

Amendment No. 1 to Registry Agreement

The Internet Corporation for Assigned Names and Numbers and Fondation Aga Khan (Aga Khan Foundation) agree, effective as of _____ (“Amendment No. 1 Effective Date”), that the modification set forth in this amendment No. 1 (the “Amendment”) is made to the 06 August 2015 **.ISMAILI** Registry Agreement between the parties, as amended (the “Agreement”).

1. **Amendment to Agreement.** Effective as of the Amendment No.1 Effective Date, the Agreement shall be amended as follows:

The parties hereby agree to amend Article 2 of the Agreement by adding the following new text as a new Section 2.19:

[START NEW TEXT]

2.19 Obligations of Registry Operator to TLD Community. Registry Operator shall establish registration policies in conformity with the application submitted with respect to the TLD for: (i) naming conventions within the TLD, (ii) requirements for registration by members of the TLD community, and (iii) use of registered domain names in conformity with the stated purpose of the community-based TLD. Registry Operator shall operate the TLD in a manner that allows the TLD community to discuss and participate in the development and modification of policies and practices for the TLD. Registry Operator shall establish procedures for the enforcement of registration policies for the TLD, and resolution of disputes concerning compliance with TLD registration policies, and shall enforce such registration policies. Registry Operator agrees to implement and be bound by the Registry Restrictions Dispute Resolution Procedure as set forth at <http://www.icann.org/en/resources/registries/rrdrp> with respect to disputes arising pursuant to this Section 2.19. Registry Operator shall implement and comply with the community registration policies set forth on Specification 12 attached hereto.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK.]

The parties further hereby agree to amend the Agreement by adding the following new text as a new Specification 12:

[START NEW TEXT]

SPECIFICATION 12

Community Registration Policies

Registry Operator shall implement and comply with all community registration policies described below and/or attached to this Specification 12. In the event Specification 12 conflicts with the requirements of any other provision of the Registry Agreement, such other provision shall govern.

Eligibility

The .ISMAILI TLD will be exclusively for the Ismaili institutions with requisite policies and enforcement procedures to ensure consistency with the mission and purpose of this TLD.

Registrations in the .ISMAILI TLD will be limited to Ismaili institutions recognized by the Ismaili Constitution.

To achieve these ends, the Imam has established, within the framework of the Constitution, National, Regional and Local Councils responsible for overall social governance; and Central Institutions for the provision of services to the community in education, health, social welfare, housing, economic welfare, cultural and women's activities, youth and sports development. The Constitution also incorporates Religious Education Boards for the provision of religious education at all levels of the community, for the requisite human resource development and for research and publication. National and International Conciliation and Arbitration Boards have been established to encourage amicable resolution of conflicts through impartial conciliation and arbitration, a service which is being increasingly used, in some countries, even by non-Ismailis.

The aforementioned institutions which function within the framework of the global Ismaili Constitution will receive an invitation to apply for a second level domain by the Aga Khan Foundation or its representative. No third-party registrations will be accepted.

Name Selection

Second level domains may be organised by institution, institution type or country (without conflicting with reserved geographic names pursuant to Specification 5 of the new TLD Agreement), and will be named accordingly. The names will be easily identifiable as related to the Ismaili institutions.

Content/Use Restrictions

The Ismaili institutions will be restricted in using their second level domain for the purpose of institutional work.

The AGA KHAN FOUNDATION or its representatives will regularly examine the names and content within the TLD to ensure consistency with the mission of purpose of both the Ismaili institutions, and bringing the Ismaili institutions together online.

Staff working with these various institutions on a daily basis will be tasked with managing the roll out and the creation of these secondary domains and the related implementation and enforcement plans.

Enforcement

The AGA KHAN FOUNDATION or its representatives will strictly enforce compliance with all policies in the TLD. Given .ISMAILI is a restricted, community TLD, the registrants are known institutional community members sharing similar beliefs and goals. Thus, it is highly unlikely policies will be disregarded and enforcement necessary.

If any domain within .ISMAILI is found to be operating against the principles of the Ismaili institutions or conducting practices outside the scope of the purpose of the TLD, the AGA KHAN FOUNDATION or its representatives will take immediate action to remedy the conflict. These remedies could include issuing a directive to the registrant to make modifications within a specific cue period, a take-down of a domain, and measures to disallow repeat offenders from managing a domain.

As applications for secondary level domains are by invitation-only, and this is being operated essentially as a closed registry, we do not foresee any appeals from registrants. However, where necessary, qualified registrants may refer to the applicant or its representative to request an invitation for review.

[END NEW TEXT]

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK.]

The parties agree that, except as set forth in this Amendment and any prior duly authorized and executed amendments, the current terms and conditions of the Agreement will remain in full force and effect. All capitalized terms not defined will have the meaning given to them in the Agreement.
