakeholders.

The training will be conducted in Russian and English with simultaneous interpretation.

See below for the agenda.

Who should attend

- * Established ICANN accredited registrars, particularly those involved in ICANN's compliance processes and policy work.

- *Registrars newly accredited by ICANN.

How to register

- *There is no fee required for attendance. However, registration for on-site participation is limited, and subject to a first-come, first-served basis.

- *To register for this event, please go to: <http://input.icann.org/go?iv=36gff05k7yrni> (<http://input.icann.org/go?iv=36gff05k7yrni>).

Registration Deadline:

May 15, 2019

Venue

* The training will take place in “Azimut” Hotel, located at 8, Smolenskaya str., Moscow, Russia.

(<https://en.azimuthotels.com/Russia/azimut-hotel-smolenskaya-moscow/>

(<https://en.azimuthotels.com/Russia/azimut-hotel-smolenskaya-moscow/>)). Catering will be provided.

Agenda:

09.30 – 09.45 Opening remarks and presentation of participants.

9.45 – 10.10

General Introduction to ICANN

- The role & evolution of ICANN
- ICANN's organizational structure
- “Internet Governance” in an ICANN context
- Where do registrars fit?

10.10 – 10.45

Introduction of the GNSO/Registrar Stakeholder Group and Policy Development

- The Registrar Stakeholder Group's role & structure
- Working methods & policy development
- Current relevant Policy Development Processes (PDPs)

10.45 – 11.15 Coffee Break

11.15 – 12.45

ICANN's Contractual Compliance Approach and Processes

- Overall approach and process
- Registrar-related compliance areas
- What does it mean? How does it impact you?
- ICANN Contractual Compliance registrar lessons learned:
 - o Temporary specification
 - o Expired Registration Recovery Policy (ERRP)
 - o Transfer Policy
 - o Domain name abuse
 - o Uniform Domain-Name Dispute-Resolution Policy (UDRP)

12.45 – 13.45 Lunch Break

13.45 – 14.45

Registrar Operational Issues (Panel discussion)

- Registrar best practices: What works and what doesn't?
 - o Domain name abuse

- o Uniform Domain-Name Dispute-Resolution Policy (UDRP)
- o Expired Registration Recovery Policy (ERRP)
- o Transfer Policy.
- Q&A

14.45 – 16.15

Current High Interest Topics for Registrars:

- Legislative update:
 - o Overview of local legislation and recent legislative initiatives. Lessons learned and future considerations
 - o General Data Protection Regulation (GDPR)
- Universal Acceptance / Internationalized Domain Names (IDN)
- Registration Data Access Protocol (RDAP)

16.15 – 16.45 Coffee Break

16.45 – 17.00

Involvement in ICANN & How to Stay in Touch

- The Registrar Stakeholder Group: Why engage and what impact does your engagement have?
- How do I stay in touch with ICANN?
 - o Who to contact
 - o Overview of relevant meetings
 - o Available ICANN resources

17.00 – 17.15 Closing remarks. Training evaluation.

June 5, 2019 - 18:00 to 19:30

Internet Governance, Regional Event

The 3rd Global Conference of the Internet & Jurisdiction Policy Network will be held on June 3-5, 2019, in Berlin, Germany, and is organized in partnership with the Government of the Federal Republic of Germany. It is institutionally supported by the Council of Europe, European Commission, ICANN, OECD, UN ECLAC and UNESCO.

The meeting will gather senior-level representatives from states, Internet companies, technical operators, civil society, academia and international organizations to advance the development of operational solutions and policy standards for cross-border legal challenges on the internet.

[ICANN Board Workshop \(/event/board/icann-board-workshop\)](#)

Istanbul, Turkey

[ICANN Board \(/event-type/board\)](#)

The open Board session regarding approval of the IDN v4 Guidelines that was planned for 2 May 2019 at 07:30 (UTC) - 08:00 (UTC), is being postponed so that the Board can review and consider a request received by the GNSO on 30 April 2109 to review the policy implications prior to a decision being made. Instead, the open session on the FY19 Board Priorities update, initially scheduled on Friday 3 May at 10.45 UTC, will be held at that time. We apologize for the inconvenience. A new date and time for the IDN v4 discussion will be announced.

Date: 2 May, 2019

Time: 07:30 (UTC) - 08:00 (UTC)

Session: Board FY19 Priorities – Updates

<https://icann.zoom.us/j/913344466> (<https://icann.zoom.us/j/913344466>)

Webinar ID: 913 344 466

International numbers available: <https://zoom.us/u/abjnNPOsYV> (<https://zoom.us/u/abjnNPOsYV>)

Date: 3 May, 2019

Time: 07:00 (UTC) - 08:00 (UTC)

Session: Board Meeting

<https://icann.zoom.us/j/224369792> (<https://icann.zoom.us/j/224369792>)

Webinar ID: 224 369 792

International numbers available: <https://zoom.us/u/abjnNPOsYV> (<https://zoom.us/u/abjnNPOsYV>)

The sessions will be in English only. The format for each will be a listen-only session

For more information about the Istanbul workshop and other upcoming ICANN Board meetings, please go to <https://www.icann.org/resources/pages/2019-board-meetings> (<https://www.icann.org/resources/pages/2019-board-meetings>)

Regional Event

The World Summit on the Information Society (WSIS) Forum is a global United Nations (UN) multistakeholder platform facilitating the implementation of the WSIS Action Lines for advancing Sustainable Development Goals (SDGs). It is co-organized by ITU, UNESCO, UNDP and UNCTAD, in close collaboration with all WSIS Action Line co-/facilitators and other UN organizations (UNDESA, FAO, UNEP, WHO, UN Women, WIPO, WFP, ILO, WMO, ITC, UPU, UNODC, UNITAR, UNICEF and UN Regional Commissions). It represents the world's largest annual gathering of the 'ICT for development' community. It provides an opportunity for information exchange, knowledge creation and sharing of best practices, while identifying emerging trends and fostering partnerships, taking into account the evolving Information and Knowledge Societies. In follow up to the outcomes of the UN General Assembly Overall Review of the Implementation of WSIS Outcomes (Res. A/70/125) and with the adoption of the 2030 Agenda for Sustainable Development (Res. A/70/1), the WSIS Forum is constantly evolving and strengthening the alignment between the WSIS Action Lines and the Sustainable Development Goals.

ICANN is a contributing partner of the event.

CMS Africa is a continental summit that brings together global and African tech and business experts.

CMS AFRICA is a non-governmental organization offering training and support to established and start-up firms who operate in the area of web, app, and systems development using open source and proprietary Content Management Systems. CMS Africa also runs the CMS Africa Academy where we offer training on a number of web & mobile applications. We collaborate with companies and organizations in Africa & around the world to host the CMS Africa Summit and Africa Cybersecurity Summit.

Africa

Accra, Ghana

Domain Name Industry, Regional Event

WACREN is organizing its 5th Annual Conference on 14-15 March 2019 in Accra, hosted by the Ghanaian Academic and Research Network (GARNET).

The theme of the conference is: "Beyond Networks: Applications and Services" with the following sub-themes.

- Applications and Services (Cloud Services and Collaboration Tools, Trust and Identity, Cybersecurity)
- User and Science Engagement
- Teaching and Learning
- NREN Business Models and Use Cases
- Advanced Network Technologies

The conference is organized in a special context: the first to be hosted in a country connected to the WACREN backbone amidst pilots of advanced services and collaborations aimed at maximum utilisation and growth of the infrastructures.

More info >> <https://indico.wacren.net/event/71/> (<https://indico.wacren.net/event/71/>).

6th Middle East DNS Forum (/event/community-global-events/6th-middle-east-dns-forum)

Dubai, UAE

Regional Event

The Internet Corporation for Assigned Names and Numbers (ICANN) is organizing the sixth edition of the Middle East DNS Forum, hosted by Telecommunications Regulatory Authority (TRA) of the United Arab Emirates (UAE).

The Forum will bring together interested parties from the region and world experts in the field to share experiences and give updates on the domain industry.

More information is available at www.mednsf.org (<http://www.mednsf.org>).

This year's edition of the Middle East DNS Forum (MEDNSF) will be held in conjunction with APTLD75 in Dubai, UAE. The collaboration allows for joint sessions, as well as access to the MEDNSF participants to attend APTLD75 public sessions of interest.

Your registration for MEDNSF will allow you to attend APTLD75 public sessions only.

February 19, 2019 - 17:00 to February 20, 2019 - 17:45

Europe

Brussels, Belgium

Regional Event

Title: ICANN's Approach to Internet Policy: Workshop for Civil Society

Date: Tuesday, 29 January 2019 (All day)

Where: ICANN Regional Office in Brussels, Belgium

On 29 January, Internet Corporation for Assigned Names and Numbers (ICANN) will conduct a day-long workshop on "ICANN's Approach to Internet Policy" at the organization's regional office in Brussels. The workshop will take place the day before Computers, Privacy & Data Protection (CPDP) 2019, an annual event for global privacy experts, also attended by many civil society advocates and practitioners.

Engagement with civil society is an important component of realizing ICANN's multistakeholder model of governance. The workshop is part of ICANN's efforts to encourage effective engagement from its stakeholders, and invite newcomers to participate.

The event will be led by ICANN staff and community members. There will be presentations and discussions on a range of ICANN and Internet governance related topics, including the following:

- An Introduction to the Domain Name System (DNS)
- ICANN's mission, remit and the multistakeholder approach
- ICANN and Civil Society
- Policy Development at ICANN
- Key topics for Civil Society such as data protection and privacy, rights protection mechanisms, human rights, compliance and security.

How to register:

- There is no fee required for attendance. However, participation is limited and subject to a first-come, first-served basis.
- To RSVP and for more information, please send an email to adam.peake@icann.org (<mailto:adam.peake@icann.org>).

Location: Rond-point Robert Schuman 6, 1040, 1040 Bruxelles, Belgium

Catering will be provided.

Registry / Registrar

[View slides from the Workshop \(https://www.icann.org/en/system/files/files/engagement-registrars-workshop-26jan19-en.pdf\)](https://www.icann.org/en/system/files/files/engagement-registrars-workshop-26jan19-en.pdf)

On 26 January 2019, the Internet Corporation for Assigned Names and Numbers (ICANN) will be conducting a day-long training called "Get Engaged in ICANN: A Workshop for Registrars and Prospective Registrars" in Las Vegas, Nevada, USA. The training session will take place immediately

prior to NamesCon, the largest annual domain-industry conference, attracting professionals from around the world. See below for the agenda.

The Internet Corporation for Assigned Names and Numbers is a stakeholder-driven organization where registrars and registry operators shape the future of the domain name marketplace, developing ICANN policies that directly affect their businesses. This interactive workshop will increase participants' knowledge of ICANN's inner workings, from ICANN contractual compliance to what's next in ICANN policy development. Registrars and thought leaders will share operational advice around domain renewals, transfers, data escrow, and other practices. Bring your questions and opinions to this learning and networking opportunity, open to ICANN-accredited registrars and others who may be interested in learning more about how obtaining a registrar accreditation would affect their businesses.

Who should attend?

- Registrars newly accredited by ICANN or interested in ICANN accreditation
- New staff at established ICANN-accredited registrars, particularly those involved in ICANN's compliance processes and policy work
- Registrars interested in ICANN accreditation
- Domain name resellers

How to register

- **The event is currently oversubscribed.**
- To be put on the wait list, please go to: <https://go.icann.org/Registration>

Participants will be eligible for discounted tickets to NamesCon. For more information or any queries, please email: joe.catapano@icann.org (<mailto:joe.catapano@icann.org>).

Registration Deadline:

12 January 2019

Location:

The training will take place at the Tropicana Hotel
3801 S. Las Vegas Blvd., Las Vegas, NV 89109. Catering will be provided

Online

Regional Event

We will be holding an ICANN63 Readout Session on Monday 10 December at 11.00 - 12.00 UTC.

The session will cover hot topics debated within the different SO/ACs during ICANN63 in Barcelona.

To participate, join us at the Adobe Connect room: <https://participate.icann.org/meacswg/>
(<https://participate.icann.org/meacswg/>).

The agenda is as follows:

1. Welcome Note | Baher Esmat [2 minutes]
2. Update on GNSO
 - gTLD Registration Data EPDP | Rafik Dammak, Hadia Elminiawi [4 minutes]
 - Subsequent Procedures | Rafik Dammak [4 minutes]
 - Other GNSO PDPs | Rafik Dammak [4 minutes]
3. Cross-Community Working Group: Auction Proceeds | Hadia Elminiawi [4 minutes]
4. Update on ALAC/At-Large | Tijani Ben Jemaa [8 minutes]
5. Update on GAC and HLGGM | Manal Ismail [8 minutes]
6. Update on NomCom | Nadira Alaraj [4 minutes]
7. Open Floor | All [20 minutes]
8. Closing Remarks | Baher Esmat [2 minutes]

We will be using the Adobe Connect room at <https://participate.icann.org/meacswg/>
(<https://participate.icann.org/meacswg/>) for this call.

All toll-free numbers can be found at <http://bit.ly/2jEFB7c> (<http://bit.ly/2jEFB7c>). Some numbers include:

Bahrain (toll free) - 800 04212

Regional Event

AFRINIC-29 Hammamet, Tunisia, 26th - 30th November 2018

AFRINIC exists to expand the Internet for the sustainable development of Africa. One of the prominent ways in which AFRINIC implements this vision is through major events held around the continent to champion this debate. It is for this reason that AFRINIC will be holding the 29th series of these meetings. Dubbed AFRINIC-29, the meeting will take place from 26th - 30th November 2018 in Tunisia.

AFRINIC-29 is a follow-up to the African Internet Summit (AIS) 2018 that was held in Dakar, Senegal from 29th April - 11th May 2018. It was held in collaboration with the Ministry of Communication, Telecommunications, Posts and Digital Economy of Senegal and The Autorite de Regulation des Telecommunications et des Postes (ARTP). Over 500 participants attended the summit that consisted of in-depth policy development discussions, training courses, workshops, tutorials, plenary sessions and panel discussions. Some key highlights of the event included discussions on; net-neutrality, digital rights and privacy, the adoption of IPv6, internet measurement in Africa, DNS and related services, efforts to strengthen key internet infrastructure to keep the content and traffic local.

The meeting is also a follow-up to AFRINIC-27 that was held in Lagos in November 2017 in collaboration with the Nigeria Internet Registration Association. Over 200 delegates from 38 countries across the globe discussed, among other items, cyber security and how to keep Africa's networks safe.

Africa

Zanzibar, Tanzania

Regional Event

UbuntuNet-Connect is the Annual Conference of UbuntuNet Alliance that focuses on research and education networking activities in Africa. It is organised by UbuntuNet Alliance and hosted by member NRENs. The Conference brings together practitioners in the research and education networking community, researchers, policy makers, academicians, connectivity providers, and a pool of expertise from across Africa and beyond. In previous years, the conference has attracted sponsorship from leading commercial companies and service providers.

This year, UbuntuNet-Connect 2018, the 11th edition of the series of UbuntuNet-Connect conferences will be held in Zanzibar and will be hosted by the Tanzania Education and Research Network (TERNET), the NREN of Tanzania. The conference will take place on 22-23 November 2018.

[ICANN Registrar Training \(/event/community-global-events/icann-registrar-training\)](#)

Europe

Stockholm, Sweden

Registry / Registrar

On 21 November, the Internet Corporation for Assigned Names and Numbers (ICANN) will be conducting a day-long training called “Get Engaged in ICANN - Seminar for Registrars” in Stockholm, Sweden. The training session will take place in conjunction with Nordic Domain Days, an annual event that gathers regional experts of the Domain Name System (DNS) industry. See below for the agenda.

