

.MOBI Registry Agreement

(10 July 2005, amended 27 March 2007
and 2013)

This SPONSORED TLD REGISTRY AGREEMENT (this "Agreement") is entered into as of July 10, 2005 by and between Internet Corporation for Assigned Names and Numbers, a California nonprofit public benefit corporation, and mTLD Top Level Domain, Ltd., an Irish Limited Liability Company.

ARTICLE I INTRODUCTION

Section 1.1 Effective Date. The Effective Date for purposes of this Agreement shall be the date on which the TLD (as defined below) is delegated within the authoritative root-server system to nameservers designated by Registry Operator. ICANN shall promptly notify Registry Operator in writing of such delegation.

Section 1.2 Top-Level Domain. The Top-Level Domain to which this Agreement applies is .mobi ("TLD").

Section 1.3 Designation as Registry Operator. Upon the Effective Date, until the Expiration Date as defined in Section 4.1 hereof, ICANN hereby designates mTLD Top Level Domain, Ltd. as the sponsoring organization, and sole registry operator for the sponsored TLD ("Registry Operator"). ICANN hereby delegates to Registry Operator the authority to develop policies for the sponsored TLD consistent with the requirements of Section 3.1(g) of this Agreement.

ARTICLE II REPRESENTATIONS AND WARRANTIES

Section 2.1 Registry Operator's Representations and Warranties.

- a. Organization; Due Authorization and Execution. Registry Operator is a Limited Liability Company, duly organized, validly existing and in good standing under the laws of Ireland, and Registry Operator has all requisite power and authority to enter into this Agreement. All corporate approvals and actions necessary for the entrance by Registry Operator into this Agreement have been obtained and this Agreement has been duly and validly executed and delivered by Registry Operator.
- b. Statements made During Application Process. The factual statements

contained in Registry Operator's application for the TLD, or made by Registry Operator in negotiating this Agreement, were true and correct in all material respects at the time the application was submitted to ICANN and, except as set forth in Appendix S, Part 8 are true and correct in all material respects as of the date this Agreement is entered into set forth above.

Section 2.2 ICANN's Representations and Warranties.

- a. Organization; Due Authorization and Execution. ICANN is a nonprofit public benefit corporation duly organized, validly existing and in good standing under the laws of California. ICANN has all requisite corporate power and authority to enter into this Agreement. All corporate approvals and actions necessary for the entrance by ICANN into this Agreement have been obtained and this Agreement has been duly and validly executed and delivered by ICANN.
- b. Best Efforts. As of the date of execution of this Agreement first set forth above, notwithstanding the fact that ICANN currently does not exercise exclusive authority over the constellation of DNS root-nameservers specified, from time to time, in the file <ftp://ftp.internic.net/domain/named.root>, as further described in ICP 3 (the "Authoritative Root-Server System"), ICANN agrees to work in good faith, using best efforts, to ensure that the TLD shall be delegated to Registry Operator, and that the Authoritative Root will point to the TLD zone servers designated by Registry Operator for the Registry TLD throughout the Term of this Agreement.

ARTICLE III COVENANTS

Section 3.1 Covenants of Registry Operator. Registry Operator covenants and agrees with ICANN as follows:

- a. Preserve Security and Stability.
 - i. ICANN Temporary Specifications or Policies. Registry Operator shall comply with and implement all specifications or policies established by the ICANN Board of Directors on a temporary basis, if adopted by the ICANN Board of Directors by a vote of at least two-thirds of its members, so long as the ICANN Board of Directors reasonably determines that immediate temporary establishment of a specification or policy on the subject is necessary to maintain the Stability or Security (as defined in Section 3.1(d)(iv)(G)) of Registry Services or the DNS ("Temporary Specification or Policies"). Such proposed Temporary Specification or Policy shall be as narrowly tailored as feasible to achieve those objectives. In establishing any Temporary Specification or Policy under this provision, the ICANN Board of Directors shall state the period of time for which the Temporary Specification or Policy is temporarily adopted and shall immediately

implement the policy development process set forth in ICANN's Bylaws. ICANN shall also issue an advisory statement containing a detailed explanation of its reasons for adopting the Temporary Specification or Policy and why the Board believes the specification or policy should receive the consensus support of Internet stakeholders. If the period of time for which the Temporary Specification or Policy is adopted exceeds 90 days, the ICANN Board shall reaffirm its temporary adoption every 90 days for a total period not to exceed one year, in order to maintain such Temporary Specification or Policy in effect until such time as it shall become a Consensus Policy as described in Section 3.1(b) below. If during such one year period, the Temporary Specification or Policy does not become a Consensus Policy meeting the standard set forth in Section 3.1(b) below, Registry Operator shall no longer be required to comply with or implement such Temporary Specification or Policy.

b. Consensus Policies.

- i. At all times during the term of this Agreement and subject to the terms hereof, Registry Operator will fully comply with and implement all Consensus Policies as the same may be applicable to sponsored TLDs, found at <http://www.icann.org/general/consensus-policies.htm>, as of the Effective Date and as may in the future be developed and adopted in accordance with ICANN's Bylaws and as set forth below.
- ii. "Consensus Policies" are those specifications or policies established (1) pursuant to the policy development procedure set forth in ICANN's Bylaws and due process, and (2) covering those topics listed in Section 3.1(b)(iv) below. The policy development process and procedure set forth in ICANN's Bylaws may be revised from time to time in accordance with ICANN's Bylaws, and any Consensus Policy that is adopted through such a revised process and covering those topics listed in Section 3.1(b)(iv) below shall be considered a Consensus Policy for purposes of this Agreement.
- iii. For all purposes under this Agreement, the policies identified at <http://www.icann.org/general/consensus-policies.htm> as of the date hereof shall be treated in the same manner and have the same effect as "Consensus Policies."
- iv. Consensus Policies and the procedures by which they are developed shall be designed to produce, to the extent possible, a consensus of Internet stakeholders. Consensus Policies shall relate to one or more of the following: (1) issues for which uniform or coordinated resolution is reasonably necessary to facilitate interoperability, Security and/or Stability of the Internet or DNS; (2) functional and performance specifications for the provision of Registry Services (as defined in Section 3.1(d)(iii) below); (3) Security and Stability of the registry database for the TLD; (4) registry policies reasonably necessary to implement Consensus Policies relating to registry operations or registrars; or (5) resolution of disputes regarding the registration of

domain names (as opposed to the use of such domain names). Such categories of issues referred to in the preceding sentence shall include, without limitation:

- A. principles for allocation of registered names in the TLD (e.g., first-come, first-served, timely renewal, holding period after expiration);
 - B. prohibitions on warehousing of or speculation in domain names by registries or registrars;
 - C. reservation of registered names in the TLD that may not be registered initially or that may not be renewed due to reasons reasonably related to (a) avoidance of confusion among or misleading of users, (b) intellectual property, or (c) the technical management of the DNS or the Internet (e.g., establishment of reservations of names from registration);
 - D. maintenance of and access to accurate and up-to-date information concerning domain name registrations;
 - E. procedures to avoid disruptions of domain name registration due to suspension or termination of operations by a registry operator or a registrar, including procedures for allocation of responsibility for serving registered domain names in a TLD affected by such a suspension or termination; and
 - F. resolution of disputes regarding whether particular parties may register or maintain registration of particular domain names.
- v. Registry Operator shall be afforded a reasonable period of time following notice of the establishment of a Consensus Policy or Temporary Specifications or Policies in which to comply with such policy or specification, taking into account any urgency associated with the Security or Stability of the Internet or DNS.

In the event of a direct conflict between Registry Services (as defined in Section 3.1(d)(iii) below), on the one hand, and Consensus Policies developed in accordance with this Section 3.1(b) or any Temporary Specifications or Policies established pursuant to Section 3.1(a)(i) above, on the other hand, the Consensus Policies or Temporary Specifications or Policies shall control as clarified in the adopting language thereof, notwithstanding any other provisions contained within this Agreement.

c. Handling of Registry Data.

- i. Data Escrow. Registry Operator shall establish at its expense a data escrow or mirror site policy for the Registry Data compiled by Registry Operator. Registry Data, as used in this Agreement, shall mean the following: (1) data for domains sponsored by all registrars, consisting of domain name, server name for each nameserver, registrar id, updated date, creation date, expiration date, status information, and DNSSEC-related key material following such time as Registry

Operator shall implement the relevant DNSSEC standards; (2) data for nameservers sponsored by all registrars consisting of server name, each IP address, registrar id, updated date, creation date, expiration date, and status information; (3) data for registrars sponsoring registered domains and nameservers, consisting of registrar id, registrar address, registrar telephone number, registrar e-mail address, whois server, referral URL, updated date and the name, telephone number, and e-mail address of all the registrar's administrative, billing, and technical contacts; (4) domain name registrant data collected by the Registry Operator from registrars as part of or following registration of a domain name; and (5) the DNSSEC-related material necessary to sign the TLD zone (e.g., public and private portions of TLD zone key-signing keys and zone-signing keys), following such time as Registry Operator shall implement the relevant DNSSEC standards. The escrow agent or mirror-site manager, and the obligations thereof, shall be mutually agreed upon by ICANN and Registry Operator on commercially reasonable standards that are technically and practically sufficient to allow a successor registry operator to assume management of the TLD. To this end, Registry Operator shall periodically deposit into escrow all Registry Data on a schedule (not more frequently than weekly for a complete set of Registry Data, and daily for incremental updates) and in an electronic format mutually approved from time to time by Registry Operator and ICANN, such approval not to be unreasonably withheld by either party. In addition, Registry Operator will deposit into escrow that data collected from registrars as part of offering Registry Services introduced after the Effective Date of this Agreement. The schedule, content, format, and procedure for escrow deposits shall be as reasonably established by ICANN from time to time, and as set forth in Appendix 1 hereto. Changes to the schedule, content, format, and procedure may be made only with the mutual written consent of ICANN and Registry Operator (which neither party shall unreasonably withhold) or through the establishment of a Consensus Policy as outlined in Section 3.1(b) above. The escrow shall be held under an agreement, substantially in the form of Appendix 2, as the same may be revised from time to time, among ICANN, Registry Operator, and the escrow agent.

- ii. **Personal Data.** Registry Operator shall notify registrars sponsoring registrations in the registry for the TLD of the purposes for which Personal Data (as defined below) submitted to Registry Operator by registrars, if any, is collected, the intended recipients (or categories of recipients) of such Personal Data, and the mechanism for access to and correction of such Personal Data. Registry Operator shall take reasonable steps to protect Personal Data from loss, misuse, unauthorized disclosure, alteration or destruction. Registry Operator shall not use or authorize the use of Personal Data in a way that is

incompatible with the notice provided to registrars. "Personal Data" shall refer to all data about any identified or identifiable natural person.

- iii. Bulk Zone File Access. Registry Operator shall provide bulk access to the zone files for the registry for the TLD to ICANN on a commercially reasonable basis and in a commercially reasonable manner as specified by ICANN from time to time. Bulk access to the zone files shall be provided to third parties on the terms set forth in the TLD zone file access agreement reasonably established by ICANN, which initially shall be in the form attached as Appendix 3 hereto. Changes to the zone file access agreement may be made upon the mutual written consent of ICANN and Registry Operator (which consent neither party shall unreasonably withhold).
 - iv. Monthly Reporting. Within 20 days following the end of each calendar month, Registry Operator shall prepare and deliver to ICANN a report providing such data and in the format specified in Appendix 4. ICANN may audit Registry Operator's books and records for the preceding 12 months relating to data contained in monthly reports from time to time upon no less than 10 days advance written notice, provided that such audits shall not exceed one per quarter. Any such audit shall be at ICANN's cost, unless the results of such audit shall demonstrate a material discrepancy or discrepancies in the data provided by Registry Operator. In the latter event, Registry Operator shall reimburse ICANN for all costs and expenses associated with such audit, which reimbursement shall be paid together with the next Registry-Level Fee payment due following the date of transmittal of the cost statement for such audit. For purposes of this section, a "material discrepancy or discrepancies" shall be a discrepancy or discrepancies that, in the singular or the aggregate, result in an understatement in excess of 5% of the fees owed to ICANN by Registry Operator under Section 7.2.
 - v. Whois Service. Registry Operator shall provide such whois data as set forth in Appendix 5
- d. Registry Operations.
- i. Registration Restrictions.
 - A. Registry Operator shall establish policies, in conformity with the charter included in Appendix S hereto (the "Charter"), for the naming conventions within the sponsored TLD and for requirements of registration, consistent with Section 3.1(g).
 - B. Registry Operator shall establish procedures for the enforcement of applicable Charter restrictions on registration within the TLD as described in Appendix S, which Appendix shall also include the description of the sponsored community and the delegated authority with respect thereto.
 - C. Registry Operator shall reserve, and not register any TLD strings (i) appearing on the list of reserved TLD strings

