RE: ASO Announcement on ALAC rejection petition

Dear Empowered Community Representatives,

On behalf of the Address Supporting Organization, I am writing to inform you of the ASO's position regarding the ALAC Rejection Action Petition concerning the ICANN Board-approved Standard Bylaws Amendment to add Section 27.6, "Timing for Specific Reviews," to the ICANN Bylaws.

Following receipt of a request for the ASO to consider supporting the ALAC Rejection Action Petition, the NRO Executive Council reached out to the RIR communities to seek input on whether the ASO should support the petition.

No input in support of the petition was received from the RIR communities through this process.

As a result, and in accordance with the ASO's consideration of Empowered Community matters, the ASO is not of support the Rejection Action Petition.

A follow-up notice to the RIR community has been published on the NRO website:
