Dear MoSAPI Users,

As previously communicated, **this is the final reminder** that the **MoSAPI v1 endpoints will be decommissioned on 2 February 2026 . After this date, the v1 endpoints will no longer be accessible.** To ensure uninterrupted service,**please update your client code to use the v2 endpoints** if you have not already done so.

Additionally, if you want to retain any data from MoSAPI v1 (covering the period between 2018 and 2020) that is unavailable in v2, we recommend **downloading it before v1 is shut down**.

For the avoidance of doubt, the following base URLs are used in the v1 endpoints:

- https://mosapi.icann.org/ry/<tld>/v1
- https://mosapi.icann.org/mosapi/<version>/<tld>

If you have any questions or need support migrating to v2, please feel free to contact ICANN Global Support.

Best regards,