attached as Appendix 6 hereto or (ii) located at <http://data.iana.org/TLD/tlds-alpha-by-domain.txt> for initial (i.e., other than renewal) registration at the second level within the TLD.

- ii. Functional and Performance Specifications. Functional and Performance Specifications for operation of the TLD shall be as set forth in Appendix 7 hereto, and shall address without limitation, minimum requirements for: DNS services; operation of the shared registration system; and nameserver operations. Registry Operator shall keep technical and operational records sufficient to evidence compliance with such specifications for at least one year, which records ICANN may audit from time to time upon no less than 10 days advance written notice, provided that such audits shall not exceed one per quarter. Any such audit shall be at ICANN's cost.
- iii. Registry Services. Registry Services are, for purposes of this Agreement, defined as the following: (a) those services listed on the product list contained in the Start-Up Plan set forth in Appendix S Section Part 4 hereto as of the Effective Date; (b) those services that are operations of the registry critical to the following tasks: the receipt of data from registrars concerning registrations of domain names and name servers; provision to registrars of status information relating to the zone servers for the TLD; dissemination of TLD zone files; operation of the registry zone servers; and dissemination of contact and other information concerning domain name server registrations in the TLD as required by this Agreement; (c) other products or services that the Registry Operator is required to provide because of the establishment of a Consensus Policy (as defined in Section 3.1(b) above); (d) any other products or services that only a registry operator is capable of providing, by reason of its designation as the registry operator; and (e) material changes to any Registry Service within the scope of (a), (b) or (c) above.
- iv. Process for Consideration of Proposed Registry Services. Following written notification by Registry Operator to ICANN that Registry Operator may make a change in a Registry Service within the scope of the preceding paragraph:
 - A. ICANN shall have 15 calendar days to make a "preliminary determination" whether a Registry Service requires further consideration by ICANN because it reasonably determines such Registry Service: (i) could raise significant Security or Stability issues or (ii) could raise significant competition issues, as such terms are defined below.
 - B. Registry Operator must provide sufficient information at the time of notification to ICANN that it may implement such a proposed Registry Service to enable ICANN to make an informed "preliminary determination." Information provided by Registry Operator and marked "CONFIDENTIAL" shall be

treated as confidential by ICANN. Registry Operator will not designate "CONFIDENTIAL" information necessary to describe the purpose of the proposed Registry Service and the effect on users of the DNS.

- C. ICANN may seek expert advice during the preliminary determination period (from entities or persons subject to confidentiality agreements) on the competition, Security or Stability implications of the Registry Service in order to make its "preliminary determination." To the extent ICANN determines to disclose confidential information to any such experts, it will provide notice to Registry Operator of the identity of the expert(s) and the information it intends to convey. ICANN shall respect Registry Operator's reasonable objection based on equitable or competitive grounds to the proposed disclosure to a particular expert.
- D. If ICANN determines during the 15 calendar day "preliminary determination" period that the proposed Registry Service, does not raise significant Security or Stability (as defined below), or competition issues, Registry Operator shall be free to deploy it upon such a determination.
- E. In the event ICANN reasonably determines during the 15 calendar day "preliminary determination" period that the Registry Service might raise significant competition issues, ICANN shall refer the issue to the appropriate governmental competition authority or authorities with jurisdiction over the matter within five business days of making its determination, or two business days following the expiration of such 15 day period, whichever is earlier, with notice to Registry Operator. Any such referral communication shall be posted on ICANN's website on the date of transmittal. Following such referral, ICANN shall have no further responsibility, and Registry Operator shall have no further obligation to ICANN, with respect to any competition issues relating to the Registry Service. If such a referral occurs, the Registry Operator will not deploy the Registry Service until 45 calendar days following the referral, unless earlier cleared by the referred governmental competition authority.
- F. In the event that ICANN reasonably determines during the 15 calendar day "preliminary determination" period that the proposed Registry Service might raise significant Stability or Security issues (as defined below), ICANN will refer the proposal to a Standing Panel of experts (as defined below) within five business days of making its determination, or two business days following the expiration of such 15 day period, whichever is earlier, and simultaneously invite public comment on the proposal. The Standing Panel shall have 45 calendar

days from the referral to prepare a written report regarding the proposed Registry Service's effect on Security or Stability (as defined below), which report (along with a summary of any public comments) shall be forwarded to the ICANN Board. The report shall set forward the opinions of the Standing Panel, including, but not limited to, a detailed statement of the analysis, reasons, and information upon which the panel has relied in reaching their conclusions, along with the response to any specific questions that were included in the referral from ICANN staff. Upon ICANN's referral to the Standing Panel, Registry Operator may submit additional information or analyses regarding the likely effect on Security or Stability of the Registry Service.

- G. Upon its evaluation of the proposed Registry Service, the Standing Panel will report on the likelihood and materiality of the proposed Registry Service's effects on Security or Stability, including whether the proposed Registry Service creates a reasonable risk of a meaningful adverse effect on Security or Stability as defined below:

Security: For purposes of this Agreement, an effect on security by the proposed Registry Service shall mean (1) the unauthorized disclosure, alteration, insertion or destruction of Registry Data, or (2) the unauthorized access to or disclosure of information or resources on the Internet by systems operating in accordance with all applicable standards.

Stability: For purposes of this Agreement, an effect on stability shall mean that the proposed Registry Service (1) is not compliant with applicable relevant standards that are authoritative and published by a well-established, recognized and authoritative standards body, such as relevant Standards-Track or Best Current Practice RFCs sponsored by the IETF or (2) creates a condition that adversely affects the throughput, response time, consistency or coherence of responses to Internet servers or end systems, operating in accordance with applicable relevant standards that are authoritative and published by a well-established, recognized and authoritative standards body, such as relevant Standards-Track or Best Current Practice RFCs and relying on Registry Operator's delegation information or provisioning services.

- H. Following receipt of the Standing Panel's report, which will be posted (with appropriate confidentiality redactions made after consultation with Registry Operator) and available for public comment, the ICANN Board will have 30 calendar days to

reach a decision. In the event the ICANN Board reasonably determines that the proposed Registry Service creates a reasonable risk of a meaningful adverse effect on Stability or Security, Registry Operator will not offer the proposed Registry Service. An unredacted version of the Standing Panel's report shall be provided to Registry Operator upon the posting of the report. The Registry Operator may respond to the report of the Standing Panel or otherwise submit to the ICANN Board additional information or analyses regarding the likely effect on Security or Stability of the Registry Service.

- I. The Standing Panel shall consist of a total of 20 persons expert in the design, management and implementation of the complex systems and standards-protocols utilized in the Internet infrastructure and DNS (the "Standing Panel"). The members of the Standing Panel will be selected by its Chair. The Chair of the Standing Panel will be a person who is agreeable to both ICANN and the registry constituency of the supporting organization then responsible for generic top level domain registry policies. All members of the Standing Panel and the Chair shall execute an agreement requiring that they shall consider the issues before the panel neutrally and according to the definitions of Security and Stability. For each matter referred to the Standing Panel, the Chair shall select no more than five members from the Standing Panel to evaluate the referred matter, none of which shall have an existing competitive, financial, or legal conflict of interest, and with due regard to the particular technical issues raised by the referral.
- e. Fees and Payments. Registry Operator shall pay the Registry-Level Fees to ICANN on a quarterly basis in accordance with Section 7.2 hereof.
- f. Cooperation. Registry Operator shall cooperate with ICANN in efforts to promote and facilitate the Security and Stability of the Internet and the DNS. To this end, Registry Operator shall provide such data and assistance related to these issues to ICANN as it may reasonably request from time to time.
- g. General Obligations of Registry Operator to Sponsored Community. During the Term of this Agreement, Registry Operator shall, in developing or enforcing standards, policies, procedures, or practices with respect to the TLD:
 - i. publish such standards, policies, procedures, and practices so they are available to members of the sponsored TLD community;
 - ii. conduct its policy-development activities in a manner that reasonably provides opportunities for interested members of the sponsored TLD community to discuss and participate in the development of such standards, policies, procedures, or practices;
 - iii. maintain the representativeness of its policy-development and implementation process by establishing procedures that provide an

- opportunity for participation by a broad cross-section of the sponsored TLD community; and
- iv. ensure, through published procedures, adequate opportunities for members of the sponsored TLD community to submit their views on and objections to the establishment or revision of standards, policies, procedures, and practices or the manner in which standards, policies, procedures, and practices are enforced.

Section 3.2 Covenants of ICANN. ICANN covenants and agrees with Registry Operator as follows:

- a. Open and Transparent. Consistent with ICANN's expressed mission and core values as set forth in its Bylaws, ICANN shall operate in an open and transparent manner.
- b. Equitable Treatment. ICANN shall not apply standards, policies, procedures or practices arbitrarily, unjustifiably, or inequitably and shall not single out Registry Operator for disparate treatment unless justified by substantial and reasonable cause.
- c. TLD Zone Servers. In the event and to the extent that ICANN is authorized to set policy with regard to the Authoritative Root-Server System, and in any case consistent with its obligations set forth in Section 2.2(b) above, it will ensure that (i) the authoritative root will point to the TLD zone servers designated by Registry Operator for the Registry TLD throughout the Term of this Agreement; and (ii) any changes to the TLD zone server designation submitted to ICANN by Registry Operator will be implemented by ICANN within seven days of submission.
- d. Nameserver Changes. Registry Operator may request changes in the nameserver delegation for the Registry TLD. Any such request must be made in a format, and otherwise meet reasonable technical requirements, specified from time to time by ICANN. ICANN will use commercially reasonable efforts to have such requests implemented in the Authoritative Root-Server System within seven calendar days of the submission.
- e. Root-zone Information Publication. ICANN's publication of root-zone contact information for the Registry TLD will include Registry Operator and its administrative and technical contacts. Any request to modify the contact information for the Registry Operator must be made in the format reasonably specified from time to time by ICANN.

ARTICLE IV TERM OF AGREEMENT

Section 4.1 Term. The initial term of this Agreement shall expire ten years from the Effective Date (the "Expiration Date"), as extended by any renewal terms. Registry Operator agrees that upon the earlier of (i) termination of this Agreement by ICANN in accordance with Article VI below or (ii) the Expiration Date, it will cease to be the Registry Operator for the TLD, unless, with respect to termination under the foregoing clause (ii), Registry Operator and ICANN agree on terms for renewal of

the Agreement as set forth in Section 4.2 below prior to the Expiration Date.

Section 4.2 Renewal. This Agreement shall be renewed upon the expiration of the term set forth in Section 4.1 above and each renewal term, unless : (i) an arbitrator or court has determined that Registry Operator has been in fundamental and material breach of Registry Operator's obligations set forth in Sections 3.1(a), (b), (d) or (e); Section 5.2 or Section 7.3 and (ii) following the final decision of such arbitrator or court, Registry Operator has failed to comply within ten days with the decision of the arbitrator or court, or within such other time period as may be prescribed by the arbitrator or court. Upon renewal, in the event that the terms of this Agreement are not similar to the terms generally in effect in the Registry Agreements of the five TLDs most reasonably comparable to .mobi (provided, however, that if less than five TLDs shall be reasonably comparable, then comparison shall be made with such lesser number), renewal shall be upon terms reasonably necessary to render the terms of this Agreement similar to such terms in the Registry Agreements for those other TLDs. Upon renewal, Registry Fees payable to ICANN may be reasonably modified so long as any increase in such fees shall not exceed the average of the percentage increase in Registry Fees for the five most reasonably comparable TLDs (or such lesser number as provided above), during the prior three-year period.

Section 4.3 Changes. While this Agreement is in effect, the parties agree to engage in good faith negotiations at regular intervals (at least once every three calendar years following the Effective Date) regarding possible changes to the terms of the Agreement, including, without limitation, to Section 7.2 regarding fees and payments to ICANN.

Section 4.4 Failure to Perform in Good Faith. In the event Registry Operator shall have been repeatedly and willfully in fundamental and material breach of Registry Operator's obligations set forth in Sections 3.1(a), (b), (d) or (e); Section 5.2 or Section 7.3, and arbitrators in accordance with Section 5.1(b) of this Agreement repeatedly have found Registry Operator to have been in fundamental and material breach of this Agreement, including in at least three separate awards, then ICANN may

- i. request the arbitrators award such punitive, exemplary or other damages as they may believe appropriate under the circumstances, which monetary damages shall not, however, commencing with the first full calendar year following the Effective Date exceed (A) US\$2,000,000 during the first calendar year, (B) US\$5,000,000 during the second through sixth calendar years, and (C) US\$10,000,000 during the seventh through tenth calendar years, and any renewal terms of this Agreement; or
- ii. terminate this Agreement in writing effective fourteen (14) days from the date of such notice, subject to Registry Operator's right under Section 5.1 (b) to seek a temporary stay or injunctive relief from the arbitration panel or a

court.

Notwithstanding the foregoing, ICANN is not precluded from seeking any other remedy available to it under this Agreement including seeking any available remedy from an arbitrator.

ARTICLE V DISPUTE RESOLUTION

Section 5.1 Resolution of Disputes.

- a. **Cooperative Engagement.** In the event of a disagreement between Registry Operator and ICANN arising under or out of this Agreement, either party may by notice to the other invoke the dispute resolution provisions of this Article V. Provided, however, that before either party may initiate arbitration as provided in Section 5.1(b) below, ICANN and Registry Operator must attempt to resolve the dispute by cooperative engagement as set forth in this Section 5.1(a). If either party provides written notice to the other demanding cooperative engagement as set forth in this Section 5.1(a), then each party will, within seven calendar days after such written notice is deemed received in accordance with Section 8.6 hereof, designate a single executive officer as its representative under this Section 5.1(a) with full authority to act on such party's behalf to resolve the dispute. The designated representatives shall, within 2 business days after being designated, confer by telephone or in person to attempt to resolve the dispute. If they are not able to resolve the dispute during such telephone conference or meeting, they shall further meet in person within 7 calendar days of the initial telephone conference or meeting, at a location reasonably designated by ICANN, at which meeting the parties shall attempt to reach a definitive resolution. The time schedule and process set forth in this Section 5.1(a) may be modified with respect to any dispute, but only if both parties agree to a revised time schedule or process in writing in advance. Settlement communications within the scope of this paragraph shall be inadmissible in any arbitration or litigation between the parties.
- b. **Arbitration.** Disputes arising under or in connection with this Agreement, including requests for specific performance, shall be resolved through binding arbitration conducted as provided in this Section 5.1(b) pursuant to the rules of the International Court of Arbitration of the International Chamber of Commerce ("ICC"). The arbitration shall be conducted in the English language and shall occur in Los Angeles County, California, USA only following the failure to resolve the dispute pursuant to cooperative engagement discussions as set forth in Section 5.1(a) above. There shall be three arbitrators: each party shall choose one arbitrator and, if the two arbitrators are not able to agree on a third arbitrator, the ICC shall choose the third. The prevailing party in the arbitration shall have the right to recover its costs and reasonable attorneys' fees, which the arbitrators shall include in their awards. Any party that seeks to confirm or vacate an arbitration award

issued under this Section 5.1(b) may do so only pursuant to the applicable arbitration statutes. In any litigation involving ICANN concerning this Agreement, jurisdiction and exclusive venue for such litigation shall be in a court located in Los Angeles County, California, USA; however, the parties shall also have the right to enforce a judgment of such a court in any court of competent jurisdiction. For the purpose of aiding the arbitration and/or preserving the rights of the parties during the pendency of an arbitration, the parties shall have the right to seek a temporary stay or injunctive relief from the arbitration panel or a court, which shall not be a waiver of this agreement to arbitrate.

Section 5.2 Specific Performance. Registry Operator and ICANN agree that irreparable damage could occur if any of the provisions of this Agreement was not performed in accordance with its specific terms. Accordingly, the parties agree that they each shall be entitled to seek from the arbitrators specific performance of the terms of this Agreement (in addition to any other remedy to which each party is entitled).

Section 5.3 Limitation of Liability. ICANN's aggregate monetary liability for violations of this Agreement shall not exceed the amount of Registry-Level Fees paid by Registry Operator to ICANN within the preceding twelve-month period pursuant to Section 7.2 of this Agreement. Registry Operator's aggregate monetary liability to ICANN for violations of this Agreement shall be limited to fees set forth in Section 7.2 below or, in the case of Section 4.4, the monetary sanctions due and owing to ICANN under this Agreement. In no event shall either party be liable for special, indirect, incidental, punitive, exemplary, or consequential damages arising out of or in connection with this Agreement or the performance or nonperformance of obligations undertaken in this Agreement, except as provided pursuant to Section 4.4 of this Agreement. EXCEPT AS OTHERWISE EXPRESSLY PROVIDED IN THIS AGREEMENT, REGISTRY OPERATOR DOES NOT MAKE ANY WARRANTY, EXPRESS OR IMPLIED, WITH RESPECT TO THE SERVICES RENDERED BY ITSELF, ITS SERVANTS, OR ITS AGENTS OR THE RESULTS OBTAINED FROM THEIR WORK, INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTY OF MERCHANTABILITY, NON-INFRINGEMENT, OR FITNESS FOR A PARTICULAR PURPOSE.

