

### ARTICLE 3 COVENANTS

3.1(f) Traffic Data. Nothing in this Agreement shall preclude Registry Operator from making commercial use of, or collecting, traffic data regarding domain names or non-existent domain names for purposes such as, without limitation, the determination of the availability and health of the Internet, pinpointing specific points of failure, characterizing attacks and misconfigurations, identifying compromised networks and hosts and promoting the sale of domain names, provided however, that such use does not permit Registry Operator to disclose domain name registrant or end user information or other Personal Data as defined in Section 3.1(c)(ii) that it collects through providing domain name registration services for any purpose not otherwise authorized by this agreement. In this regard, in the event the TLD registry is a “thick” registry model, the traffic data that may be accessible to and used by Registry Operator shall be limited to the data that would be accessible to a registry operated under a “thin” registry model. The process for the introduction of new Registry Services shall not apply to such traffic data. Nothing contained in this section 3.1(f) shall be deemed to constitute consent or acquiescence by ICANN to an introduction by Registry Operator of a service employing a universal wildcard function. To the extent that traffic data subject to this provision is made available, access shall be on terms that are nondiscriminatory.

### ARTICLE 4 TERM OF AGREEMENT

Section 4.1 Term. The initial term of this Agreement shall expire on 30 June 2013 (the “Expiration Date,”) as extended by any renewal terms.

Section 4.2 Renewal. This Agreement shall be renewed upon the expiration of the term set forth in Section 4.1 above and each later term, unless the following has occurred: (i) following notice of breach to Registry Operator in accordance with Section 6.1 and failure to cure such breach within the time period prescribed in Section 6.1, an arbitrator or court has determined that Registry Operator has been in fundamental and material breach of Registry Operator’s obligations set forth in Sections 3.1(a), (b), (d) or (e); Section 5.2 and (ii) following the final decision of such arbitrator or court, Registry Operator has failed to comply within ten days with the decision of the arbitrator or court, or within such other time period as may be prescribed by the arbitrator or court. Upon renewal, in the event that the terms of this Agreement are not similar to the terms generally in effect in the Registry Agreements of the 5 most reasonably comparable gTLDs (provided however that if less than five gTLDs are reasonably comparable, then comparison shall be made with such lesser number, and .com, .biz, .net and .info

are hereby deemed comparable), renewal shall be upon terms reasonably necessary to render the terms of this Agreement similar to such terms in the Registry Agreements for those other gTLDs. The preceding sentence, however, shall not apply to the terms of this Agreement regarding the standards for the consideration of proposed Registry Services, including the definitions of Security and Stability and the standards applied by ICANN in the consideration process; the terms or conditions for the renewal or termination of this Agreement; ICANN's obligation to Registry Operator under Section 3.2(a), (b) and (c); the limitations on Consensus Policies or Temporary Specifications or Policies; or the definition of Registry Services. In addition, upon renewal, registry fees payable to ICANN may be reasonably modified so long as any increase in such fees shall not exceed the average of the percentage increase in registry fees for the five most reasonably comparable TLDs (or such lesser number as provided above) during the prior three year period.

Section 4.3 Changes. While this Agreement is in effect, the parties agree to engage in good faith negotiations at regular intervals (at least once every three calendar years following the Effective Date) regarding possible changes to the terms of the Agreement, including to Section 7.2 regarding fees and payments to ICANN. In addition, ICANN shall consider and discuss with Registry Operator other appropriate changes to pricing and related terms under the Agreement in the event ICANN shall obtain further independent data from professional experts providing analysis of the pricing of domain name registrations and competitive market considerations. The failure by Registry Operator to agree to an increase in registry fees or other terms shall not constitute a violation of this provision.

## ARTICLE 7 SPECIAL PROVISIONS

[New Section 7.3 to be added to agreements]

### Section 7.3. Pricing for Domain Name Registrations and Registry Services.

(a) Pricing. From the Effective Date through six (6) months following the Effective Date, the price to ICANN-accredited registrars for new and renewal domain name registrations and for transferring a domain name registration from one ICANN-accredited registrar to another, shall not exceed a total fee of US\$6.00 (the "Maximum Service Fee"). Commencing on 1 January 2007, the Maximum Service Fee charged during a calendar year for each annual increment of a new and renewal domain name registration and for transferring a domain name registration from one ICANN-accredited registrar to another, may be increased by an amount not to exceed the Maximum Service Fee during the preceding calendar year multiplied by 1.10. The same Service Fee shall be charged to all ICANN-accredited registrars for new and renewal domain name registrations. Volume discounts and marketing support and incentive programs may be made if the same opportunities to qualify for those discounts and marketing support and incentive programs is available to all ICANN-accredited registrars.

(b) Adjustments to Pricing for Domain Name Registrations. Registry Operator shall provide no less than six months prior notice in advance of any price increase for domain name registrations and shall continue to offer domain name registrations for periods of up to ten years. Registry Operator is not required to give notice of the imposition of the Variable Registry-Level Fee set forth in Section 7.2(c).