Engagement with the registrar community is an important component of realizing ICANN's multistakeholder model of governance. This pilot initiative is a result of discussions with the registrar community wanting to learn more about topics ranging from ICANN functions to key DNS issues, and is part of ICANN's efforts to encourage effective engagement from its stakeholders, and invite newcomers to participate.

Who should attend

*Registrars newly accredited by ICANN or interested in ICANN accreditation

*New staff at established ICANN-accredited registrars, particularly those involved in ICANN's compliance processes and policy work

How to register

*There is no fee required for attendance. However, registration for on-site participation is limited, and subject to a first-come, first-served basis.

*For those unable to attend onsite, remote participation will be available.

*To register for this event, please go to: <https://registration.icann.org/register.php?id=registrartraining-nov2018> (<https://registration.icann.org/register.php?id=registrartraining-nov2018>).

IIS, our hosts have kindly offered to provide participants of the training with free tickets to attend the Nordic Domain Days. For more information or any queries, please email: gabriella.schittek@icann.org (<mailto:gabriella.schittek@icann.org>)

Registration Deadline:
November 7, 2018

*The training will take place at IIS's offices at Hammarby Kaj 10D, Stockholm. Catering will be provided.

“Get Engaged in ICANN: Seminar for Registrars”
21 November 2018
Stockholm, Sweden

Agenda & Speakers:

9:00– 9.30 General Introduction to ICANN

- The role & evolution of ICANN
- ICANN's organizational structure
- “Internet Governance” in an ICANN context
- Where do registrars fit?

Nigel Hickson, ICANN Government and IGOs Engagement

9.30 – 10.30

Introduction of the GNSO/Registrar Stakeholder Group and Policy Development

- The Registrar Stakeholder Group's role & structure
- Working methods & policy development
- Current relevant Policy Development Processes (PDPs)

Emily Barabas, ICANN GNSO Policy Support

10.30 – 11.00 Coffee Break

11.00 – 11.45

So, you were a Reseller. What now?: Panel Discussion

- What you need to know when engaging with ICANN
- The main differences and challenges from being a reseller to an accredited registrar Moderator: Kristian Ormen, Larsen Data ApS

Ben Anderson, NetNames & Registrar Stakeholder Group

Mukesh Chulani, ICANN Registrar Services

Michaela Cruden, Afiliis

11.45 – 12.30

ICANN's Contractual Compliance Approach and Processes

- Overall approach and process
- Registrar-related compliance areas
- What does it mean? How does it impact you?

Zuhra Salijanova, ICANN Contractual Compliance

12.30 – 13.15 Lunch Break

13.15 – 14.30

Registrar Operational Issues: Panel Discussion

- Registrar best practices:
 - o Abuse, Uniform Domain-Name Dispute-Resolution Policy (UDRP), Expired Registration Recovery Policy (ERRP), Transfer Policy - What works and what doesn't?
- ICANN Contractual Compliance registrar lessons learned:
 - o Temporary specification / TBD

Q&A

Moderator: Nigel Hickson, ICANN Government and IGOs Engagement

Ben Anderson, NetNames & Registrar Stakeholder Group

Kristian Ormen, Larsen Data ApS

Zuhra Salijanova and Selim Manzak, ICANN Contractual Compliance

14.30 – 15.30

Current High Interest Topics for Registrars: GDPR and wider data privacy legislative initiatives: lessons learned and future considerations

Elena Plexida, ICANN Government and IGOs Engagement

15.30 – 15.45 Coffee Break

15.45 – 16.30

Involvement in ICANN & How to Stay in Touch

- The Registrar Stakeholder Group: Why engage and what impact does your engagement have?
- How do I stay in touch with ICANN?
 - Who to contact
 - Overview of relevant meetings
 - Available ICANN resources

Ben Anderson, NetNames & Registrar Stakeholder Group

Mukesh Chulani, ICANN Registrar Services

Internet Governance, Civil Society

Los procesos que dan forma a las instituciones, políticas y normas sobre Internet y el entorno digital se encuentran en constante evolución, y emergen desafíos para los cuales es necesario desarrollar abordajes multidimensionales para su intervención. El programa aborda una serie de temas que se encuentran en el centro de la agenda sobre el futuro de Internet: Ecosistema Institucional de Internet; Internet e infraestructura para el desarrollo; Economía, Negocios y Proteccionismo en el mundo digital; Gobernanza de la Ciberseguridad;) El equilibrio de los derechos humanos en Internet.

La propuesta está dirigida principalmente a profesionales (del sector público y privado) de América Latina, que se desempeñan en estos temas y desean consolidar su base de fundamentos y conceptos con casos orientados a la región, así como estudiantes de posgrado que buscan un espacio de formación acreditado.

El programa es concentrado y regional. Esta característica permite una inmersión intensiva para fomentar la interacción con pares de otras nacionalidades y organizaciones, a la vez que aprovechar el diálogo con los profesores y expertos invitados.

Fecha: 6 al 11 de Agosto 2018.

Duración: 52 horas (42 horas presenciales y 10 virtuales del módulo introductorio).

Costo total: \$39.000*

Período de inscripción: 1 de marzo al 25 de junio de 2018

Profesores internacionales confirmados: Susan Aaronson - George Washington University; Luca Belli - CTS/Fundación Getulio Vargas; Hernan Galperin – University of Southern California ; Konstantinos Komaitis, ISOC - Daniel Oppermann - NUPRI/ Universidad de San Pablo; Jesse Sowell, Stanford University.

Profesores de Argentina: Carolina Aguerre (UDESA); Pablo Palazzi (UDESA); Fernanda Vicens (CONICET- CNDC); Esteban Lescano (UBA/CETYS-UDESA); Oscar González (SETIC); Julián Dunayevich (nic.ar)

Africa

Dakar, Senegal

The Africa Internet Summit (AIS) is an annual, regional, multi-stakeholder ICT conference. It is the pinnacle educational and business ICT event in Africa where key players in the Internet industry can interact with the global Internet community. Launched in The Gambia in 2012, the Summit consists of seminars, workshops, tutorials, conference sessions, birds-of-a-feather (BOFs), and other forums for sharing ICT knowledge within the African region.

The Summit aims to bring the ICT business and technical community in Africa together under one roof to discuss ICT issues and challenges.

The African Internet community, drawn from academia, public and private sectors, technical organisations, governmental institutions and civil society, interact on Internet issues and Internet development in general. Our audience benefits from various panels of international experts who deliver insightful knowledge on ICT technologies.

The range of topics spans mobile networking, applications, cybersecurity, cyber laws, Internet governance, ICT for development, research, civil and information society issues, and African ICT success stories.

This is an open platform for everyone. Join your peers as well as business and technical leaders for the Africa Internet Summit - the place for sharing knowledge and networking within the Africa ICT community.

[Registrar Training \(/event/icann-speaking-events/registrar-training\)](#)

Europe

Munich, Germany

On 21 February, the Internet Corporation for Assigned Names and Numbers (ICANN) will hold a day-long training called “Get Engaged in ICANN - Seminar for Registrars” at BMW Group Classic, Moosacher Straße 66, in Munich, Germany. The training will take place in conjunction with Domain Pulse, a key annual event that gathers regional experts of the DNS industry. The seminar is a result of discussions with the registrar community wanting to learn more about topics ranging from ICANN functions to key DNS issues. ICANN worked with Blacknight, ECO, United Domains, and Larsen Data to develop the seminar’s agenda.

The seminar’s initiative is part of ICANN’s efforts to encourage effective engagement from its stakeholders, and invite newcomers to participate in ICANN. Engagement with the registrar community is an important component of realizing ICANN’s multistakeholder model of governance.

What the training offers

Topics will range from best practices in the sector to contractual compliance obligations. The seminar will provide participants with an opportunity to interact with each other and discuss various business, technical, and policy aspects of the DNS industry with experts from the field.

Who should attend

- Registrars newly accredited by ICANN
- Registrars interested in ICANN accreditation
- New staff at established ICANN accredited registrars, particularly those involved in ICANN’s compliance processes and policy work

How to register

Registration for both on-site and remote participation is limited to a first-come, first-served basis. To register: <https://registration.icann.org/register.php?id=registrartraining2018>
(<https://registration.icann.org/register.php?id=registrartraining2018>).

Registration Deadline: 14 February 2018

The event is free and open to both on-site and remote participation.

For more information or any queries please email: gabriella.schittek@icann.org
(<mailto:gabriella.schittek@icann.org>).

PROGRAM

Time Topic Speaker

9:00– 9.30 General Introduction to ICANN

- ICANN's organizational structure and where registrars fit
- “Internet Governance” in ICANN context, including ICANN's role and evolution

Gabriella Schitteck, ICANN

Nigel Hickson, ICANN

Mukesh Chulani, ICANN

9.30 – 10.20

Introduction of the GNSO/Registrar Constituency and Policy Development

- The Registrar Constituency's role & structure
- Working Methods & Policy Development

Emily Barabas, ICANN GNSO Policy Support

10.20 – 10.45 Coffee Break

10.45 – 11.30 So, you were a Reseller. What now?

Panel Discussion

- What you need to know when engaging with ICANN.
- The main differences and challenges from being a reseller to an accredited Registrar Moderator:

Tobias Sattler, United Domains

Mukesh Chulani, ICANN Registrar Services

Michaela Cruden, Afiliis

Kristian Ormen, Larsen Data

11.30 – 12.30 Operational Issues, Part I

Panel Discussion

- ICANN's Contractual Compliance Approach and Processes
- Registrar Compliance Program: registrar-related compliance areas
- What does it mean?
- How does it impact you?
- Review of registrar obligations Moderator: Thomas Rickert, ECO

Zuhra Salijanova, Contractual Compliance

Michele Neylon, Blacknight

Kristian Ormen, Larsen Data

Tobias Sattler, United Domains

12.30 – 13.30 Lunch Break

13.30 – 14.15 Operational Issues, Part II

Panel Discussion

- Contractual Compliance Registrar lessons learned:

- o Transfer Policy

- o Domain Renewal: Expired Registration Recovery Policy (ERRP)

- o Registrar Data Escrow

- Contractual Compliance Performance Measurement & Reporting

- Registrar Best Practices:

- o Uniform Domain-Name Dispute-Resolution Policy (UDRP), Registrar's Abuse contact and Duty to investigate reports of Abuse, Transfers, Transfer Emergency Action Contact (TEAC), Expired Registration Recovery Policy (ERRP), Expire, Redemption - What works and what doesn't?

Q&A Moderator: Thomas Rickert, ECO

Zuhra Salijanova, ICANN Contractual Compliance

Seher Sagiroglu, ICANN Contractual Compliance

Michele Neylon, Blacknight

Kristian Ormen, Larsen Data

Tobias Sattler, United Domains

14.15 – 15.30 Current High Interest Topics within ICANN

- Universal Acceptance

- Data Protection Universal Acceptance: Lars Steffen, ECO

Data Protection: Jean-Jacques Sahel, ICANN GSE Europe

15.30 – 15.50 Coffee Break

15.50 – 16.30 Involvement in ICANN & How to Stay in Touch

- The registrar stakeholder group: Why engage and what impact does your engagement have?

- Current projects where Registrars can contribute

- How to Stay in Touch with ICANN

- Who to contact

- Overview of Relevant Meetings

- Available ICANN Resources

Mukesh Chulani, , ICANN Registrar Services

Michele Neylon, Blacknight

Tobias Sattler, United Domains

Europe

Berlin, Germany

Regional Event

Event is sponsored by ICANN.

Lunch & Politics / Berlin Session 04: Luciano Floridi on Data Ownership

Data is depicted as the new oil fuelling new economic models and political processes. Narratives about data as currency or as individual property have caught the attention of regulators in Germany and across Europe. Discussions about “data ownership” were first raised concerning services offered by Internet companies such as Facebook and Google, and by the automotive industry. They claimed ownership over data generated within their products and services with the intent of adapting and optimizing that data. More recently, other constituencies have approached the idea of data ownership from a different perspective: consumer protection and civil society representatives express concern about companies making money by exploiting personal data and the sense that not enough is being given in return. “My data belongs to me” became an argument to demand more control over personal

data during negotiations regarding the reform of the Council of Europe Convention 108 and the General Data Protection Regulation (GDPR). Then again, in the light of new regulation being drafted regarding the flow of free data and the data economy, the EU Data Protection Supervisor expressed concerns about the potential monetization of personal data and the incremental datafication of production.

In his book *The Fourth Revolution* Luciano Floridi addresses the societal changes generated by digitalization: individuals perceive themselves as informational beings with the sense that their data belongs to them as an integral part of their identity. He elevates the concept of belonging to a different abstract concept of ownership. Can data be owned at all? What does belong mean and which norms result in consequence? Can data be attributed exclusively to a single person?

On the 10th of October 2017, we will address these and similar questions in an open debate about data ownership. The discussion will begin with a conversation with Luciano Floridi, professor of Philosophy and Ethics of Information at the University of Oxford, moderated by Jeanette Hofmann, professor of Internet Policy and Director of the Humboldt Institute for Internet and Society. All participants are invited to join the debate.

The discussion will be held in English.

When:

Tuesday, 10 October 2017

Programme:

12:30 - Arrival and sandwiches

13:00 - Conversation with Luciano Floridi

13:45 - Open debate with all guests

Conrad Dubai, Dubai, UAE

Civil Society, Regional Event

The panel / this gathering is a prelude to the upcoming 60th public meeting of ICANN ('ICANN60 ') which will take place for the first time in Abu Dhabi next month from the 28th October – 3rd November 2017.

The panelists are:

- Abdulrahman Al Marzouqi, Telecom Regulatory Authority, UAE
- Ali Al Meshal, ICANN Asia Pacific Regional At-Large Organization (APRALO)
- Mohammad Zeidan, Nuestar MENA
- Mahmoud Lattouf, Abu-Ghazaleh Intellectual Property (AGIP)
- Sultan Al Shamsi, Etisalat
- Baher Esmat, ICANN

The panel will be an opportunity to learn from some local and international experts about ICANN60 as well as an occasion to discuss the current hot topics present today in the Internet ecosystem, and potential business opportunities.

Dear All,

I have added Thursday 13 November to the Doodle poll as Leon is travelling on Wednesday and only able to make the first 30min of the last slot.

<http://doodle.com/wbfggttrk8p3ttad> (<https://doodle.com/wbfggttrk8p3ttad>).

If everyone is available on Thursday instead, that would be great. If not, we will remain with the current preferred slot of 2200 UTC to 2330 UTC on Wednesday.

Thank you for your cooperation.

Kind regards,

Gisella

Subject: RE: DOODLE APRALO call An urgent call for APRALO leadership to discuss plans for Singapore meeting

So, finally, Monday, at 5:00UTC.

Dear staff, please help us with the adobe space and please, dial me out for this call (+37494947773)

Our main goal is to discuss what APRALO activities will be conducted in Singapore and what we need to do based on the activities - so this will be our general agenda.

Staff presence and also Singapore staff (Kuek, Kelvin) presence is highly needed to have the clear set goals and next steps identified.

Looking forward talking to you all on Monday.

Best

Siranush

So, let's have it at 5:00 UTC, which is workable for all of us, then let's have doodle decide only the day - Monday or Tuesday.

Thanks

Sirik

Subject: Re: DOODLE APRALO call An urgent call for APRALO leadership to discuss plans for Singapore meeting

APRALO time zones seem to range from GMT + 4 (Armenia/Middle East) to GMT - 10 (Cook Islands). Given the 10-hour spread, the existing APRALO confcall timings are probably the best...