ARTICLE VI TERMINATION PROVISIONS

Section 6.1 Termination.

- a. Termination by ICANN. ICANN may terminate this Agreement if Registry Operator fails to cure any fundamental and material breach of Registry Operator's obligations set forth in Sections 3.1(a), (b), (d) or (e); Section 5.2 or Section 7.3 despite notice and a reasonable opportunity to cure in accordance with Section 6.3.
- b. Termination by Registry Operator. Registry Operator may terminate this

Agreement and its designation as Registry Operator for the TLD pursuant to 120 days prior notice in writing to ICANN, and subject to compliance with Section 6.4 hereof.

Section 6.2 Bankruptcy. This Agreement shall automatically terminate in the event Registry Operator shall voluntarily or involuntarily be subject to bankruptcy proceedings and such proceeding is not dismissed within sixty (60) days. For the avoidance of doubt, the termination provisions of this Section 6.2 shall not apply in the event of any reconstruction, reorganization (or similar business recombination) of Registry Operator not arising out of insolvency.

Section 6.3 Notice; Opportunity to Cure. This Agreement may be terminated in the circumstances described in Section 6.1 above only following written notice to Registry Operator and Registry Operator's failure to cure within 30 days or such other reasonably prescribed time period following receipt of notice hereunder, with Registry Operator being given a reasonable opportunity during that time to initiate arbitration under Section 5.1(b) to determine the appropriateness of termination under this Agreement. In the event Registry Operator initiates arbitration concerning the appropriateness of termination by ICANN, Registry Operator may at the same time request that the arbitration panel stay the termination until the arbitration decision is rendered, and that request shall have the effect of staying the termination until the decision or until the arbitration panel has granted an ICANN request for lifting of the stay.

Section 6.4 Transition of Registry upon Termination of Agreement. Upon any termination of this Agreement as provided in Sections 6.1 and 6.2, the parties agree to work cooperatively to facilitate and implement the transition of the registry for the TLD in accordance with this Section 6.4. Registry Operator shall agree to provide ICANN or any successor registry authority that may be designated for the TLD with any data regarding operations of the registry for the TLD necessary to maintain operations that may be reasonably requested in addition to that data escrowed in accordance with Section 3.1(c)(i) hereof.

Section 6.5 Rights in Data. Registry Operator shall not be entitled to claim any intellectual property rights in Registry Data. In the event that Registry Data is released from escrow as set forth in Section 3.1(c)(i), rights, if any, held by Registry Operator in the data shall automatically be licensed on a non-exclusive, irrevocable, royalty-free, paid-up basis to ICANN or to a party designated in writing by ICANN, provided, however, that such release shall not effect a transfer of any intellectual property rights of Registry Operator other than the Registry Data itself.

Section 6.6 No Reimbursement. Any and all expenditures, capital investments or other investments made by Registry Operator in connection with this Agreement shall be at Registry Operator's own risk and ICANN shall have no obligation to reimburse Registry Operator for any such expense, capital expenditure or investment. Registry Operator shall not be required to make any payments to a

successor registry operator by reason of registry fees paid to Registry Operator prior to the effective date of (i) any termination or expiration of this Agreement or (ii) transition of the registry, unless any delay in transition of the registry to a successor operator shall be due to the actions of Registry Operator.

ARTICLE VII SPECIAL PROVISIONS

Section 7.1 Registry-Registrar Agreement.

- a. **Access to Registry Services.** Registry Operator shall make access to Registry Services, including the shared registration system, available to ICANN-accredited registrars. The criteria for the selection of registrars shall be as set forth in Appendix S. Following execution of the Registry-Registrar Agreement between Registry Operator and the ICANN-accredited registrar, and subject to such registrar's compliance with the Registry-Registrar Agreement, Registry Operator shall provide operational access to Registry Services, including the shared registration system for the TLD. Such nondiscriminatory access to such registrars shall include without limitation the following:
 - i. All registrars (including any registrar affiliated with Registry Operator) can connect to the shared registration system gateway for the TLD via the Internet by utilizing the same maximum number of IP addresses and SSL certificate authentication;
 - ii. Registry Operator has made the current version of the registrar toolkit software accessible to all registrars and has made any updates available to all registrars on the same schedule;
 - iii. All registrars have the same level of access to customer support personnel via telephone, e-mail and Registry Operator's website;
 - iv. All registrars have the same level of access to registry resources to resolve registry/registrar or registrar/registrar disputes and technical and/or administrative customer service issues;
 - v. All registrars have the same level of access to data generated by Registry Operator to reconcile their registration activities from Registry Operator's Web and ftp servers;
 - vi. All registrars may perform basic automated registrar account management functions using the same registrar tool made available to all registrars by Registry Operator; and
 - vii. The shared registration system does not include, for purposes of providing discriminatory access, any algorithms or protocols that differentiate among registrars with respect to functionality, including database access, system priorities and overall performance.

Such Registry-Registrar Agreement may be revised by Registry Operator from time to time, provided however, that any such revisions must be approved in advance by ICANN.

