Mr. Kurtis Lindqvist

President and Chief Executive Officer

Internet Corporation for Assigned Names and Numbers (ICANN)

Dear Mr. Lindqvist,

On behalf of the Telecommunications Regulatory Agency of the Republic of Uzbekistan (hereinafter – the “Agency”), I would like to extend to you my sincere greetings and to express our appreciation for the consistent efforts of the **Internet Corporation for Assigned Names and Numbers (ICANN)** to ensure the stable, secure and unified operation of the Internet’s unique identifier systems, as well as for its important role in advancing the multistakeholder model of Internet governance.

Allow me to briefly introduce the Agency. It was established pursuant to Decree of the President of the Republic of Uzbekistan No. PF-142 of 21 August 2025 “On Measures to Improve the Regulatory System in the Field of Telecommunications” and, in accordance with Articles 9 and 11 of the Law of the Republic of Uzbekistan “On Telecommunications”, serves as the national regulatory authority in the field of telecommunications. The Regulation on the Agency was approved by Resolution of the Cabinet of Ministers of the Republic of Uzbekistan No. 550 of 29 August 2025.

Within its mandate, the Agency is responsible for the regulation of the **.uz** country code top-level domain (ccTLD), including establishing the rules for the registration and use of domain names in the **.uz** domain zone and overseeing compliance therewith. In this capacity, I have the honor to inform you that the Agency serves as the competent national authority and official point of contact of the Republic of Uzbekistan on matters relating to domain names used within the territory of Uzbekistan, including those registered under **.com**, **.net**, **.org** and **other** generic top-level domains (gTLDs), as well as **.uz** domain names used anywhere in the world.

Fully respecting ICANN’s mandate, its policies and procedures, and the established roles of accredited registrars and registry operators, we would be most grateful if ICANN could kindly consider the possibility, where appropriate, of directing to the Agency relevant inquiries, requests and complaints concerning such domain names – including those related to domain name registration, notifications of domain

name disputes, and requests submitted by government or law enforcement authorities or of keeping the Agency informed of such matters. This would greatly facilitate their timely and effective consideration in accordance with the national legislation of the Republic of Uzbekistan. We would also highly value ICANN's guidance on the most appropriate channels and mechanisms for such interaction.

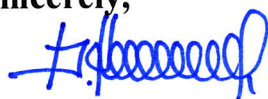

With a view to further strengthening our cooperation, the Agency would be pleased to propose holding a **working meeting**, at a time and in a format convenient for ICANN, including online, in order to discuss mechanisms of mutual interaction and to introduce the teams of our two organizations. We are confident that such a dialogue would provide a sound basis for the exchange of information, the clarification of the respective roles and responsibilities of the parties, and the identification of areas of mutual interest. Building on the outcomes of these discussions, we would also welcome the opportunity to explore the possibility of concluding a **Memorandum of Understanding** between the Agency and ICANN as a framework for long-term cooperation.

We sincerely hope to establish productive and mutually beneficial cooperation with ICANN in support of a secure, stable and resilient Internet in the Republic of Uzbekistan and across Central Asia.

For coordination of this matter, please contact Mr. Bekzod Iskandarov, Chief Inspector for International Cooperation and Ratings of the Agency, at zayniddinov.b@uztra.uz or +998 50 019 58 26.

We look forward to your kind consideration of our proposals and to a useful cooperation.

Sincerely,

Dilshod Kuryozov

Director