Subject: An urgent call for APRALO leadership

Dear staff,

Taking into consideration the latest developments of changing the ICANN 52 to Singapore (APRALO region), it is a necessity for our leadership team (Maureen, Holly, Ali, Satish, Cheryl, Pavan, Raf and myself) to have a call with staff, including Kuek and Kelvin, to discuss what will be our plans.

Can you, please, send a doodle for the mentioned members for Monday and Tuesday for different time slots to identify the best time to meet?

Thanks

Siranush

** Version Francaise à la suite de la version Anglaise **

Dear All,

The next AFRALO ROP WG call is scheduled on Friday 24 October 2014 at 15:00 UTC.

The draft agenda (to be updated) and call details are available at:

<https://community.icann.org/x/VxrxAg> (<https://community.icann.org/x/VxrxAg>).

Adobe Connect:

<http://icann.adobeconnect.com/afralo> (<http://icann.adobeconnect.com/afralo>).

Please remember that it is now possible to connect your audio via the AC room, without using your telephone. If you would like a reminder of how to connect please let staff know.

Please confirm your dial-out - if required - to staff@atlarge.icann.org (<mailto:staff@atlarge.icann.org>).

If you are unable to attend the call please send an email indicating your absence and we will note this information on the agenda.

Thank You.

Regards,

Cher Tous,

La prochaine la réunion du groupe de travail AFRALO ROP aura lieu vendredi 24 octobre 2014 a 1500 UTC.

L'ordre du jour (en attente de mise à jour) et détails de l'appel sont disponible à:
<https://community.icann.org/x/VxrxAg> (<https://community.icann.org/x/VxrxAg>).

Adobe Connect:

<http://icann.adobeconnect.com/afralo> (<http://icann.adobeconnect.com/afralo>).

Cette téléconférence sera interprétée en français.

Nous vous rappelons que vous pouvez désormais utiliser l'audio de l'Adobe Connect room afin de vous connecter sans utiliser votre ligne téléphonique.

Veillez demander à staff si vous avez besoin d'information à ce sujet.

*Merci de nous confirmer votre participation et dial-out - si nécessaire
staff@atlarge.icann.org (<mailto:staff@atlarge.icann.org>).

Si vous ne parvenez pas à assister à l'appel, merci de nous envoyer un courriel indiquant votre absence et nous allons en prendre note sur l'ordre du jour.

Merci.

Cordialement,

Regards,

Heidi Ullrich, Silvia Vivanco, Ariel Liang, Gisella Gruber, Nathalie Peregrine and Terri Agnew

Subject: Re: Task force "Outreach for more African representation in ICANN leadership positions

Dear Task Force members,

I think now, all the regions are represented and we can start working. For North Africa, I have temporary put Tijani's name.

We have a wiki page kindly set up by Sivia for us to work together.

<https://community.icann.org/pages/viewpage.action?pageId=49353312>
(<https://community.icann.org/pages/viewpage.action?pageId=49353312>).

Thank you Silvia.

Let's have a first meeting next week. If Staff can set up a Doodle for us for next week between Tuesday and Thursday afternoon UTC, that would be great.

Again, thank you for commitment and have a great week end

Fatimata

2014-09-15 14:07 GMT+00:00 Fatimata Seye Sylla :

Hello All,

After the publication of the NomCom 2014 selectees to fill the ICANN leadership positions with no African representation, I suggested the creation of a Task force to undertake Outreach activities for more African representation in ICANN leadership positions

During our last AFRALO monthly meeting, a call for volunteers to be a member of the Task force "Outreach for more African representation in ICANN leadership positions" was made.

So far, I have only two persons from West Africa: Seun Ojdeji and Beran Gillen. I would like to have at least one representative per each of the 4 sub-regions left (North, East, Central and South).

In the meantime, let me share with you the following blog for your information, We can start thinking about potential African candidates for the next available positions.

<http://post.milathan.com/2014/09/milathan-chairman-appointed-2015-icann-...>

(<http://post.milathan.com/2014/09/milathan-chairman-appointed-2015-icann-nomcom-chair/>)

It is time to start working on this serious issue...

Thank you very much for your commitment,

Fatimata

[At-Large \(/event-type/alac\)](#).

The ICANN Policy Development Support Team will provide a Policy Update Webinar on Thursday 2 October 2014 at 10:00 UTC and 19:00 UTC, summarizing policy activities across the ICANN policy development community including the ongoing Transition of Stewardship of the Internet Assigned Numbers Authority (IANA) Functions and the ICANN Accountability track efforts.

Updates will also be provided on topics from ICANN's Support Organizations and Advisory Committees:

Address Supporting Organization (ASO) and Regional Internet Registries (RIR) Activities
Generic Names Supporting Organization (GNSO) Inter-Registrar Transfer Policy Part D Working Group
GNSO Policy and Implementation Working Group
GNSO Privacy and Proxy Services Accreditation Issues Working Group
Country Code Names Supporting Organization (ccNSO) Framework of Interpretation Working Group
Final Report
At-Large Advisory Committee (ALAC) Policy Advice Activities
Government Advisory Committee's (GAC) Remaining Advice on new generic Top-Level Domains
GAC's Implementation of the Second Accountability and Transparency Review Team's (ATRTR2) Recommendations
Root Server System Advisory Committee (RSSAC) Caucus Work Parties
Security and Stability Advisory Committee (SSAC) Advisories and Activities

The two sessions are duplicates, scheduled to accommodate different time zones. Each session runs for 90 minutes and will be conducted in English only. The webinar will be conducted in Adobe Connect along with a dial-in conference bridge for audio.

Participants will have the opportunity to ask questions at the end of each session. During the course of the webinar, questions may be submitted using the chat function in Adobe Connect.

Recordings of the webinars will be made available. The Policy Development Support Team is always available to answer any questions via email atpolicyinfo@icann.org (<mailto:atpolicyinfo@icann.org>).

Please RSVP via this form by 26 September 2014.

Remote participation details will be sent the week of 29 September 2014.

Subject: !! RSVP !! - Important - POSTPONED - NEW Doodle / FBSC call - Tuesday 30 September 2014
at 2100 UTC

TODAY'S FBSC is CANCELLED – please complete Doodle poll to reschedule

Dear All,

Olivier Crépin-Leblond has a last minute commitment he is not able to change on Tuesday 30 September and is now unavailable for this call.

We have found slots for the latter part of the week – not ideal – but the only options we have.

Please complete the Doodle poll again and apologies for any inconvenience!

<http://doodle.com/a6k5ztn3f3y9k5nz> (<https://doodle.com/a6k5ztn3f3y9k5nz>).

Thank you.

Kind regards,

Gisella

[Pre Los Angeles 51 Policy Update Webinar \(/event/alac/pre-los-angeles-51-policy-update-webinar\)](/event/alac/pre-los-angeles-51-policy-update-webinar)

RSVP

[At-Large \(/event-type/alac\)](/event-type/alac).

The ICANN Policy Development Support Team will provide a Policy Update Webinar on Thursday 2 October 2014 at 10:00 UTC and 19:00 UTC, summarizing policy activities across the ICANN policy development community including the ongoing Transition of Stewardship of the Internet Assigned Numbers Authority (IANA) Functions and the ICANN Accountability track efforts.

Updates will also be provided on topics from ICANN's Support Organizations and Advisory Committees:

Address Supporting Organization (ASO) and Regional Internet Registries (RIR) Activities
Generic Names Supporting Organization (GNSO) Inter-Registrar Transfer Policy Part D Working Group
GNSO Policy and Implementation Working Group
GNSO Privacy and Proxy Services Accreditation Issues Working Group
Country Code Names Supporting Organization (ccNSO) Framework of Interpretation Working Group
Final Report
At-Large Advisory Committee (ALAC) Policy Advice Activities
Government Advisory Committee's (GAC) Remaining Advice on new generic Top-Level Domains
GAC's Implementation of the

Second Accountability and Transparency Review Team's (ATR2) Recommendations Root Server System Advisory Committee (RSSAC) Caucus Work Parties Security and Stability Advisory Committee (SSAC) Advisories and Activities

The two sessions are duplicates, scheduled to accommodate different time zones. Each session runs for 90 minutes and will be conducted in English only. The webinar will be conducted in Adobe Connect along with a dial-in conference bridge for audio.

Participants will have the opportunity to ask questions at the end of each session. During the course of the webinar, questions may be submitted using the chat function in Adobe Connect.

Recordings of the webinars will be made available. The Policy Development Support Team is always available to answer any questions via email atpolicyinfo@icann.org (<mailto:atpolicyinfo@icann.org>).

Please RSVP via this form (https://docs.google.com/forms/d/1-2G5_ti0hTCd0j8DBcAz3o5ktoWzY1zPqeQPGqWJ68Y/viewform) by 26 September 2014.

Remote participation details will be sent the week of 29 September 2014.

Conference Call

The IANA Stewardship Transition Coordination Group (ICG) will hold its fifth conference call on Wednesday, 1 October 2014 from 04:00-05:00 UTC. For time zone conversions, please see here.

The community is welcome to attend by way of a listen-only mode Virtual Meeting Room through which audio of the call will be streamed. Translations will be available through relevant Adigo Bridge dial-in numbers and Conference ID codes.

A list of country dial-in numbers can be found here. In the case that there is no appropriate dial-in number for an interested participant, ICANN will provide a dial-out service to that individual. Correspondingly, language service Conference ID numbers are listed below:

Français – Conference ID: 75929475

Español – Conference ID: 68385764

ä,æ-† – Conference ID: 825702

ÑfÑÑ°Đ,Đ¹ – Conference ID: 345720

ØŞÛ,,Ø¹Ø±Ø¨ÙŠØ© – Conference ID: 82855066

Português – Conference ID: 759752

Participants who are interested in an English line but are unable to join by way of the Virtual Meeting Room may request a dial-out service.

For all dial-out service requests please contact Alice Jansen by 03:00 UTC, 1 October.

In-Person Meetings

The ICG will be holding their next face-to-face meeting on Friday, 17 October 2014 from 09:00-17:30 PST/ 16:00-00:30 UTC in Los Angeles, California (Time zone conversions can be found here).

Observers are welcome to attend the session in-person. Note, however, that seating is limited. Information on remote participation and interpretation opportunities will be shared in due course.

In addition, the ICG invites the community to attend a special Open Discussion Session with them on Thursday, 16 October from 10:00-12:00 PST / 17:00-19:00 UTC (Time zone conversions can be found [here](#)). More information on the session will be made available as it is finalized.

To follow the ICG and learn more about the IANA Stewardship Transition visit <http://icann.org/stewardship> (<http://icann.org/stewardship>).

Dear All,

On behalf of Olivier Crépin-Leblond, Chair of the ALAC, we would like to invite you to join an ICANN 51 Briefing Webinar on Tuesday 30 September 2014 at 1400 UTC for 90 minutes.

For other times: <http://tinyurl.com/kn6xrom> (<https://tinyurl.com/kn6xrom>).

The main agenda items are:

Olivier Crépin-Leblond will be presenting the ALAC Sessions with the help of the Liaisons.

The Working Group Chairs – who will hold meetings in Los Angeles - will provide a good introduction on what they will be discussing in LA and what they are hoping to achieve.

The RALO leaders will present on what they will be looking forward to achieving in Los Angeles.

Reminder on how to participate in an ICANN Meeting remotely

Dear Accountability Coordination selection committee members,

all applications have been received for the ALAC position on the Accountability & Governance Coordination Group.

Please consult them by clicking on the link on

<https://community.icann.org/x/QpDhAg> (<https://community.icann.org/x/QpDhAg>).

You will need to log-in to be able to see the Expressions of Interest.

As there are not that many candidates, would you like to start with a poll like we did on the selection of the At-Large delegates to the ICG, or do you wish to go straight into a discussion on the mailing list or on a conference call?

Kind regards,

Olivier

Subject: 2014 IGF and At-Large Participation and Activities

Dear All,

As the 2014 IGF will be held 2-5 September in Istanbul, Turkey, At-Large staff have created an At-Large Activities at the IGF in Istanbul Workspace (see: <https://community.icann.org/display/atlarge/At-Large+Activities+at+the+I...> (<https://community.icann.org/display/atlarge/At-Large+Activities+at+the+IGF+in+Istanbul+-+2-5+September+2014>)). This Workspace is meant to assist in facilitating At-Large activities as well as ensure At-Large members are aware of ICANN activities being planned at the IGF.

Attending the IGF in Istanbul?

If you will be attending the IGF in Istanbul, please add your name and the dates you will be in Istanbul to this workspace by 22 August 2014. Alternatively, please send At-Large staff this information, and we will add it to the workspace for you.

Participating in IGF Activities?

We have included the details of the activities we are aware of on the workspace. If you will be involved in any other IGF activities, please feel free to add them to this workspace or let At-Large staff know.

Available for At-Large Outreach Activities at the ICANN Information Booth?

If you would be willing to volunteer for a few hours in the ICANN information booth for At-Large outreach activities, please add your name to the relevant table on the workspace or let At-Large staff know by 22 August 2014. ICANN staff will be happy to work with the At-Large sign up and there will be other members of the community we hope will also spend time at the booth

ICG Announces Fourth Conference Call

16 September 2014

The IANA Stewardship Transition Coordination Group (ICG) will hold its fourth conference call on Wednesday, 17 September 2014 from 21:30-22:30 UTC. For time zone conversions, please see [here](#).

The community is welcome to attend by way of a listen-only mode Virtual Meeting Room through which audio of the call will be streamed. Translations will be available through relevant Adigo Bridge dial-in numbers and Conference ID codes.

A list of country dial-in numbers can be found [here](#). In the case that there is no appropriate dial-in number for an interested participant, ICANN will provide a dial-out service to that individual.

Correspondingly, language service Conference ID numbers are listed below:

Français – Conference ID: 75929475

Español – Conference ID: 68385764

中文 – Conference ID: 825702

Русский – Conference ID: 345720

العربية – Conference ID: 82855066

Português – Conference ID: 759752

Participants who are interested in an English line but are unable to join by way of the Virtual Meeting Room may request a dial-out service.

For all dial-out service requests please contact Alice Jansen by 15:00 UTC, 17 September.

For more information about the ICG and the IANA Stewardship Transition, please visit the NTIA IANA Functions' Stewardship Transition Microsite.

RRG - ATLAS II (/event/alach/rrg-atlas-ii)

2000 UTC - ADIGO 1638 / <http://icann.adobeconnect.com/atlas2/>

At-Large (/event-type/alach)

Dear All,

Further to the Doodle poll, the RRG call is scheduled at 2000 UTC today. Murray and Carlos have not yet responded.

I will set up the meeting page for this call but in the meantime, please HOLD this slot!

Conference ID: 1638

ADIGO dial-in numbers: <http://adigo.com/icann/> (<http://adigo.com/icann/>)

Adobe Connect:

<http://icann.adobeconnect.com/atlas2/> (<http://icann.adobeconnect.com/atlas2/>)

Olivier, - UK mobile dial-out

Holly - usual number?

Cheryl - as per your instructions in Brisbane

Thank you.

Kind regards,

Gisella

On 15/09/2014 11:44, "Gisella Gruber" wrote:

Dear All,

Please complete the attached Doodle poll to schedule a call this week.

<http://doodle.com/ftvmystykearsabi> (<https://doodle.com/ftvmystykearsabi>)

Thank you!

Kind regards,

Gisella

On 14/09/2014 02:38, "Holly Raiche" wrote:

First of all - thank you Leon for thinking about my 'crazy' time zone.
And Gisella has made some good suggestions for times.

And Gisella - to help you with a Doodle, I am already on the ALT call at 2000 15 Sept, so 2000 on any of the following days would be fine (no later on the 16th (17th am my time) but other timeshare better.

