

September, 2021

Greetings,

Pursuant to section 4.4 of the Registry Agreement, a “Termination by Registry Operator”, we would like to terminate the .csc gTLD as soon as possible. This gTLD was secured right before the merger of Computer Sciences Corporation (CSC) and Hewlett Packard Enterprise Services merged to form DXC Technology. Consequently, the gTLD has never been used and shutting it down will have no effect on internal or external stakeholders.

Sincerely,

Christopher Marin
Director, Marketing
DXC Technology
