10. Progress Board Consideration ccPDP4-IDN Informational

Bart Boswinkel, ccNSO Secretariat, provided an update noting that the team is almost at the end of the initial assessment of the policy. There are two more sections that need to be reviewed, the de-selection of IDN ccTLDs, the add-on to the trigger event for the de-selection of ccTLDs and the Review Mechanism. Bart furthermore added that major hurdles have been taken, regarding IDN variants for ccTLDs and the selection, and that validation procedures and IDN variants are a complicated matter

Patricio Poblete, Chair of the ccPDP4-IDN Board Caucus, agreed with the update provided by Bart Boswinkel.

11. Progress Review of Reviews Informational

Chris Disspain, ccNSO Councillor from the European region and ccNSO appointee to the Cross-Community Group, provided an update noting the group gathered feedback from SO/ACs. The SO/ACs will need to determine whether changes to the purpose document are needed, as it is a living document. Chris pointed to information resources: firstly, a webinar to inform and consult the community on 18 November, secondly, the CCG workspace, and finally, the mailing list, to which all can subscribe as an observer.

Everton Rodrigues, ccNSO Councillor, asked if Chris recommends Councillors subscribe to the mailing list.

Chris Disspain, recommended Councillors be subscribed, to have the latest information. Eventually, the CCG will reach out to the SOACs and seek their input. Chris furthermore invited input to the CCG be sent to inputonreviews@icann.org

12. Progress “How we meet” CCG

Alejandra Reynoso, ccNSO Chair, provided an update from the roundtable. Staff will come back to the SOAC leaders with the CEO's views and recommendations and their implementations, considering their impact on the current situation, including on a few venue contracts that may have already been negotiated. There was an initial discussion on recommendations for a new session with the Board and community interaction, the “How we meet” team will be brought back to discuss it. Additionally, it was requested to update the Meeting Strategy Document to bring it to current practices, particularly if recommendations from the “How we meet” cause divergence. The team will examine how best to do this update given that the strategy was developed by the community.

Jaijit Bhattacharya, Nomcom appointed Council member, noted that some voices were missing from the discussion, particularly from countries such as Afghanistan. They explained that due to sanctions, payments for .af domain renewals could not be made, causing many domains to expire. Similar challenges were mentioned in regions like Syria and Central Asia. Jaijit suggested that these barriers might be limiting participation and representation and thought it was important to raise the issue in relation to ccTLDs.

Alejandra Reynoso, ccNSO Chair responded that a different topic was being discussed and also reminded that it is not the role of the ccNSO to tell ccTLDs how to run their TLDs.

Biyi Oladipo, Council Vice Chair, added that it is a specific issue related to the ccTLD and beyond the remit of the ccNSO.

13. Update Chair, Vice-Chairs, Councillors, Regional Organisations and Secretariat

Alejandra Reynoso, ccNSO Chair, gave an update on the SO/AC Chairs Roundtable and the meeting with the Board. Alejandra noted that some topics had already been covered, such as “How we meet” and the “Review of reviews”. In relation to the “Review of reviews”, two proposed bylaw amendment drafts had been received and circulated through the Council mailing list. Councillors are expected to provide feedback on the drafts, if any, through the mailing list. Alejandra asked Bart Boswinkel if there was a specific deadline for submitting comments on the pilot drafts.

Bart Boswinkel, ccNSO Secretariat replied by 4th of November. A unified version was now to be considered [instead of two] and it would be circulated to the Council mailing list at the end of the meeting..

The Code of Conduct was also discussed, and the SO/AC Chairs Roundtable was informed that the ccNSO had its own guidelines implemented and were largely aligned with the published Code of Conduct. Alejandra reminded that the GRC would still review the document to ensure nothing was overlooked.

The final topic discussed was the Effectiveness and Efficiency of ICANN. The SO/AC Chairs presented a problem statement highlighting concerns about ICANN’s use of time, resources, and the outcomes of its processes. They asked ICANN to reflect on these issues and offered the SO/AC Leaderships’ support in suggesting or contributing to possible improvements. Alejandra emphasized that the group believed ICANN’s operations could be made more effective and efficient.

Moving to the meeting with the Board, Alejandra highlighted the topic on an unresolved issue from previous joint meetings with the Board [regarding a generic timeline for Bylaw amendments] and noted that the Bylaw Change Playbook, submitted just before the ICANN meeting, had been circulated to the Council mailing list. An action item was identified for a small group of Councillors to review the document and provide feedback by the November Council meeting. Another request was made, to have a tracker in a public location to see what requests to the Board are pending. The ccNSO will create a Google Doc and share it with the SO/AC Chairs and the Board, to collect all pending items from all SO/ACs not just the ccNSO.

Jordan Carter, ccNSO Vice Chair and member of the WSIS + 20 Dialogue group, noted that the group met the Kenyan Ambassador. The meeting was friendly and informal, with no major new issues raised. Some challenges discussed included increasing IGF participation, especially from governments, who found it hard to justify attendance without formal outcomes. Jordan Carter suggested that summarizing best practices and policy insights from IGF discussions could make the forum more useful for governments and other stakeholders. Jordan Carter clarified that these comments were made in a personal capacity and shared the update for transparency.

- **Action item 222-01**

The ccNSO Secretariat is requested to schedule a call for volunteers for a small group to review the Bylaw Change Playbook and prepare a response to be adopted by the Council at Meeting 223 in November.

- **Action item 222-02**

The ccNSO Secretariat is requested to create a joint tracker in a google doc for all SO/ACs to add any pending requested items to the Board.