Talk soon to everyone

HOLly

On 12 Sep 2014, at 11:35 pm, Gisella Gruber wrote:

Dear Leon and All,

Holly is still in Australia next week but may be attending the APNIC 38.

However, good times for all of you are:

2000 UTC - 1600 EDT - 0600 SYD

2100 UTC - 1700 EDT - 0700 SYD

2200 UTC - 1800 UTC - 0800 SYD

1100 UTC - 0700 EDT - 2100 SYD

1200 UTC - 0800 EDT - 2200 SYD

I am happy to launch a Doodle for next week.

Thank you!

Kind regards,

Gisella

On 12/09/2014 14:07, "León Felipe Sánchez Ambía"

wrote:

Dear all,

As you are aware, we weren't able to provide updates on our commitment in

the action item of summarizing reports form ATLAS2.

I believe we were all busy with things like the IGF and that prevented us

from being able to coordinate a call.

In order to catch up with our work, I here propose to have a coordination

call for next week. Should I open a doodle poll? Which time zones do

we
have? I believe most of us are somewhere in America except for Holly
so I
propose we all make an effort to find a spot which can accommodate
Holly
in a non-crazy hour for her.
Please let me know your thoughts.
Kind regards,
León

**** Version Francaise à la suite de la version Anglaise ****

Dear All,

Further to the Doodle poll, the AFRALO ROP WG call is scheduled on Friday 12 September 2014 at 15:00 UTC.

The draft agenda (to be updated) and call details are available at:
<https://community.icann.org/x/3AvxAg> (<https://community.icann.org/x/3AvxAg>).

Adobe Connect:
<http://icann.adobeconnect.com/afralo> (<http://icann.adobeconnect.com/afralo>).

Please remember that it is now possible to connect your audio via the AC room, without using your telephone. If you would like a reminder of how to connect please let staff know.

Please confirm your dial-out - if required - to staff@atlarge.icann.org (<mailto:staff@atlarge.icann.org>).

If you are unable to attend the call please send an email indicating your absence and we will note this information on the agenda.

Thank You.

Regards,

Cher Tous,

Faisant suite au Doodle, la réunion du groupe de travail AFRALO ROP a lieu vendredi 12 septembre 2014 à 1500 UTC.

L'ordre du jour (en attente de mise à jour) et détails de l'appel sont disponible à:
<https://community.icann.org/x/3AvxAg> (<https://community.icann.org/x/3AvxAg>).

Adobe Connect:
<http://icann.adobeconnect.com/afralo> (<http://icann.adobeconnect.com/afralo>).

Cette téléconférence sera interprétée en français.

Nous vous rappelons que vous pouvez désormais utiliser l'audio de l'Adobe Connect room afin de vous connecter sans utiliser votre ligne téléphonique.

Veuillez demander à staff si vous avez besoin d'information à ce sujet.

*Merci de nous confirmer votre participation et dial-out - si nécessaire
staff@atlarge.icann.org (<mailto:staff@atlarge.icann.org>).

Si vous ne parvenez pas à assister à l'appel, merci de nous envoyer un courriel indiquant votre absence et nous allons en prendre note sur l'ordre du jour.

Merci.

Cordialement,

Regards,

Heidi Ullrich, Silvia Vivanco, Ariel Liang, Gisella Gruber, Nathalie Peregrine and Terri Agnew
ICANN Policy Staff in support of ALAC

Subject: Organizing the upcoming RALO Secretariat's call- Doodle to be sent out shortly.

Dear RALO leaders,

As customary we would like to organize a RALO Secretariat's call in preparation for the ICANN 51st Meeting. Gisella will send a doodle out to organize the call to take place during the week of September 8th – 12th.

The draft Agenda will be coordinated with NARALO's Secretariat, region in which the meeting will take place, which traditionally chairs the RALO Secretariats meeting.

Thank you!

Kind regards,

Silvia

Subject: 2014 IGF and At-Large Participation and Activities

Dear All,

As the 2014 IGF will be held 2-5 September in Istanbul, Turkey, At-Large staff have created an At-Large Activities at the IGF in Istanbul Workspace (see: <https://community.icann.org/display/atlarge/At-Large+Activities+at+the+I...> (<https://community.icann.org/display/atlarge/At-Large+Activities+at+the+IGF+in+Istanbul+-+2-5+September+2014>)). This Workspace is meant to assist in facilitating At-Large activities as well as ensure At-Large members are aware of ICANN activities being planned at the IGF.

Attending the IGF in Istanbul?

If you will be attending the IGF in Istanbul, please add your name and the dates you will be in Istanbul to this workspace by 22 August 2014. Alternatively, please send At-Large staff this information, and we will add it to the workspace for you.

Participating in IGF Activities?

We have included the details of the activities we are aware of on the workspace. If you will be involved in any other IGF activities, please feel free to add them to this workspace or let At-Large staff know.

Available for At-Large Outreach Activities at the ICANN Information Booth?

If you would be willing to volunteer for a few hours in the ICANN information booth for At-Large outreach activities, please add your name to the relevant table on the workspace or let At-Large staff know by 22 August 2014. ICANN staff will be happy to work with the At-Large sign up and there will be other members of the community we hope will also spend time at the booth

Subject: ACTION REQUESTED: Preparation of summary of your ATLAS II Group's Activities and Achievements

Dear All,

On behalf of Olivier Crépin-Leblond, Chair of the ALAC, we would like to request that each ATLAS II Group/Sub-Group Chair and ATLAS II Thematic Group moderator prepare a brief summary (300-500 words) of their group's activities and achievements.

These summaries will be useful as we begin the post-ATLAS II implementation activities as well as serve as a guide in the preparation of the next ATLAS.

We would like to request that these summaries be sent to At-Large staff by Wednesday, 20th August in advance of the single issue Post-ATLAS II call being scheduled.

They will be posted on the Post-ATLAS II Activities Workspace.

As a reminder, please find links to the ATLAS II WGs and Thematic Groups:

ICANN 50 - London

NTIA IANA Functions' Stewardship Transition

Name: ICANN50 Transition of NTIA's Stewardship of the IANA Functions

Date: 23 June 2014 (13:30-15:30 BST)

Location: London, UK

Region: EUR

Link: <http://london50.icann.org/en/schedule/thu-iana-stewardship-transition>

(<http://london50.icann.org/en/schedule/thu-iana-stewardship-transition>).

June 26, 2014 - 11:00 to June 27, 2014 - 11:45

ALAC & Regional Leadership Wrap-Up Meeting (/event/alac/alac-regional-leadership-wrap-meeting-1)

Windsor Suite

At-Large (/event-type/alac)

This is the final meeting of the ALAC in which action items are reviewed and ALAC action, such as voting, takes place.

<http://london50.icann.org/en/schedule/thu-alac-regional-wrap-up>

(<http://london50.icann.org/en/schedule/thu-alac-regional-wrap-up>).

June 26, 2014 - 09:30 to 11:30

[Enhancing ICANN Accountability \(/event/alach/enhancing-icann-accountability\)](/event/alach/enhancing-icann-accountability)

Sandringham

[At-Large \(/event-type/alach\)](/event-type/alach)

The Enhancing ICANN Accountability process will examine from an organizational perspective how ICANN's broader accountability mechanisms should be strengthened to address the absence of its historical contractual relationship to the U.S. Government.

This interactive, two-hour session will serve to further the discussion and gather the community's views and input on the process and on how to strengthen existing mechanisms, assess ICANN's redress mechanisms and explore new accountability mechanisms where necessary.

Viscount

[At-Large \(/event-type/alach\)](#)

ICANN has been created to provide a global infrastructure to manage worldwide Internet resources like domain names, IP addresses and Internet parameters. To be really "global", ICANN needs to provide a framework where all stakeholders worldwide can interact on equal footing, without cultural, geopolitical, gender, or other barriers to participation. Moreover, ICANN needs to be accountable to the global Internet community: the globalization of ICANN is strictly linked to the ability of the multi-stakeholders to set checks and balances to verify that ICANN is really independent from local constraining factors limiting the global equal access to the process.

June 22, 2014 - 06:00 to June 23, 2014 - 06:45

Dear ATLAS II Participants,

With the Second At-Large Summit (ATLAS II) taking place in a little more than one week, Olivier Crepin-Leblond and Eduardo Diaz, the co-Chairs of the ATLAS II Organizing Committee, would like to invite you to an ATLAS II briefing call entitled: ATLAS II - What to expect ? A practical briefing call for ALS representatives participating in the ATLAS II.

This call will include an overview of ATLAS II and At-Large meetings and the main topics to be discussed as well as a briefing of social events, social media activities, and logistics. There will also be an opportunity for ATLAS II participants to ask questions.

This call is scheduled on Monday 16 June 2014 at 1300 UTC.

For other times:

<http://tinyurl.com/owl8q6t> (<https://tinyurl.com/owl8q6t>)

The draft agenda (to be updated) and call details can be found at:

<https://community.icann.org/x/tKrhAg> (<https://community.icann.org/x/tKrhAg>)

French and Spanish interpretation will be provided.

If you require a dial-out please contact At-Large staff at staff@atlarge.icann.org (<mailto:staff@atlarge.icann.org>) with your preferred number.

We look forward to having you join us on this briefing call to prepare for your time at the ATLAS II in London!

Regards,

Estimados Participantes en la ATLAS II,

Con la segunda Cumbre de At Large (ATLAS II) que se llevara a cabo en un poco más de una semana, Olivier Crépin-Leblond y Eduardo Diaz, los co- presidentes del Comité Organizador de ATLAS II, les gustaría invitarlos a una llamada de información titulada : ATLAS II – Que esperar ? Una llamada informativa practica para representantes de las ALS que participan en el ATLAS II.

Esta llamada incluirá una revisión completa de las reuniones de ATLAS II y de At-Large y los temas principales a ser discutidos también así como los eventos sociales, actividades de social media y logística. También habrá una oportunidad para que los participantes hagan preguntas.

Esta llamada está programado para el lunes 16 junio a las 13:00 - 14:00 UTC.

Para ver las horas en sus respectivos paises vea :

Si necesita una llamada a su telefono, por favor póngase en contacto con el personal de At-Large en staff@atlarge.icann.org (<mailto:staff@atlarge.icann.org>) con su número preferido.

Esperamos contar con vuestra participación en esta llamada para prepararlos para su estadía en el ATLAS II en Londres.

Saludos cordiales,

Chers Participants au Sommet ATLAS II,

Avec le deuxième sommet At-Large (ATLAS II) qui aura lieu dans un peu plus d'une semaine, Olivier Crepin-Leblond et Eduardo Diaz, les co-présidents du Comité Organisateur de l'ATLAS II, aimeraient vous inviter à une séance d'information sur l'ATLAS II, intitulé: L'ATLAS II - À quoi s'attendre? Une séance d'information pour les représentants des ALS participant à l'ATLAS II.

Vous aurez un aperçu de l'ATLAS II, des réunions At-Large et les principaux thèmes qui seront abordés ainsi que les événements sociaux, les activités de médias sociaux et les logistiques. Les Participants de l'ATLAS II auront également l'occasion de poser des questions.

Cet appel aura lieu le lundi 16 juin 2014 à 1300 UTC

Pour voir votre heure locale:

Objet : [cropp-rt] Fwd: FY15 CROPP Wiki Space Now Open

Please find an email from Rob Hoggarth and Janice Douma-Lange, announcing the new CROPP for FY15. A lot of details to review, I'm thinking it may be prudent to have a conference call before with CROPP RT members (also with members of the capacity and outreach SCs and RALO leaders) early next week to review and update our process as necessary (for example, there is now a wiki space where draft proposals may be filed so the CROPP RT can review and update that proposal on the wiki instead of collecting information via the Google Form and discussing on the list)

Kind Regards,

Dev Anand

Dear At Large RALO and GNSO Constituency Leaders:

Following up on my recent 12 May email, I am pleased to report that the FY15 Community Regional Outreach Pilot Program (CROPP)Wiki Space is now open and ready for your use. We look forward to partnering with you in delivering CROPP resources effectively to your communities in FY15 in hopes of proving the longer term viability of this resource. The official URL is -

<https://community.icann.org/display/croppfy15/Community+Regional+Outreac...>

(<https://community.icann.org/display/croppfy15/Community+Regional+Outreach+Pilot+Program+%28CROPP%29-FY15+Home>). .

Overview

As was true last year, the CROPP provides a framework in which each of the At-Large RALOs and GNSO Non-Contract Constituencies will be allocated 5 regional (3-day) outreach trips. The specific processes and guidelines for how these resources are to be made available are set forth on a redesigned CROPP Program Elements page.

Three key components of the FY15 program have not changed and include:

- 1) Specific pre-trip approval standards flexibly administered by your community leadership and ICANN Stakeholder Engagement Vice-Presidents;

- 2) Post-trip reviews and assessments; and

3) An overall spirit of transparency by which all ICANN community members can observe the implementation of the program.

FY15 Improvements

Based upon community feedback and our learning from the initial pilot implementation, we have made the following improvements for FY15:

1) Revised policies and procedures

- Support for certain fees that were not considered in FY14 (e.g., conference registration).
- A new decision-making protocol for requests that are outside of the defined program parameters. In FY15, if a proposal includes elements that are outside the program's parameters, the designated Pilot Program Coordinator (PPC) will simply notify one of the Staff Program Administrators and request that the circumstances be reviewed. The Staff Program Administrators, Community Leaders, and the appropriate ICANN Stakeholder Engagement VP(s) will consider the situation and render advice on how to resolve the matter.
- Although not technically a program change, in FY15 CROPP travelers will be reimbursed for any Visa fees (up to \$200 USD) consistent with the most current ICANN Travel Summary (see for example London Travel Summary - May 2014).

2) New Community Workspaces

- Multiple DRAFT templates for both Trip Proposals and Trip Assessments may now be created and vetted by community leadership within the Wiki environment.
- Once a DRAFT Trip Proposal is approved by the organization's leadership, the PPC will notify a Staff Program Administrator. The proposal will then be transferred to an Official CROPP Forms location for continued processing and tracking.
- Templates have been redesigned to be more flexible and easier to complete.
- Forms can now be completed by anyone in each eligible ICANN structure (Note: Wiki login credentials are required). There is no longer a requirement that PPCs must enter information on behalf of trip proponents (although they may).

3) Altered roles for the Pilot Program Coordinators (PPCs):

- In FY15 PPCs will supervise form completion, ensure process integrity, and communicate with Staff on behalf of each eligible ICANN community (see updated Process Flow Chart).

4) New Translation Capability:

- The Community Wiki now has a global software-based translation feature, supported by the Microsoft Bing engine, which enables any of its pages to be rendered into one of 35 languages. (Note: These translations are computer-generated and, as such, may not be technically correct in all instances).

Briefing Opportunities

Since the CROPP is being extended into FY15, we are not planning to organize any formal community introductory sessions. If any of you would like us to conduct an overview of the program (including the new Wiki implementation) by telephone at any time or in-person at the upcoming ICANN Public Meeting in London please contact us via email and we will be pleased to accommodate such requests.

Please Confirm PPC Info

The current list of Pilot Program Coordinators can be found on the CROPP Contacts page. If any of these designations need to change for FY15, please let us know ASAP. Our working assumption is that the currently designated FY14 PPCs will continue in their roles unless otherwise amended.

Your continued feedback now and throughout the course of the pilot program will help us identify areas of improvement

Subject: Some conceptual inputs

Circular message to ATLAS II SMEs, moderators and reporters As I have no mail contacts from Léon, Rafid, Gunela, Holy, Chester, Allan, Glen, Judith and Konstantin, I would like to ask At-Large Staff to *forward* this mail to them -- thanks!

