

Amendment to Registry Agreements

THIS AMENDMENT (“Amendment”), effective as of _____ (“Amendment Effective Date”), is made by and between the Internet Corporation for Assigned Names and Numbers (“ICANN”) and Donuts Inc. (“Donuts”), and shall amend the Registry Agreement for certain top-level domains (“TLDs”) in the manner as further detailed and described herein.

WHEREAS, each Registry Operator of those TLDs identified in Appendix I to this Amendment, which is attached hereto and incorporated herein, is a subsidiary of Donuts; and

WHEREAS, in the interest of the mutual convenience of the parties, in lieu of executing an individual amendment to the Registry Agreement for each individual TLD, the parties hereby desire to consolidate the modifications as provided in this Amendment.

NOW THEREFORE, the parties hereto, intending to be legally bound, hereby do agree to the following:

1. Donuts represents that each Registry Operator listed in Appendix I is a wholly or majority owned subsidiary of Donuts and Donuts has the proper authority to execute this Amendment and bind such Registry Operators.
2. The Registry Agreement for those TLDs identified in Appendix I shall be amended pursuant to the Amendment number set forth in Appendix I.
3. The parties hereby agree to amend Exhibit A of each of the Registry Agreements identified in Appendix I by deleting the following section [INSERT APPLICABLE SECTION NUMBER] in its entirety:

[OLD TEXT]

“[INSERT APPLICABLE SECTION NUMBER] **Domains Protected Marks List (DPML)**”

The DPML is a service that allows trademark rights holders to block certain labels from registration across multiple TLDs operated by the Registry Operator. The blocked names must comply with the provisions described in Specification 5, Section 3.3 of the Registry Agreement. Domain Names blocked by the DPML service will be either an exact match of a label or will contain an exact match of such labels, or may include domain names that are a misspelling or contain a misspelling of a label. Blocked labels do not prevent other trademark rights holders from unblocking the label and registering the domain name.”

[END OLD TEXT]

The parties hereby further agree to amend Exhibit A of each of the Registry Agreements identified in Appendix I by adding a new section [INSERT APPLICABLE SECTION NUMBER] as follows:

[START NEW TEXT]

“[INSERT APPLICABLE SECTION NUMBER] **Domains Protected Marks List (DPML)**”

The DPML is a service that allows trademark rights holders to block certain labels from registration across multiple TLDs operated by the Registry Operator. The blocked names must comply with the provisions described in Specification 5, Section 3.3 of the Registry Agreement. Domain Names blocked by the DPML service will be either an exact match of a label or will

contain an exact match of such labels, or may include domain names that are a misspelling or contain a misspelling of a label. Blocked labels do not prevent other trademark rights holders or DPML holders from unblocking the label and registering the domain name. In some instances, approval from the applicable DPML holder may be required for a third party with the same trademark to register the blocked name.”

[END NEW TEXT]

The parties agree that, except as set forth in this Amendment and any prior duly authorized and executed amendments, the current terms and conditions of the Registry Agreements identified in Appendix I will remain in full force and effect. All capitalized terms not defined will have the meaning given to them in each such Registry Agreement.

ACCEPTED AND AGREED:

INTERNET CORPORATION FOR ASSIGNED NAMES AND NUMBERS

By: _____
Akram Atallah
President, Global Domains Division

DONUTS INC.

By: _____
Jonathon Nevett
Manager of its Sole Member
