Dear Members of the ICANN Empowered Community Administration

The NRO EC, acting in its role with respect to the ASO's participation in the ICANN Empowered Community, **supports** the Approval Action concerning the Fundamental Bylaws Amendments to Articles 17 and 18 of the ICANN Bylaws, noting that the amendments relate to the IANA naming function and do not create any new obligation or operational impact for the ASO, the NRO, the RIRs, or the Internet number resources community.

Yours sincerely