Dear SMEs, moderators and reporters,

let me follow up with you after our last ATLAS II OC calls and action items

->Wolf Ludwig to lead on the coordination of the final agendas for the TGs. Heidi to develop draft agendas, including using abstracts and questions produced by the TG SMEs.

However, before continuing with this coordination role, I would like to share and discuss some conceptual ideas and next steps with you first:

* Moderators and reporters, incl. some assisting roles for each session, are selected for all 5 Thematic groups what means ALL groups and teams are completed now see:

<https://community.icann.org/display/atlarge/ATLAS+II+Thematic+Group+Coordination>
(<https://community.icann.org/display/atlarge/ATLAS+II+Thematic+Group+Coordination>)

* As a next step we need to discuss and agree on a common approach, concept and format HOW to conduct these thematic sessions while being clear that these are no ³teaching sessions² but based on inter-active discourse among participants after short intros to each subject.

* SMEs with moderators and reporters should consider themselves as a ****team**** to foster substantial discussions as well as concise outcomes and conclusions from each thematic session. IMO, it would be useful when each thematic team would have one prep. call before London at least.

* SMEs need to assist the coordinator to prepare the program for the subsequent breakout sessions together with Heidi / Staff on Saturday and Sunday see:
<https://community.icann.org/display/als2/At-Large+London+Meeting+Agendas+Workspace+-+June+2014>
(<https://community.icann.org/display/als2/At-Large+London+Meeting+Agendas+Workspace+-+June+2014>)

According to the ATLAS II program schedule, we have one Breakout session on Saturday (15:00 18:00 PM) and three more on Sunday almost all day - for each subject! This raises a particular challenge conducting subsequent sessions of 9 hours total on each subject - without getting boring or tiring over two days! This requires good facilitation qualities from all of us!

Some conceptual or dramaturgic ideas on HOW this can be best done are:

-> Saturday PM (3 hrs.): Intro, order, focus for each session and

-> warming up while distilling sub-questions and aspects (base

To: ALAC Announce

Subject: [ALAC-Announce] Urgent DOODLE / Community call - Enhancing ICANN Accountability

Dear All,

Olivier Crépin-Leblond, Chair of the ALAC, has requested that a 90-minute At-Large wide special purpose call be held to discuss the Public Comment on “Enhancing ICANN Accountability.”

The main issues for this call include analysis of:

1. The environment within which the Internet and ICANN operate,
2. The positions of important actors in ICANN's accountability,
3. ICANN's two high-level Review Teams on Accountability and Transparency, and 4) potential proposals and actions from ALAC in the new context.

Please complete the Doodle poll to set a time this week.

<http://doodle.com/mbtz84p2x2vkherg> (<https://doodle.com/mbtz84p2x2vkherg>).

If you require interpretation for this call, please note the language next to your name on the Doodle poll - example: “name” + (ES) or (FR). Interpretation will only be provided if there is sufficient demand.

This Doodle poll will close on Tuesday 3 June 2014 at 17:00 UTC – the date and time will be confirmed shortly thereafter.

Thank you.

Regards,

Heidi Ullrich, Silvia Vivanco, Ariel Liang, Gisella Gruber, Nathalie Peregrine and Terri Agnew

Subject: Some conceptual inputs

Circular message to ATLAS II SMEs, moderators and reporters As I have no mail contacts from Léon, Rafid, Gunela, Holy, Chester, Allan, Glen, Judith and Konstantin, I would like to ask At-Large Staff to *forward* this mail to them -- thanks!

Dear SMEs, moderators and reporters,

let me follow up with you after our last ATLAS II OC calls and action items

->Wolf Ludwig to lead on the coordination of the final agendas for the TGs. Heidi to develop draft agendas, including using abstracts and questions produced by the TG SMEs.

However, before continuing with this coordination role, I would like to share and discuss some conceptual ideas and next steps with you first:

* Moderators and reporters, incl. some assisting roles for each session, are selected for all 5 Thematic groups what means ALL groups and teams are completed now see:

<https://community.icann.org/display/atlarge/ATLAS+II+Thematic+Group+Coordination>
(<https://community.icann.org/display/atlarge/ATLAS+II+Thematic+Group+Coordination>)

* As a next step we need to discuss and agree on a common approach, concept and format HOW to conduct these thematic sessions while being clear that these are no ³teaching sessions² but based on inter-active discourse among participants after short intros to each subject.

* SMEs with moderators and reporters should consider themselves as a ****team**** to foster substantial discussions as well as concise outcomes and conclusions from each thematic session. IMO, it would be useful when each thematic team would have one prep. call before London at least.

* SMEs need to assist the coordinator to prepare the program for the subsequent breakout sessions together with Heidi / Staff on Saturday and Sunday see:

<https://community.icann.org/display/als2/At-Large+London+Meeting+Agendas+W>
(<https://community.icann.org/display/als2/At-Large+London+Meeting+Agendas+W>)
orkspace+--+June+2014

According to the ATLAS II program schedule, we have one Breakout session on Saturday (15:00 - 18:00 PM) and three more on Sunday almost all day - for each subject! This raises a particular challenge conducting subsequent sessions of 9 hours total on each subject - without getting boring or tiring over two days! This requires good facilitation qualities from all of us!

Some conceptual or dramaturgic ideas on HOW this can be best done are:

-> Saturday PM (3 hrs.): Intro, order, focus for each session and
-> warming up while distilling sub-questions and aspects (based on the
-> SME's inputs or others) on each theme for continued debate on

-> Sunday AM (4.5 hrs.): more WS style of debates, as inter-active as possible! On Sunday morning TGs are free to work with sub-groups to provide dynamic debates with their audiences incl short wrap-ups afterwards.

-> Sunday PM (1.5 hrs.): to concentrate on conclusions or
-> recommendations on each subject as basis and inputs for the final
-> report

(huge challenge for the session reporters!).

IMO, such a concept or dramaturgy for the Breakout sessions makes sense but all actors (SMEs, moderators and reporters) must be aware particular roles and drive their group into the same direction. To make this happen, close coordination and briefings among these actors are needed.

Therefore you will be invited for a 1st coordination call (among all of us) next week to discuss such conceptual questions and to agree upon a common approach and detailed session planning. If all SMEs won't be

available for this call next week, please make sure that at least one per TG can attend. Your comments are welcome!

Thanks and regards,
Wolf

Hello Sergio,

Thank you very much for your positive reply! I am glad you had a good trip, albeit exhausting.

Silvia, Eduardo and I are all okay with the timing (13 May 2014 23:00 UTC). We will connect via Adigo with interpretation. We will also have access to the Staff AC room for potential display of relevant document. Thank you in advance for your time. We will keep you posted!

Thank you,

Ariel

2014-05-07 17:15 GMT-03:00 Ariel Liang :

Hello Sergio,

I trust you had a good trip from Buenos Aires to Mar del Plata.

I would like to let you know that the Overall Social Media Strategy paper, which serves as the guideline and contributes hugely to the content of ATLAS II proposal, is going to be translated. Its Spanish version will be ready by Monday 12 May. I would like to know whether we can have the call on Tuesday 13 May, so that you will have a chance to read the overall strategy paper. With that understanding at place, the ATLAS II proposal will make a lot more sense. Furthermore, I will get a Spanish interpreter to facilitate our communications.

Please be so kind to let me know if you are okay with this. If yes, please let me know what time on Tue 13 May would work the best for you, and I will send you a calendar invite.

Gracias, Sergio!

[At-Large Webinar: "Globalization of ICANN and its Transparency a \[Doodle\] \(/event/alap/large-webinar-globalization-icann-and-its-transparency-doodle\)](#)

1500 UTC - ADIGO 1638

[At-Large \(/event-type/alap\)](#)

Dear All,

Further to the Doodle poll, the At-Large Briefing Session on the topic of the Globalization of ICANN and its Transparency and Accountability Processes is scheduled on Tuesday 13 May 2014 at 1500 UTC.

For other times:

<http://tinyurl.com/l8q55na> (<https://tinyurl.com/l8q55na>).

The agenda and call details are available at:

<https://community.icann.org/x/mYnhAg> (<https://community.icann.org/x/mYnhAg>).

Presenters will be Theresa Swinehart, Sr. Advisor to the President on Strategy and Sebastien Bachollet, ICANN Board Director Selected by At-Large.

They will be presenting information related to ICANN's recent announcement on Enhancing ICANN Accountability, which is currently open for public comment (see: <http://www.icann.org/en/news/public-comment/enhancing-accountability-06m...> (<https://www.icann.org/en/news/public-comment/enhancing-accountability-06may14-en.htm>)).

Background on this issue:

As announced at ICANN's March 2014 Public Meeting in Singapore, ICANN is initiating a discussion on Enhancing ICANN Accountability. This discussion will look at how ICANN remains accountable in the absence of its historical contractual relationship to the U.S. Government and the perceived backstop

with regard to ICANN's organization-wide accountability provided by that role. While related to the ongoing discussions around the IANA Stewardship Transition, this is a separate process, though the output of this process is expected to be completed on the same timeframe as the stewardship transition work.

There will be a question and answer session following the presentation.

French and Spanish interpretation will be provided.

Thank you.

Moor

[At-Large \(/event-type/alach\)](/event-type/alach)

This Cross-Community Working Groups Drafting Team is co-chaired by the GNSO and ccNSO, with the participation of other ICANN SO/ACs. It was formed in October 2013 to draft a charter for a new Working Group that will take forward initial work done by the GNSO to which feedback had been provided by the ccNSO, for the creation of a framework of operating principles that will guide the formation, operation,

outputs and termination of future Cross Community Working Groups. This meeting is open to anyone from across the ICANN community with an interest in contributing to the development of these principles across all ICANN SO/ACs.

<http://singapore49.icann.org/en/schedule/thu-gnso-ccnso-alac>
(<http://singapore49.icann.org/en/schedule/thu-gnso-ccnso-alac>).

[APRALO Showcase and Reception \(/event/alach/apralo-showcase-and-reception\)](/event/alach/apralo-showcase-and-reception)

SB Foyer

[At-Large \(/event-type/alach\)](/event-type/alach)

This is an informal event to get to know the local member organisations of ICANN's At-Large constituency. The representatives of APRALO user organisations will be introduced as well as their organisations and their current projects. The Showcase will further feature some selected, high-profile speakers. This is a unique opportunity for anybody interested in local Internet enthusiasts and learn more about their activities.

Members of At-Large, APRALO, the ALAC, the leaders of all Regional At-Large Organisations ("RALOs"), ICANN Beijing fellows, and members of the interested public.

March 15, 2014 - 14:00 to March 16, 2014 - 14:45

[Community Briefing call \(/event/alach/community-briefing-call\)](/event/alach/community-briefing-call)

1400 UTC

[At-Large \(/event-type/alach\)](/event-type/alach)

You are invited to join Board Chair Steve Crocker and Fadi Chehadé on a brief community call to discuss Friday's announcement that stewardship of the Internet technical functions will transfer from the U.S. government to the Internet's global multistakeholder community. ICANN's role in managing these functions and the Domain Name System will not change.

This call is just the beginning of a community-wide dialogue about the development of the transitional process. In the coming months, we will rely heavily on you, our community members, to determine the best way to achieve this long-awaited goal.

I look forward to speaking with you soon, and in the future, on this important and exciting development. And please note, we had planned to talk to you about this on Sunday, but unfortunately the NTIA had to move their announcement up to today as it was leaked to the media.

Saturday, 15 March

Time is 1400-1500 UTC

GMT/UTC - 14:00, Saturday

Istanbul - 16:00, Saturday

Washington, D.C. - 10:00, Saturday

Dear All,

Please complete the following Doodle polls to set the mid month ALT meeting as well as the monthly meeting:

* Mid month next week:

<http://doodle.com/wkmgfcervzccht9a> (<https://doodle.com/wkmgfcervzccht9a>).

Limited options as Olivier is at a conference on Wed 19th and Thurs 20th.

* Monthly week of the ALAC call:

<http://doodle.com/txsy2qsum7xsxcns> (<https://doodle.com/txsy2qsum7xsxcns>).

The ALAC call is at 1500 UTC, which is 2am for Holly so we are looking at having the ALT at a reasonable time in Australia. Please bear this in mind when completing the Doodle poll, even if the times are late/early for you.

Thank you!

Kind regards,

Gisella

At-Large Briefing Call on the FY15 Community Special Budget Request Process
(/event/alac/large-briefing-call-fy15-community-special-budget-request-process)

2100 UTC - ADIGO 1638 /

At-Large (/event-type/alac)

Dear All,

Olivier Crépin-Leblond, Chair of the ALAC, will be holding an At-Large Briefing Call on the FY15 Community Special Budget Request Process on Friday, 21 February at 2100 UTC.

For other times:

<http://tinyurl.com/p5zf4er> (<https://tinyurl.com/p5zf4er>).

The agenda and call details are available at:

<https://community.icann.org/x/qgrRAG> (<https://community.icann.org/x/qgrRAG>).

Please confirm whether you require FR or ES interpretation. This will be provided upon the receipt by At-Large staff of 3 requests or more for each language (please confirm to STAFF as soon as possible)

The purpose of the Briefing Call is to provide an overview of the process and timeline for the FY15 Community Special Budget Request Process for ALAC and RALO requests.

Information on the process and the timeline is available on the At-Large FY15 Budget Development Workspace at:

<https://community.icann.org/display/atlarge/At-Large+FY15+Budget+Develop...>
(<https://community.icann.org/display/atlarge/At-Large+FY15+Budget+Development>)

[Webinar - ICANN Strategy Panel on ICANN's Role in the Internet Governance Ecosystem \(/event/alac/webinar-icann-strategy-panel-icanns-role-internet-governance-ecosystem-0\)](/event/alac/webinar-icann-strategy-panel-icanns-role-internet-governance-ecosystem-0)

1200-1330 UTC

[At-Large \(/event-type/alac\)](/event-type/alac)

Dear All,

You are invited to join the Strategy Panel on ICANN's Role in the Internet Governance Ecosystem on Monday, 13 January 2014 or on Wednesday, 15 January 2014 for an update and interactive discussion. As it prepares to offer its advice to the ICANN President and CEO, the Strategy Panel wishes to walk you through the work it has undertaken and to seek your input on the preliminary set of conclusions it has reached. The webinar will also be the opportunity for you to ask questions. Please refer to the announcement at <http://www.icann.org/en/news/announcements/announcement-06jan14-en.htm> (<https://www.icann.org/en/news/announcements/announcement-06jan14-en.htm>) or see below for more information and details.

Advisory in nature, ICANN Strategy Panels serve as an integral part of a framework for cross-community dialogue on strategic matters. Designed to concentrate on critical strategic areas identified by the community, Board, and staff, the work of Strategy Panels will inform a new, overarching vision and five-year strategic plan. More information is available at: <http://www.icann.org/en/about/planning/strategic-engagement> (<https://www.icann.org/en/about/planning/strategic-engagement>).

We look forward to your participation in this webinar. Should you not be in a position to attend one of the sessions, please note that the slides, recording and transcript of the presentation will be made available following the webinar.

The Strategy Panel also welcomes feedback submitted via its publicly archived mailing-list: ioepanel@icann.org (<mailto:ioepanel@icann.org>).

Thanks and Happy New Year!

Best regards

ICANN staff

WEBINAR: ICANN Strategy Panel on ICANN's Role in the Internet Governance Ecosystem
Join the Strategy Panel on ICANN's Role in the Internet Governance Ecosystem for an update and interactive discussion.

Date: Monday, 13 January 2014

Time: 19:00-20:30 UTC (Time converter: <http://tinyurl.com/ov7qxm6> (<https://tinyurl.com/ov7qxm6>))

Date: Wednesday, 15 January 2014

Time: 12:00-13:30 UTC (Time converter: <http://tinyurl.com/n7qdm3m> (<https://tinyurl.com/n7qdm3m>))

You are invited to an update on the activities of the Strategy Panel on ICANN's Role in the Internet Governance Ecosystem. ICANN Strategy Panels' work will inform ICANN's new, overarching vision and five-year strategic plan.

As it prepares to offer its advice to the ICANN President and CEO, the Strategy Panel wishes to walk you through the work it has undertaken and to seek your input on the preliminary set of conclusions it has reached. This webinar will also be the opportunity for you to ask questions. ICANN Strategy Panels serve as an integral part of a framework for cross-community dialogue: your feedback and contributions are key to this project and will be carefully considered.

Webinar Details

Please join the webinar either on Monday, 13 January 2014 at 19:00-20:30 UTC (duration: 90 minutes) or on Wednesday, 15 January 2014 at 12:00-13:30 UTC (duration: 90 minutes). The two sessions are duplicates, scheduled to accommodate different time zones. The meetings will be run in an Adobe Connect room with a slide presentation along with a dial-in conference bridge for audio. The sessions will be conducted in English.

Participants will be given the opportunity to offer comments and to ask questions during the Q&A section. During the course of the webinar, questions may be submitted using the chat function of Adobe Connect. If you cannot join the live session, the recording of the session will be made available shortly after the meeting.

Please register via email to alice.jansen@icann.org (<mailto:alice.jansen@icann.org>) by Sunday, 12 January 2014 23:59 UTC to receive the dial-in details. Please indicate which call you wish to join. A reminder with log-in and dial-in details will be sent to you prior to the call.

Join the Strategy Panel on ICANN's Role in the Internet Governance Ecosystem for an update and interactive discussion.

Date: Monday, 13 January 2014

Time: 19:00-20:30 UTC (Time converter: <http://tinyurl.com/ov7qxm6> (<https://tinyurl.com/ov7qxm6>))

Date: Wednesday, 15 January 2014

Time: 12:00-13:30 UTC (Time converter: <http://tinyurl.com/n7qdm3m> (<https://tinyurl.com/n7qdm3m>))

You are invited to an update on the activities of the Strategy Panel on ICANN's Role in the Internet Governance Ecosystem. ICANN Strategy Panels' work will inform ICANN's new, overarching vision and five-year strategic plan.

As it prepares to offer its advice to the ICANN President and CEO, the Strategy Panel wishes to walk you through the work it has undertaken and to seek your input on the preliminary set of conclusions it has reached. This webinar will also be the opportunity for you to ask questions. ICANN Strategy Panels serve as an integral part of a framework for cross-community dialogue: your feedback and contributions are key to this project and will be carefully considered.

Webinar Details

Please join the webinar either on Monday, 13 January 2014 at 19:00-20:30 UTC (duration: 90 minutes) or on Wednesday, 15 January 2014 at 12:00-13:30 UTC (duration: 90 minutes). The two sessions are duplicates, scheduled to accommodate different time zones. The meetings will be run in an Adobe Connect room with a slide presentation along with a dial-in conference bridge for audio. The sessions will be conducted in English.

Participants will be given the opportunity to offer comments and to ask questions during the Q&A section. During the course of the webinar, questions may be submitted using the chat function of Adobe Connect. If you cannot join the live session, the recording of the session will be made available shortly after the meeting.

Please register via email to alice.jansen@icann.org (<mailto:alice.jansen@icann.org>) by Sunday, 12 January 2014 23:59 UTC to receive the dial-in details. Please indicate which call you wish to join. A reminder with log-in and dial-in details will be sent to you prior to the call.

Subject: DOODLES / ALAC mid month AND monthly!

Dear All,

Please find attached TWO Doodle polls for the ALAC ExCOM mid-month next week and the monthly, after the ALAC call which will be held on 2 July 2013 at 1400 UTC.

Olivier is no longer travelling next week so we are now able to try and get both ExCom calls scheduled!

Please complete BOTH polls:

ExCom mid month (w/c 24 June)

<http://www.doodle.com/2hif6epyxaw2g97i> (<https://www.doodle.com/2hif6epyxaw2g97i>).

ExCom monthly (w/c 01 July):

<http://www.doodle.com/iai7wsbdk8vyznbu> (<https://www.doodle.com/iai7wsbdk8vyznbu>).

Thank you very much.

Kind regards,

Gisella

Dear All,

A teleconference for all LACRALO candidates to the NomCom is scheduled on Tuesday 25 June 2013 at 2200 UTC.

This teleconference will provide the opportunity to all the candidates who have accepted, to introduce themselves, express their statements of interest, potential conflicts of interest and work plans and will provide an opportunity to LACRALO members to ask questions they seem appropriate.

For other times:

<http://tinyurl.com/p4dcdo5> (<https://tinyurl.com/p4dcdo5>).

The agenda and call details are available at:

Subject: Webinar Invitation / AFRALO Capacity Building activities/ Formation virtuelle (Webinar) pour AFRALO

Dear All,

On behalf of Fatimata Seye Sylla, Chair of AFRALO, we would like to invite you to participate in the second AFRALO Capacity Building webinar on the topics of ICANN's role in the infrastructure of the Internet and ICANN Public Participation and Communication which will take place on Thursday 20 June 2013 at 1900 UTC.

Confirmed speakers include Pierre Dandjinou, VP, Stakeholder Engagement for Africa; Mandy Carver, Senior Director, Global Stakeholder Engagement; and Chris Gift, VP, Online Community Services. This is the second of a series of 3 webinars planned by AFRALO as part of its capacity building activities based on the series of presentations held during the AFRALO Dakar Events in October 2011.

This webinar will take place on Thursday 20 June 2013 at 1900 UTC and have the following agenda:

- 1) Welcome and Aim of Meeting – Fatimata Seye Sylla (5 mins)
- 2) Background of the AFRALO Capacity Building Webinars – Tijani Ben Jemaa (5 mins)
- 3) Main Presentation: ICANN's role in the infrastructure of the Internet and ICANN Public Participation - Pierre Dandjinou, VP, Stakeholder Engagement for Africa; Mandy Carver, Senior Director, Global Stakeholder Engagement (15 mins)
- 4) Communication and on-line digital engagement: new developments –Chris Gift, VP, Online Community Services (15 mins)
- 5) Questions and Answers from the AFRALO Community (15 mins)
- 6) Next Steps - Fatimata Seye Sylla (5 mins)

The call details are available at:

<https://community.icann.org/x/yjJ-Ag> (<https://community.icann.org/x/yjJ-Ag>)

Adobe Connect:

<http://icann.adobeconnect.com/afralo> (<http://icann.adobeconnect.com/afralo>)

Please remember that it is now possible to connect your audio via the AC room, without using your telephone. If you would like a reminder of how to connect please let staff know.

Please CONFIRM your participation AND dial-out if required to staff@atlarge.icann.org (<mailto:staff@atlarge.icann.org>).

French interpretation will be offered for all of these webinars.

Thank you.

Kind regards,

Heidi Ullrich, Silvia Vivanco, Matt Ashtiani, Gisella Gruber, Nathalie Peregrine and Julia Charvolen
ICANN Policy Staff in support of ALAC

E-mail: staff@atlarge.icann.org (<mailto:staff@atlarge.icann.org>).

Chers tous,

Au nom de Fatimata Seye Sylla, Présidente de l'AFRALO, nous aimerions vous inviter à participer au deuxième webinar AFRALO pour le renforcement des capacités At-Large, qui traitera du rôle d'ICANN au sein de l'infrastructure Internet, de la Participation Publique et de la Communication qui aura lieu de jeudi 20 Juin 2013 à 19:00 UTC.

Parmi les orateurs figurent Pierre Dandjinou, Vice-Président, Stakeholder Engagement (engagement des parties prenantes) de l'Afrique, Mandy Carver, Senior Director, Global Stakeholder Engagement (engagement global des parties prenantes) et Olivier Crépin-Leblond, Président de l'ALAC.

Ce webinar est le deuxième d'une série de trois webinars prévus par AFRALO dans le cadre de ses activités de renforcement fondé sur la série de présentations diffusées lors des événements AFRALO à Dakar en Octobre 2011.

Ce webinar aura lieu le Jeudi 20 Juin 2013 à 1900 UTC. Merci de trouver ci-après l'ordre du jour :

- 1) Bienvenue et but de la réunion - Fatimata Seye Sylla – (5 mins)
- 2) Contexte de la Formation virtuelle (Webinar) pour AFRALO – Tijani Ben Jemaa (5 mins)
- 3) Présentation principale: la Mission de l'ICANN, la structure et les circonscriptions - Pierre Dandjinou, VP, Stakeholder Engagement for Africa; Mandy Carver, Senior Director, Global Stakeholder Engagement (15 mins)
- 4) Communication et engagement numérique en ligne : nouveaux développements –Chris Gift, VP, Online Community Services (15 mins)
- 5) Questions et Réponses de la Communauté AFRALO (15 mins)
- 6) Prochaines étapes - Fatimata Seye Sylla (5 mins)

Les détails de connection sont ci-dessous:

Webinar: TMCH & IDNs

6 June 2013

Webinar Details

Date: Wednesday, 19 June 2013

Time: 14:00-15:30 UTC

Adobe Connect: TBD

You are invited to a webinar intended to address questions and provide a background around Internationalized Domain Names and the Trademark Clearinghouse processes, including the comments in Beijing about implementation of variant rules. As we have prioritized the applications so that the first new gTLDs will be IDNs, this is an opportunity to learn more about the TMCH and IDNs and provide more background to those interested on how things are working.

Please join this webinar on Wednesday, 19 June 2013 at 14:00 UTC (duration 90 minutes). The meeting will be run in an Adobe Connect room with a slide presentation.

Participants will have the opportunity to offer comments and ask questions during the Q&A section. During the course of the webinar, these may be submitted using the chat function of Adobe Connect. If you cannot join the live session, the recording of the session will be made available shortly after the meeting.

1800 UTC - ADIGO 1638 / <http://icann.adobeconnect.com/afralo>

[At-Large \(/event-type/alach\)](#)

Dear All,

On behalf of Fatimata Seye Sylla, Chair of AFRALO, , we would like to invite you to participate in the first AFRALO Capacity Building webinar on the topic of ICANN Mission, Structure and Constituencies. Speakers include Pierre Dandjinou, VP, Stakeholder Engagement for Africa and Olivier Crépin-Leblond, ALAC Chair.

The first AFRALO Capacity Building Session will take place on Tuesday 11 June 2013 at 1800 UTC with the following Agenda:

- 1) Welcome and Aim of Meeting – Fatimata Seye Sylla (5 mins)
- 2) Background of the AFRALO Capacity Building Webinars – Tijani Ben Jemaa (5 mins)
- 3) Main Presentation: ICANN Mission, Structure and Constituencies – Pierre Dandjinou (15 mins)
- 4) The Role of the ALAC and At-Large Community – Olivier Crépin-Leblond (10 mins)
- 5) Questions and Answers from the AFRALO Community (20 mins)
- 6) Next Steps - Fatimata Seye Sylla (5 mins)

The call details are available at:

<https://community.icann.org/x/zyl-Ag> (<https://community.icann.org/x/zyl-Ag>)

Adobe Connect:

<http://icann.adobeconnect.com/afralo> (<http://icann.adobeconnect.com/afralo>)

Please remember that it is now possible to connect your audio via the AC room, without using your telephone. If you would like a reminder of how to connect please let staff know.

Please CONFIRM your participation AND dial-out if required to staff@atlarge.icann.org (<mailto:staff@atlarge.icann.org>).*

This will be the first of a series of 3 webinars planned by AFRALO as part of its capacity building activities based on the series of presentations held during the AFRALO Dakar Events in October 2011.

Upcoming webinars will be:

Webinar 2 - Topics: ICANN's role in the infrastructure of the Internet and ICANN Public Participation and Communication (to be scheduled 19-21 June)

Webinar 3 - Topic: How you can help shape the future on the internet? (to be scheduled the week of 1 July)

French interpretation will be offered for all of these webinars.

Thank you.

Regards,

Chers Tous,

Au nom de Fatimata Seye Sylla, présidente de l'AFRALO, nous aimerions vous inviter à participer à la première Formation Virtuelle (Webinar) pour AFRALO qui traitera du sujet de la Mission de l'ICANN, la structure et les circonscriptions. Parmi les orateurs figurent Pierre Dandjinou, Vice-Président, Stakeholder Engagement (engagement des parties prenantes) de l'Afrique et Olivier Crépin-Leblond, Président de l'ALAC.

La première session de Formation Virtuelle de l'AFRALO aura lieu le mardi 11 juin 2013 à 1800 UTC.

Merci de trouver ci-après l'ordre du jour:

- 1) Bienvenue et but de la réunion - Fatimata Seye Sylla (5 mn)
- 2) Contexte de la Formation virtuelle (Webinar) pour AFRALO - Tijani Ben Jemaa (5 mn)
- 3) Présentation principale: la Mission de l'ICANN, la structure et les circonscriptions - Pierre Dandjinou (15 mn)
- 4) Le rôle de l'ALAC et la communauté At-Large - Olivier Crépin-Leblond (10 mn)
- 5) Questions et réponses de la Communauté AFRALO (20 mn)
- 6) Prochaines étapes - Fatimata Seye Sylla (5 mn)

Les détails de l'appel sont disponible à:

<https://community.icann.org/x/zyl-Ag> (<https://community.icann.org/x/zyl-Ag>)

Adobe Connect:

<http://icann.adobeconnect.com/afralo> (<http://icann.adobeconnect.com/afralo>)

Nous vous rappelons que vous pouvez désormais utiliser l'audio de l'Adobe Connect room afin de vous connecter sans utiliser votre ligne téléphonique. Veuillez demander à staff si vous avez besoin d'information à ce sujet.

Merci de nous confirmer votre participation et dial-out - si nécessaire - à staff@atlarge.icann.org (<mailto:staff@atlarge.icann.org>).

Ce sera la première d'une série de trois formations virtuelles (webinars) prévues par AFRALO dans le cadre de ses activités de renforcement des capacités, basé sur la série de présentations tenues lors des Événements AFRALO à Dakar en octobre 2011.

Les Prochaines Formation Virtuelles (Webinars) seront les suivants:

Webinar 2 - Sujets: Rôle de l'ICANN dans l'infrastructure de l'Internet et la participation public et la communication de l'ICANN (prévu entre le 19-21 juin 2013)

Webinar 3 - Sujet: Comment vous pouvez aider à façonner l'avenir de l'internet? (à programmer la semaine du 1er Juillet)

Tous les Webinars seront interprétés en Français.

Merci beaucoup.

Cordialement,

Heidi Ullrich, Silvia Vivanco, Matt Ashtiani, Gisella Gruber, Nathalie Peregrine and Julia Charvolen

Date: Saturday, 18 May 2013 18:36

To: At-Large Staff , ATLAS 2

Subject: REMINDER - DOODLE / next ATLAS 2 Call

Dear All,

Please complete the attached Doodle poll to schedule the next ATLAS 2 Working Group call.

<http://www.doodle.com/ak877pktempd7i57> (<https://www.doodle.com/ak877pktempd7i57>).

(please note the US times in the drop down option are marked in Standard Time but the conversion does take into account Daylight Savings).

The Doodle poll will close on Wednesday 22 May 2013 at 1500 UTC - the date and time will be announced shortly thereafter.

Thank you!

Kind regards,

Gisella

The Africa Child Online Protection (ACOP) Summit (/event/alachild-online-protection-acop-summit)

Uganda, 4-6 June 2013

At-Large (/event-type/alachild)

Attended by invitation only and with a strong emphasis on shared responsibility for our children, networking and facilitated meetings, the ACOP summit will go beyond discussion to drive tangible outcomes. This ground-breaking summit will raise awareness of Child Online Protection issues and challenges, resources and best practices and contextualize to the African continent. Together we will make valuable connections, share ideas and develop a pan-African network of key stakeholders dedicated to the development of Child Online Protection across Africa and develop an ACOP Charter of values to which governments and private entities subscribe.

