**RE: ALAC's Rejection Action Permission**

Dear ECA Members,

Pursuant to Annex D, Section 2.2(d) of the ICANN Bylaws, having delivered ALAC's Rejection Action Petition Notice to the EC Administration, the ALAC would now like to invite any and all any other EC Decisional Participants to support the ALAC's Rejection Action Petition.

We are concerned both about the precedent set by this amendment and the dramatically expanded timelines specifically proposed. This may be a case where remaining in breach is better than sidestepping the bylaws in this way. Feel free to reach out to me to discuss any part of this further.

Please inform the ALAC at [alac@icann.org](mailto:alac@icann.org) by 23:59 PDT Monday, 8 June 2026, to provide support for this Rejection Action Petition.

Thank you very much!

Jonathan