- b. Registry Operator Shall Not Act as Own Registrar. Registry Operator shall not act as a registrar with respect to a "domain name registration" as that term is defined in Section 7.2(b) below. This shall not preclude Registry Operator from registering names within the TLD to itself through a request made to an ICANN-accredited registrar or from becoming an Affiliate of or reseller for an ICANN-accredited registrar.
- ~~c. Restrictions on Acquisition of Ownership or Controlling Interest in Registrar. Registry Operator shall not acquire, directly or indirectly, control of, or a greater than fifteen percent ownership interest in, any ICANN-accredited registrar, without ICANN's prior approval in writing, which approval shall not be unreasonably withheld.~~
- ~~c. If Registry Operator (i) becomes an Affiliate or reseller of an ICANN accredited registrar, or (ii) subcontracts the provision of any Registry Services to an ICANN accredited registrar, registrar reseller or any of their respective Affiliates, then, in either such case of (i) or (ii) above, Registry Operator will give ICANN prompt notice of the contract, transaction or other arrangement that resulted in such affiliation, reseller relationship or subcontract, as applicable, including, if requested by ICANN, copies of any contract relating thereto; provided, that ICANN will not disclose such contracts to any third party other than relevant competition authorities. ICANN reserves the right, but not the obligation, to refer any such contract, transaction or other arrangement to relevant competition authorities in the event that ICANN determines that such contract, transaction or other arrangement might raise competition issues.~~
- ~~d. For the purposes of this Agreement:~~
- ~~(i) "Affiliate" means a person or entity that, directly or indirectly, through one or more intermediaries, or in combination with one or more other persons or entities, controls, is controlled by, or is under common control with, the person or entity specified, and~~
- ~~(ii) "control" (including the terms "controlled by" and "under common control with") means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of a person or entity, whether through the ownership of securities, as trustee or executor, by serving as an employee or a member of a board of directors or equivalent governing body, by contract, by credit arrangement or otherwise.~~
- ~~e. In connection with the operation of the registry for the TLD, Registry Operator shall comply with the Registry Code of Conduct as set forth in Appendix 8.~~

Section 7.2 Fees to be Paid to ICANN.

- a. **Payment Schedule.** Registry shall pay the Registry-Level Fees specified in Sections 7.2(b) and (c) below, and Section 7.2(d), if applicable, by the 20th day following the end of each calendar quarter (i.e., on April 20, July 20, October 20 and January 20 for the calendar quarters ending March 31, June

30, September 30 and December 31) of the year to an account designated by ICANN. The first quarterly payment of the Fixed Registry-Level Fee shall be pro-rated from the Effective Date until the end of the calendar quarter in which the Effective Date falls.

b. Registry-Level Fee

- i. For purposes of this Section 7.2(b), a "domain name registration" shall include a domain name within the registry for the TLD, whether consisting of two or more (e.g., john.smith.tel) levels, about which Registry Operator or an affiliate thereof maintains Registry Operator Data on behalf of Registry Operator.
- ii. Commencing as of 1 January 2007, Registry Operator shall pay ICANN a Registry-Level Fee each quarter in accordance with the payment schedule provided in Section 7.2(a) above equal to the greater of:
 - a. US\$12,500, or
 - b. payment calculated under clause 1., 2., or 3. below, as applicable:
 1. for quarters during which the average price of registrations during the quarter is US\$3.00 or less, the Registry-Level Fee shall be US\$0.15 multiplied by the number of annual increments of an initial or renewal domain name registration during such quarter (including renewals associated with transfers from one ICANN-accredited registrar to another); or
 2. for quarters during which the average price of registrations during the quarter is more than US\$3.00 and less than US\$15.00, the Registry-Level fee shall be US\$0.15 plus US\$0.01 for each increase by US\$0.20 in the average price of domain name registrations, multiplied by the number of annual increments of an initial or renewal domain name registration during such quarter (including renewals associated with transfers from one ICANN-accredited registrar to another); or
 3. for quarters during which the average price of registrations during the quarter is more than US\$15.00, the Registry-Level Fee shall be US\$0.75 for each annual increment of an initial or renewal domain name registration during the calendar quarter to (including renewals associated with transfers from one ICANN-accredited registrar to another).

c. Variable Registry-Level Fee. For fiscal quarters in which ICANN does not

collect a variable accreditation fee from all registrars, upon receipt of reasonable notice in writing from ICANN of not less than 45 days, Registry shall pay ICANN a Variable Registry-Level Fee. The fee will be calculated by ICANN, paid to ICANN by the Registry in accordance with the Payment Schedule in Section 7.2(a), and the Registry will invoice and collect the fees from the registrars who are party to a Registry-Registrar Agreement with Registry. The fee will consist of two components; each component will be calculated by ICANN for each registrar:

- i. The transactional component of the Variable Registry-Level Fee shall be specified by ICANN in accordance with the budget adopted by the ICANN Board of Directors for each fiscal year but shall not exceed eighty percent (80%) of the registrar level transaction fee as established pursuant to the approved 2004-2005 ICANN Budget.
 - ii. The per-registrar component of the Variable Registry-Level Fee shall be specified by ICANN in accordance with the budget adopted by the ICANN Board of Directors for each fiscal year, but the sum of the per-registrar fees calculated for all registrars shall not exceed the total Per-Registrar Variable funding established pursuant to the approved 2004-2005 ICANN Budget.
- d. Interest on Late Payments. For any payments ten days or more overdue, Registry shall pay interest on late payments at the rate of 1.5% per month or, if less, the maximum rate permitted by applicable law.

ARTICLE VIII MISCELLANEOUS

Section 8.1 Indemnification of ICANN. Registry Operator shall indemnify, defend, and hold harmless ICANN (including its directors, officers, employees, and agents) from and against any and all claims, damages, liabilities, costs, and expenses, including reasonable legal fees and expenses, arising out of or relating to: (a) ICANN's reliance, in connection with its decision to delegate the TLD to Registry Operator or to enter into this Agreement, on information provided by Registry Operator in its application; (b) Registry Operator's establishment or operation of the registry for the TLD; (c) Registry Operator's provision of Registry Services; (d) collection or handling of Personal Data by Registry Operator; (e) any dispute concerning registration of a domain name within the domain of the TLD for the registry; and (f) duties and obligations of Registry Operator in operating the registry for the TLD; provided that Registry Operator shall not be obligated to indemnify, defend, or hold harmless ICANN to the extent the claim, damage, liability, cost, or expense arose due to a breach by ICANN of any obligation contained in this Agreement. For avoidance of doubt, nothing in this Section 8.1 shall be deemed to require Registry Operator to reimburse or otherwise indemnify ICANN for the costs associated with the negotiation or execution of this Agreement, or with the monitoring or management of the parties' respective obligations under this Agreement. Further, this section shall not apply to any request for attorney's fees in connection with any litigation or arbitration between or among the parties.