The ACOP summit will bring together over 200 delegates including Policy Makers, Regulators, Law Enforcement Agencies, Internet Service Providers, Fixed and Mobile Network Operators, NGOs and Government Agencies.

Find attached the draft programme. Please have a look on it and attend as delegate.

Moreover, there is a range of sponsorship opportunities, exhibition stands and sponsored meeting tables should you wish a greater opportunity to demonstrate your support and solutions for Child Online Protection.

To register as a delegate, please follow this link

<http://acop.eventbrite.co.uk/> (<http://acop.eventbrite.co.uk/>). For enquiries regarding sponsorship, exhibiting or hosting sponsored meeting tables, please contact Adrian Hall, Extensia +44 (0)7876 351005 ah@extensia-ltd.com (<mailto:ah@extensia-ltd.com>).

I hope this information will be useful and you will be able to attend,

With best regards,

Yuliya Morenets

TaC-Together against Cybercrime International

[Consultation on Root Zone KSK Rollover | Reply Period Close \(/event/public-comments/consultation-root-zone-ksk-rollover-reply-period-close\)](#)

Consultation on Root Zone KSK Rollover | Reply Period Close <http://www.icann.org/en/news/public-comment/root-zone-consultation-08mar...> (<https://www.icann.org/en/news/public-comment/root-zone-consultation-08mar13-en.htm>) Purpose (Brief): The Internet Assigned Numbers Authority (IANA)

Functions contract (SA1301-12-CN-0035) between ICANN and the United States Department of Commerce, National Telecommunications Information Administration (NTIA) to perform services related to certain interdependent Internet technical management functions calls for a public consultation from all interested and affected parties to help satisfy the following objective: >*C.2.9.2.f Root Domain Name System Security Extensions (DNSSEC) Key >Management* –The Contractor shall be responsible for the management of the >root zone Key Signing Key (KSK), including generation, publication, and use >for signing the Root Keyset. As delineated in the Requirements at Appendix 2 >entitled Baseline Requirements for DNSSEC in the Authoritative Root Zone >that is incorporated by reference herein as if

fully set forth. The >Contractor shall work collaboratively with NTIA and the Root Zone >Maintainer, in the performance of this function. > More specifically, this consultation involves '*Appendix 2: Baseline Requirements for DNSSEC in the Authoritative Root Zone,*' that articulates the contract requirement to perform a scheduled root zone KSK rollover. The consultation is being conducted using the ICANN Public Comment Process, consistent with the contract requirements. The feedback received during this consultation will inform the Root Zone Management Partners on the subject of KSK rollover, so that a schedule and a detailed implementation plan for KSK rollovers can be established. Current Status: Planning for scheduled KSK rollover in the root zone is anticipated, but work is deferred pending the results of this public consultation.

Questions to the Community on Accountability and Transparency within ICANN | Comment Period Open
<http://www.icann.org/en/news/public-comment/atrt2-02apr13-en.htm>

(<https://www.icann.org/en/news/public-comment/atrt2-02apr13-en.htm>) Purpose (Brief): With the goal of producing final recommendations by 31 December 2013, the second Accountability and Transparency Review Team (ATRT 2), mandated by paragraph 9.1 of the Affirmation of Commitments (AoC), is currently in the process of defining its scope, roadmap and work program. To inform its work, the ATRT 2 now seeks input from the Community on a set of questions [1] [PDF, 129 KB] compiled for the Community's consideration. Community participation is essential to the success of the review and all input will be carefully considered. The ATRT 2 welcomes any additional feedback. Current Status: Questions to the ICANN Community Interactive Survey for the ICANN Community on the Impact of Previous Reviews and Inputs for the ATRT2 [2] [1] <http://www.icann.org/about/aoc-review/atrt/community-questions-02apr13-e...> (<https://www.icann.org/about/aoc-review/atrt/community-questions-02apr13-en.pdf>) [2]

[Consultation on Root Zone KSK Rollover | Reply Period Open \(/event/public-comments/consultation-root-zone-ksk-rollover-reply-period-open\)](/event/public-comments/consultation-root-zone-ksk-rollover-reply-period-open)

Consultation on Root Zone KSK Rollover | Reply Period Open <http://www.icann.org/en/news/public-comment/root-zone-consultation-08mar...> (<https://www.icann.org/en/news/public-comment/root-zone-consultation-08mar13-en.htm>) Purpose (Brief): The Internet Assigned Numbers Authority (IANA) Functions contract (SA1301-12-CN-0035) between ICANN and the United States Department of Commerce, National Telecommunications Information Administration (NTIA) to perform services related to certain interdependent Internet technical management functions calls for a public consultation from all interested and affected parties to help satisfy the following objective: >*C.2.9.2.f Root Domain Name System Security Extensions (DNSSEC) Key >Management* –The Contractor shall be responsible for the management of the >root zone Key Signing Key (KSK), including generation, publication, and use >for signing the Root Keyset. As delineated in the Requirements at Appendix 2 >entitled Baseline Requirements for DNSSEC in the Authoritative Root Zone >that is incorporated by reference herein as if fully set forth. The >Contractor shall work collaboratively with NTIA and the Root Zone >Maintainer, in the performance of this function. > More specifically, this consultation involves '*Appendix 2: Baseline Requirements for DNSSEC in the Authoritative Root Zone,*' that articulates the contract requirement to perform a scheduled root zone KSK rollover. The consultation is being conducted using the ICANN Public Comment Process, consistent with the contract requirements. The feedback received during this consultation will inform the Root Zone Management Partners on the subject of KSK rollover, so that a schedule and a detailed implementation plan for KSK rollovers can be established. Current Status: Planning for scheduled KSK rollover in the root zone is anticipated, but work is deferred pending the results of this public consultation.

Preliminary Issue Report on gTLD Registration Data Services | Comment Period Close

<http://www.icann.org/en/news/public-comment/gtld-registration-data-15mar...>

(<https://www.icann.org/en/news/public-comment/gtld-registration-data-15mar13-en.htm>) Purpose (Brief): This Public Forum invites comments on the Preliminary Issue Report on the gTLD registration data services [1] [PDF, 946 KB]. The Report forms part of a ICANN Board-initiated GNSO policy development process (PDP) that aims to review the purpose and accuracy of domain name registration data and directory services, as well as its underlying technical protocol – currently also known as 'Whois'. Current Status: The Preliminary Issue Report explores the issue of gTLD registration data services, which includes the purpose of collecting and maintaining gTLD registration data, and solutions to improve accuracy and access to gTLD registration data. This Public Comment solicitation represents an

opportunity to share perspectives on this topic as well as the contents of the Preliminary Issue Report. In parallel to this Preliminary Issue Report, the ICANN Board has convened an Expert Working Group (EWG) whose findings will feed into the Final Issue Report. [1]

Proposed 2013 RAA Posted for Comment | Reply Period Close <http://www.icann.org/en/news/public-comment/proposed-raa-07mar13-en.htm> (<https://www.icann.org/en/news/public-comment/proposed-raa-07mar13-en.htm>) Purpose (Brief): ICANN is seeking public comments on a Proposed 2013 Registrar Accreditation Agreement (RAA), particularly on areas where ICANN and the Registrar Negotiating Team have not been able to reach agreement in principle. This represents the first time in the nearly 18 months of negotiations that community comment is formally sought on this document. Current Status: ICANN and the Registrar Negotiating Team commenced negotiation on amendments to the RAA in October 2011. While the documents posted today show many areas of agreement, there are differences between the ICANN and Registrar positions are highlighted. In addition, further discussion is still ongoing regarding some of the specifications to the agreement.

URL:

Date and Time: April 11, at 8:00am-9:30am

Room: Function 5 BC

Language: Chinese/English (Interpretation available)

Who joins: Chinese-speaking ALSes and anyone interested

> Program

>

> 8:00-8:10 Welcoming and Introduction

APRALO Leaders

> Moderator: Hong Xue, CDNUA

>

> 8:10-8:35 Panel One: Privacy and Users' Data Protection

> Mainland, TW and Hong Kong are either developing or improving the data protection laws. How would these laws impact the TLDs' operation and policies regarding protection of the users' privacy and personal data?

>

>

> 8:35-9:00 Panel Two: TLDs' Registration Policies and Public Interest

> The recent discussions on closed generic TLDs and newly-invented PICs mechanism are the ICANN's positive moves toward safeguarding public interests. What are the Chinese-speaking community's concerns regarding this issues?

>

> 9:00-9:25 Panel Three: Cultural Diversity and New gTLD program

> Variants policy and TMCH are very critical for Chinese-speaking community. Has the new gTLD program sufficiently contemplated the cultural diversity? If not, how to improve?

>

>

> 9:25-9:30 Closing Remarks

Monday April 8th 5-6pm on new gTLDs and end user protection & 6-7pm on Community Readiness for IDN Variant TLDs. And then afterwards the APRALO showcase and reception! Come meet the regional ALSes!!

Monday, 8 April 2013

At-Large/APRALO Multi-Stakeholder Roundtable

Adobe Connect:

Agenda: [https://community.icann.org/x/YoU3Ag_\(https://community.icann.org/x/YoU3Ag\)](https://community.icann.org/x/YoU3Ag_(https://community.icann.org/x/YoU3Ag))

Policy Roundtable I [17:00-18:00]

Theme: New gTLDs and Implications for the Asian-Australasian-Pacific Region

Topic: End User Protection with New gTLDs

Discussion Questions:

How can end users be best protected in the event that new gTLDs fail or are unsustainable?

What are the issues associated with turning applicant commitments into contractual obligations?

What are the issues related to the enforceability of contractual obligations and what recommendations should be made regarding the scaling up of ICANN compliance?

Co-Chair: Rinalia Abdul Rahim (ALAC Executive Committee Member, Asia Pacific Region) & Holly Raiche (Chair, APRALO)

Lead Discussants:

End User/Consumer – Jeremy Malcolm (Senior Policy Officer, Consumers International, Malaysia)
Government – Peter Nettlefold (Vice Chair, ICANN Governmental Advisory Committee & GAC Lead on New gTLDs)

Business – Zahid Jamil (Executive Committee Member, Business Constituency & Member, GNSO Council)

ICANN Compliance - Maguy Serad (Vice President, ICANN Contractual Compliance Services)

Invited roundtable participants:

ICANN At-Large community

ICANN Advisory Committees (GAC, ALAC, SSAC)

ICANN Supporting Organizations (GNSO, ccNSO)

ICANN Board

ICANN Legal & Law Enforcement

Policy Roundtable II [18:00 19:00]

Theme: Internationalized Domain Names (IDNs) and Implications for the Asian-Australasian-Pacific region.

Topic: Community Readiness for IDN Variant TLDs

Discussion Questions:

Will the introduction of IDN Variant TLDs de-stabilize the Internet and undermine its security?

What is the level of readiness among language communities already active in ICANN in forming “Generation Panels” to propose character repertoires and variant rules for the Root Zone that will enable variant IDN TLDs? What are the key issues in moving forward?

How can the readiness of language communities NOT yet active in ICANN be supported?

Co-Chair: Rinalia Abdul Rahim (ALAC Executive Committee Member, Asia Pacific Region) & Holly Raiche (Chair, APRALO)

Moderator: Edmon Chung (Chair, At-Large IDN Working Group & At-Large IDN Policy Liaison)

Discussants:

Arabic Language Community - Sarmad Hussain (Al-Khwarizmi Institute of Computer Science, Pakistan)

Chinese Language Community – Wang Wei (China Domain Name Consortium)

Indic Language Community – Ram Mohan (Affilias)

Japanese Language Community – Hiro Hotta / Y. Yoneya (Japan Registry Services)

Khmer Language Community – Norbert Klein (Internet Society, Cambodia)
Korean Language Community - Young-eum Lee (Korea National Open University)
Sinhala Language Community - Harsha Wijayawardhana (ISOC Sri Lanka)
ICANN Security and Stability Advisory Committee - Jim Galvin (Deputy Chair, SSAC)

Invited roundtable participants:

ICANN At-Large community
ICANN IDN Variant Implementation Program Team
ICANN Root Label Generation Project Team Members
ICANN Advisory Committees (ALAC, GAC, SSAC)
ICANN Supporting Organizations (ccNSO, GNSO)
ICANN Board

[Expert Working Group \(EWG\) on gTLD Directory Services, \(/event/alac/expert-working-group-ewg-gtld-directory-services\)](#)

11:00 - 12:30 / Grand Hall A

[At-Large \(/event-type/alac\)](#)

On behalf of the Expert Working Group on gTLD Directory Services (EWG)

Dear All,

As you may recall, in December 2012, ICANN announced the creation of an Expert Working Group (EWG) on gTLD Directory Services, as a first step in fulfilling the ICANN Board's directive to help redefine the purpose and provision of gTLD registration data. The work of the EWG is expected to serve as a foundation to help GNSO create a new global policy for gTLD directory services, as part of a Board requested Policy Development Process (PDP) to be commenced upon the conclusion of the EWG's activities.

Beijing presents a unique opportunity for the EWG to provide an update on its progress and to hear from the ICANN community to inform its post-Beijing work. The EWG invites you to attend their session on Monday, 8 April 2013 at 11:00-12:30 in Grand Hall A to share your comments and feedback with them (please refer to session details: <http://beijing46.icann.org/node/37051> (<http://beijing46.icann.org/node/37051>)).

Participants will be invited to comment on questions currently under discussion within the EWG, including:

- Whether collection, storage and provision of registrant data is necessary;
- Whether to incorporate different registration data requirements for domain names for commercial use versus non-commercial use;
- Whether and how anonymous registrations should be accommodated;
- Potential costs/benefits of a distributed versus a centralized database;
- Possible safeguards to minimize abuse and protect the privacy of registrants;
- Whether and how remedies for inaccurate data should differ (for example, in cases of fraudulent, criminal, or malicious conduct);
- Whether tiered access is desirable, depending upon the requestor's purpose.

Any additional feedback will be welcome.

If you are interested in learning more about the EWG's work, please visit EWG's wiki at:

<https://community.icann.org/pages/viewpage.action?pageId=40175189>

(<https://community.icann.org/pages/viewpage.action?pageId=40175189>) for meeting reports and other information regarding the EWG's activities.

The EWG looks forward to this exchange and thanks you in advance for your participation.

Safe travels and see you in Beijing.

Very best regards,

ICANN Staff on behalf of the Expert Working Group on gTLD Directory Services (EWG)

7pm - lobby for Bus

[At-Large \(/event-type/alac\)](/event-type/alac)

Dear friends,

Our welcome dinner will be held at Hai Tang Hua restaurant, a restaurant featuring North Korean style food and entertainment. It is a bit distance from the meeting venue so we will take you there by bus. I'll meet you in the lobby at 7 o'clock. Dinner will start at around 7:30.

On behalf of Prof Xue Hong and James, we are looking forward to your attendance and wish you a pleasant night!

BTW, if you need any help, please don't hesitate to contact me. My mobile number is (+86)1338-111-1181.

Best,

Alan Tan

To: ICANN Academy WG

Subject: [ICANN Academy WG] DOODLE / Survey and next steps until Beijing

Dear All,

Further to Sandra's email, please complete the attached Doodle poll to schedule a call next week, prior to Beijing.

<http://doodle.com/i9vqc2ai5h2mnkpu> (<https://doodle.com/i9vqc2ai5h2mnkpu>).