Section 8.2 Indemnification Procedures. If any third-party claim is commenced that is indemnified under Section 8.1 above, notice thereof shall be given to ICANN as promptly as practicable. Registry Operator shall be entitled, if it so elects, in a notice promptly delivered to ICANN, to immediately take control of the defense and investigation of such claim and to employ and engage attorneys reasonably acceptable to the indemnified party to handle and defend the same, at the indemnifying party's sole cost and expense, provided that in all events ICANN shall be entitled to control at its sole cost and expense the litigation of issues concerning the validity or interpretation of ICANN policies or conduct. ICANN shall cooperate, at its own cost, in all reasonable respects with Registry Operator and its attorneys in the investigation, trial, and defense of such claim and any appeal arising therefrom; provided, however, that the indemnified party may, at its own cost and expense, participate, through its attorneys or otherwise, in such investigation, trial and defense of such claim and any appeal arising therefrom. No settlement of a claim that involves a remedy affecting ICANN other than the payment of money in an amount that is indemnified shall be entered into without the consent of ICANN. If Registry Operator does not assume full control over the defense of a claim subject to such defense in accordance with this Section, Registry Operator may participate in such defense, at its sole cost and expense, and ICANN shall have the right to defend the claim in such manner as it may deem appropriate, at the cost and expense of Registry Operator.

Section 8.3 No Offset. All payments due under this Agreement shall be made in a timely manner throughout the term of this Agreement and notwithstanding the pendency of any dispute (monetary or otherwise) between Registry Operator and ICANN.

Section 8.4 Use of ICANN Name and Logo. ICANN grants to Registry Operator a non-exclusive royalty-free license to state that it is designated by ICANN as the Registry Operator for the Registry TLD and to use the ICANN logo to signify that Registry Operator is an ICANN-designated registry authority. The licensed logo is specified by ICANN on its website at www.icann.org, and ICANN may specify the logo specifications following reasonable advance notice in writing to Registry Operator of any such changes. This license may not be assigned or sublicensed by Registry Operator.

Section 8.5 Assignment and Subcontracting. Any assignment of this Agreement shall be effective only upon written agreement by the assignee with the other party to assume the assigning party's obligations under this Agreement. Moreover, neither party may assign this Agreement without the prior written approval of the other party, which shall not be unreasonably withheld. Notwithstanding the foregoing, (1) ICANN may assign this Agreement (i) in conjunction with a reorganization or re-incorporation of ICANN, to another nonprofit corporation organized for the same or substantially the same purposes, or (ii) as may be required pursuant to the terms of that certain Memorandum of Understanding between ICANN and the U.S. Department of Commerce, as the same may be

amended from time to time and (2) Registry Operator may assign this Agreement in conjunction with a reorganization or re-incorporation into a legal entity organized for the same or substantially the same purposes and involving the same or substantially the same shareholders. Registry Operator must provide notice to ICANN of any subcontracting arrangements, and any agreement to subcontract portions of the operations of the TLD must mandate compliance with all covenants, obligations and agreements by Registry Operator hereunder. Any subcontracting that results in the outsourced provision of relevant technical operations shall provide that the subcontracted entity become party to the data escrow agreement mandated by Section 3.1(c)(i) hereof.

Section 8.6 Amendments and Waivers. No amendment, supplement, or modification of this Agreement or any provision hereof shall be binding unless executed in writing by both parties. No waiver of any provision of this Agreement shall be binding unless evidenced by a writing signed by the party waiving compliance with such provision. No waiver of any of the provisions of this Agreement or failure to enforce any of the provisions hereof shall be deemed or shall constitute a waiver of any other provision hereof, nor shall any such waiver constitute a continuing waiver unless otherwise expressly provided.

Section 8.7 No Third-Party Beneficiaries. This Agreement shall not be construed to create any obligation by either ICANN or Registry Operator to any non-party to this Agreement, including any registrar or registered name holder.

Section 8.8 Notices, Designations, and Specifications. All notices to be given under or in relation to this Agreement shall be given either (i) in writing at the address of the appropriate party as set forth below or (ii) via facsimile or electronic mail as provided below, unless that party has given a notice of change of postal or email address, or facsimile number, as provided in this agreement. Any change in the contact information for notice below shall be given by the party within 30 days of such change. Any notice required by this Agreement shall be deemed to have been properly given (i) if in paper form, when delivered in person or via courier service with confirmation of receipt or (ii) if via facsimile or by electronic mail, upon confirmation of receipt by the recipient's facsimile machine or email server, provided that such notice via facsimile or electronic mail shall be followed by a copy sent by regular postal mail service within two (2) business days. Whenever this Agreement shall specify a URL address for certain information, Registry Operator shall be deemed to have been given notice of any such information when electronically posted at the designated URL. In the event other means of notice shall become practically achievable, such as notice via a secure website, the parties shall work together to implement such notice means under this Agreement.

Email: (as specified from time to time)

Section 8.9 Compliance with Laws. Notwithstanding any interpretation to this Agreement and the Appendices forming a part hereof to the contrary, nothing in this Agreement shall be construed to require the parties hereto to violate any applicable law or legal requirements, nor prevent compliance therewith.

Section 8.10 Language. Notices, designations, determinations, and specifications made under this Agreement shall be in the English language.

Section 8.11 Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

Section 8.12 Entire Agreement. This Agreement (including its Appendices, which form a part of it) constitutes the entire agreement of the parties hereto pertaining to the operation of the TLD and supersedes all prior agreements, understandings, negotiations and discussions, whether oral or written, between the parties on that subject. In the event of a conflict between the provisions in the body of this Agreement and any provision in its Appendices, the provisions in the body of the Agreement shall control.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representatives.