This Doodle poll will close on Thursday 28th March at 2000 UTC - the date and time will be announced shortly thereafter, in order to announce the meeting prior to the Easter Break.

Thank you.

Kind regards,

Gisella

Subject: Re: [ICANN Academy WG] Survey and next steps until Beijing

Dear all, thank you for the responses so far.

Due to the shortness of time I was actually planning to collect the feedback on the survey here at the mailing list and provide a summary in Beijing. But I realize that there is a demand for a phone call and a deeper analysis before Beijing and I agree with Chuck that this could be done by a small group of volunteers. I would therefore propose that these group can be formed by those who drafted the survey, but I invite also others to join. I will ask Gisella to look into the opportunities to organise a call, alternatively we can organise a Skype call our self.

Please let me know if you are able to join the analysis group before Beijing.

However I invite everybody again to post your feedback / conclusion on the survey here on the mailing list now.

Best Sandra

Betreff: Re: [ICANN Academy WG] Survey and next steps until Beijing

Dear Sandra,

The proposed time and the agenda for Beijing are OK for me. I am also in favor of a conference call before Beijing if possible. It could help us to have more discussion on the result of the survey. I also agree that the F2F Leadership program is still important along with the online platform for the global ICANN Academy.

Yaovi

De : sandra hoferichter

À : 'ICANN Academy WG'

Envoyé le : Mercredi 20 mars 2013 18h03

Objet : [ICANN Academy WG] Survey and next steps until Beijing

Dear all,

the next ICANN meeting in Beijing is approaching soon and I would like to agree with you on the agenda for the ICANN Academy WG session on:

Monday, 8 April 2013

Time: 15:00-16:00

Meeting Room: Function 6

I hope this time is not conflicting with other commitments and we can have just such a good session as in Toronto.

For the agenda I propose:

Review of the ICANN Academy Survey (Moderator: Sandra Hoferichter) (10 mins)

ICANN Online Education Platform and the role of the ICANN Academy WG - Open Discussion with Matthew Shears (25 mins)

Next Steps to be undertaken between Beijing, Durban and Buenos Aires (Moderator: Sandra Hoferichter) (25 mins)

Background information 1-3:

to point 1.

So far we there was not much feedback on the results of the survey. I enclose it again, encouraging you to send your analysis until Beijing. I think it would be wise not to spend too much time on the survey analysis, but just to summarise results in our session. The following comments on the survey where posted so far:

Hong:Although it is diversified, Responses from at-large community are almost a half and some stakeholder groups are still missing...

Tijani: regarding Q 12.... most people want it (the leader ship programme) to be prior to the ICANN meeting.

Avri:

1. (2) I am surprised that so many are offering education to their members.

2. (5) Looking at those that got over 80%, I think we have a good basis for planning a curriculum.

100 Understanding current issues under discussion in ICANN

90.5 Understanding ICANN and its processes

85.7 Training or orientation needs for new members in your group 80 Understanding ICANN's role in the Internet governance eco system - I think this pretty closely matches the curriculum those of us who have been on this project for a very long first proposed. I suggest that this is what we should focus on.

3. (6,7) It looks like we should be thinking of both Newbie and Leader orientations

4. (10) I am not sure what other time people would want.

to point 2.

Recently ICANN engaged Matthew Shears to develop an online education platform for ICANN. I had already the chance to talk to him and the aim is very much inline with what our WG proposed in the past: pull together existing things, add new content and provide different formats and mechanisms to meet the different needs of ICANN Stakeholder groups. Matthew is already included in this mailing list and he is planning to join us in Beijing, if his schedule allows. During the session he would then explain his ideas in detail and we should figure out how the WG can support him. This online platform will be one module in the ICANN Academy framework.

to point 3.

Besides the development of the online platform we should look into opportunities to start a pilot leadership programme for the next AGM. The results from the survey clearly show that there is a demand for such a F2F leadership programme (71,4%). Not the majority, but 38,1%, agreed that the 3rd ICANN meeting in the year is the best time to schedule such a programme. We should take this as a fact for the time being and learn from this first trail.

Thank you for reading this long email to the end and I am waiting for your comments!

Best Sandra

[Pre-Beijing ICANN Policy Update Webinar Invitation - RSVP \(/event/alach/pre-beijing-icann-policy-update-webinar-invitation-rsvp-0\)](#)

1900 UTC

[At-Large \(/event-type/alach\)](#)

Pre-Beijing ICANN Policy Update Webinar Invitation

In order to participate, please RSVP via email to the GNSO Secretariat (gnso.secretariat@gnso.icann.org) (<mailto:gnso.secretariat@gnso.icann.org>) to receive the call details.

Whether you plan to participate in the upcoming ICANN meeting in Beijing remotely or in person, you're invited to an update on the background and current status of major policy issues which are likely to be discussed during the Beijing Meeting.

The ICANN Policy Staff will provide a briefing on Thursday 21 March at 12.00 UTC and Thursday 21 March at 19.00 UTC, summarizing policy issues across the different ICANN Supporting Organizations, namely the Generic Names Supporting Organization (GNSO), Country Code Names Supporting Organization (ccNSO) and Address Supporting Organization (ASO). Amongst other topics, updates will be provided on:

WHOIS related activities

The locking of a domain name subject to UDRP Proceedings

Protection of IGO and INGO Names

IDN ccNSO PDP

Study Group on Use of Names for Countries and Territories

SSAC report on Domain Name Registration Data Validation Taxonomy

The webinar will cover other topics which will be raised during or otherwise relevant to the Beijing Meeting. In addition, staff will provide a briefing on the ALAC's activities related to current policy development issues of the Supporting Organizations.

The two sessions are duplicates, scheduled to accommodate different time zones. Each session, scheduled to run for 90 minutes, will be conducted in English only. The meeting will be run in Adobe Connect with a slide presentation along with a dial-in conference bridge for audio.

Participants will have the opportunity to ask questions at the end of each session. During the course of the webinar, questions may be submitted using the chat function of Adobe Connect. If you are not able to participate in either of the live sessions, the recording of the session will be made available shortly after the meeting. The policy staff is always available to answer any questions that you email to policy-staff@icann.org (<mailto:policy-staff@icann.org>).

In order to participate, please RSVP via email to the GNSO Secretariat (gns.secretariat@gns.icann.org (<mailto:gns.secretariat@gns.icann.org>)) to receive the call details. Please indicate which call you would like to join, Thursday at 12.00 UTC or Thursday at 19.00 UTC (to convert those times into your local time, see: <http://www.timeanddate.com/worldclock/fixedform.html> (<http://www.timeanddate.com/worldclock/fixedform.html>)). We will send you an e-mail reminder before the event with log-in and dial-in details. Please DO NOT RSVP to any other ICANN staff members e-mail address.

[ALAC call to discuss the proposed version of their NEW Rules of Procedure \(RoPs\)](/event/alachalac-call-discuss-proposed-version-their-new-rules-procedure-rops)
[\(/event/alachalac-call-discuss-proposed-version-their-new-rules-procedure-rops\)](/event/alachalac-call-discuss-proposed-version-their-new-rules-procedure-rops)

2100 UTC - Adigo 1638 EN

[At-Large \(/event-type/alach\)](/event-type/alach)

On behalf of Olivier Crepin-Leblond, Chair of the ALAC, and Cheryl Langdon-Orr, Chair of the At-Large Rules of Procedure Working Group, please see the important note below regarding an upcoming ALAC Meeting to review the revised ALAC Rules of Procedure (RoPs):

**

Dear All,

As per a previous discussion and agreement of the ALAC on 22 January 2013, the ALAC will be holding a single purpose teleconference call to discuss the proposed version of their NEW Rules of Procedure (RoPs) before a Call to Vote to Ratify and Adopt these (or not) which is to be conducted online and prior to the 46th ICANN Meeting to be held in Beijing 7-11 April 2013.

This special meeting of the ALAC, which is open to all members of the At-Large Community, especially RALO Leadership and ALS members, is now announced. This call will be held on Tuesday, 19 March 2013 at 2100 UTC (2100 UTC = 1400 PDT, 1700 EDT, 2200 CET, 5am Hong Kong (+1 Day) and 8am Sydney (+1 Day). The Wiki page for this meeting is found at <https://community.icann.org/x/WpVwAg> (<https://community.icann.org/x/WpVwAg>).

FR and ES interpretation has been confirmed for this meeting.

All Members of the ALAC and members of the At-Large Community are requested to RSVP their attendance at this call to At-Large Staff (staff@atlarge.icann.org (<mailto:staff@atlarge.icann.org>)) indicating if they will be joining one of the interpreted channels.

The 15 Members of the ALAC are encouraged to place any comments they have in the COMMENTS section of the meeting page (see: <https://community.icann.org/x/WpVwAg> (<https://community.icann.org/x/WpVwAg>)) or e-mail to the ALAC Working List (alac@atlarge-lists.icann.org (<mailto:alac@atlarge-lists.icann.org>)), particularly if they will not be able to attend this meeting.

Members of the At-Large Community who wish to have any input or comments on these proposed new RoPs considered at this meeting should send these contributions to one of the ALAC Members from their Region or via email to the Chair of the Rules of Procedure Working Group, Cheryl Langdon-Orr (langdonorr@gmail.com (<mailto:langdonorr@gmail.com>)).

Background on these proposed new ALAC RoPs and opportunity for final ALAC review:

This final version of the new ALAC RoP (see: <https://community.icann.org/x/VoYi> (<https://community.icann.org/x/VoYi>) and attached) is the product of an extensive process carried out by some 33 members of the At-Large Community (ALAC Members, formal Regional representatives as well as individual ALS and RALO members of the At-Large Community who volunteered to the ALAC Metrics and RoP Review WG(s).

These volunteers have, in face-to-face and teleconference meetings of the Working Group (WG) as a whole and of the new Rules section Drafting Teams (DTs), committed well over 500 person-hours in review of the current RoPs and support material including previous versions, discussion of all rules merits, and in drafting of and editing this new Rules proposed text. A summary of who participated in the various RoP meetings can be found at: <https://community.icann.org/x/SgoQAgi> (<https://community.icann.org/x/SgoQAgi>).

In addition, and unfortunately difficult to measure and capture, is an extraordinary amount of time spent by the WG's Drafting Teams (DTs) leadership and section pen-holders (noting each DT was in itself, like the RoP Review WG as a whole, a deliberately regionally balanced group) and even more hours and effort again contributed by several current and previously serving ALAC Members during the final stages of integration and editing of the version you are presented with here.

The majority of the ALAC has been directly involved with the Rules of Procedure WG and DTs' activities and in several cases served as Leads and/or Pen-Holders for the discussion and drafting, and therefore it is unexpected and doubtful that any significant or substantial omissions or edits will be proposed for discussion either at or before the conference call. Also it is recognised that the ALAC has at its regular meetings been continually appraised of the progress of this Rules Review and also that all business of the Review WG/DTs has been done in an open and transparent manner with archives and records being held and publicly available on the relevant ALAC wiki pages.

It must also be noted by the ALAC as a whole and by the wider At-Large Community in general, that virtually every concept and issue relating to these proposed new ALAC RoPs was discussed extensively, prior to any drafting, and often reviewed line by line, mostly over several visits / revisits at several meetings. Anything that was even slightly controversial or where people had differing views was debated and in virtually all cases, what has ended up in these Rules has a strong consensus of those working on the original drafting team and the final reviewers.

It is also important to note that several of the 'Adjunct Documents' referred to in these new Rules are not as yet completely finalised nor have they been reviewed (as such) by the ALAC. However, they are all to be drawn from existing ALAC policy and practices and will be shortly available. The vote for the adoption of these new ALAC RoPs does not need to be delayed until they are prepared and circulated, but rather the new RoPs will not come into effect until those Adjunct Documents are all approved by the ALAC.

Specific details on the ALAC vote plans and procedures relating to these new ALAC Rules will be discussed during this special ALAC meeting on 19 March 2013, but it is our hope that the vote can commence shortly after the ALAC monthly call on 26 March 2013.

Regards,

Cheryl Langdon-Orr and Olivier Crepin-Leblond

Preliminary Issue Report on gTLD Registration Data Services | Comment Period Open

<http://www.icann.org/en/news/public-comment/gtld-registration-data-15mar...>

(<https://www.icann.org/en/news/public-comment/gtld-registration-data-15mar13-en.htm>). Purpose (Brief):

This Public Forum invites comments on the Preliminary Issue Report on the gTLD registration data services [1] [PDF, 946 KB]. The Report forms part of a ICANN Board-initiated GNSO policy development process (PDP) that aims to review the purpose and accuracy of domain name registration data and directory services, as well as its underlying technical protocol – currently also known as 'Whois'. Current Status: The Preliminary Issue Report explores the issue of gTLD registration data services, which includes the purpose of collecting and maintaining gTLD registration data, and solutions to improve accuracy and access to gTLD registration data. This Public Comment solicitation represents an opportunity to share perspectives on this topic as well as the contents of the Preliminary Issue Report. In parallel to this Preliminary Issue Report, the ICANN Board has convened an Expert Working Group (EWG) whose findings will feed into the Final Issue Report. [1]

[Consultation on Root Zone KSK Rollover | Comment Period Open \(/event/public-comments/consultation-root-zone-ksk-rollover-comment-period-open\)](/event/public-comments/consultation-root-zone-ksk-rollover-comment-period-open)

Consultation on Root Zone KSK Rollover | Comment Period Open <http://www.icann.org/en/news/public-comment/root-zone-consultation-08mar...> (<https://www.icann.org/en/news/public-comment/root-zone-consultation-08mar13-en.htm>) Purpose (Brief): The Internet Assigned Numbers Authority (IANA) Functions contract (SA1301-12-CN-0035) between ICANN and the United States Department of Commerce, National Telecommunications Information Administration (NTIA) to perform services related to certain interdependent Internet technical management functions calls for a public consultation from all interested and affected parties to help satisfy the following objective: >*C.2.9.2.f Root Domain Name System Security Extensions (DNSSEC) Key >Management* –The Contractor shall be responsible for the management of the >root zone Key Signing Key (KSK), including generation, publication, and use >for signing the Root Keyset. As delineated in the Requirements at Appendix 2 >entitled Baseline Requirements for DNSSEC in the Authoritative Root Zone >that is incorporated by reference herein as if fully set forth. The >Contractor shall work collaboratively with NTIA and the Root Zone >Maintainer, in the performance of this function. > More specifically, this consultation involves '*Appendix 2: Baseline Requirements for DNSSEC in the Authoritative Root Zone,*' that articulates the contract requirement to perform a scheduled root zone KSK rollover. The consultation is being conducted using the ICANN Public Comment Process, consistent with the contract requirements. The feedback received during this consultation will inform the Root Zone Management Partners on the subject of KSK rollover, so that a schedule and a detailed implementation plan for KSK rollovers can be established. Current Status: Planning for scheduled KSK rollover in the root zone is anticipated, but work is deferred pending the results of this public consultation.

Proposed 2013 RAA Posted for Comment | Comment Period Open <http://www.icann.org/en/news/public-comment/proposed-raa-07mar13-en.htm> (<https://www.icann.org/en/news/public-comment/proposed-raa-07mar13-en.htm>) Purpose (Brief): ICANN is seeking public comments on a Proposed 2013 Registrar Accreditation Agreement (RAA), particularly on areas where ICANN and the Registrar Negotiating Team have not been able to reach agreement in principle. This represents the first time in the nearly 18 months of negotiations that community comment is formally sought on this document. Current Status: ICANN and the Registrar Negotiating Team commenced negotiation on amendments to the RAA in October 2011. While the documents posted today show many areas of agreement, there are differences between the ICANN and Registrar positions are highlighted. In addition, further discussion is still ongoing regarding some of the specifications to the agreement.
