Internet Corporation for Assigned Names and Numbers (“ICANN”)  
12025 Waterfront Drive, Suite 300  
Los Angeles, California 90094  
Attention: New gTLD Program Staff

RE: Application for .Brand TLD Designation

Saint-Gobain Weber SA (“Registry Operator”), in connection with the execution of the Registry Agreement for the .weber TLD (the “Registry Agreement”), hereby applies for .weber TLD to be qualified by ICANN as a .Brand TLD.

Registry Operator confirms and represents to ICANN that the TLD meets each of the criteria for the TLD to be qualified as a .Brand TLD, as described in the .Brand TLD Application Process, listed below, Specification 13 attached thereto, and all supplemental material accompanying this application is accurate and not misleading in any respect.

- The WEBER TLD (.weber) is identical to the textual elements protectable under applicable law of a valid registered trademark
- The WEBER trademark is recorded with, and issued a signed mark data file by the Trademark Clearinghouse and meets all eligibility requirements.
- The WEBER trademark is owned and used by the Registry Operator and its Affiliates in the ordinary course of Registry Operator’s and its Affiliates’ business in connection with the offering of any of the goods and/or services claimed in the trademark registration.
- The WEBER trademark was issued to Registry Operator prior to the filing of its TLD registry application with ICANN.
- The WEBER trademark is used throughout the Term continuously in the ordinary course of business of Registry Operator in connection with the offering of any of the goods and/or services identified in the trademark registration.
- The WEBER trademark does not begin with a period or a dot.
- The WEBER trademark is used by Registry Operator in the conduct of one or more of its businesses that are unrelated to the provision of TLD Registry Services.
- Registry Operator has provided ICANN with an accurate and complete copy of such trademark registration. (see exhibit A).
- Only Registry Operator, its Affiliates or Trademark Licensees are registrants of domain names in the TLD and control the DNS records associated with domain names at any level in the TLD (see exhibit B).
- The TLD is not a Generic String TLD (as defined in Specification 11).

Registry Operator also represents that the trademark registration attached hereto as Exhibit A and the registration policies attached hereto as Exhibit B are complete and

accurate copies of the official trademark registration and Registry Operator's registration policies for the TLD, respectively.

Registry Operator agrees that if Registry Operator makes any changes to its registration policies for the TLD (whether before or after this application has been approved) that may disqualify the TLD as a .Brand TLD, it will promptly provide ICANN with a complete and accurate copy of the revised registration policies. In addition, if Registry Operator fails to maintain the trademark registration underlying its .Brand TLD application, it shall promptly notify ICANN of such failure. Registry Operator also agrees to maintain the criteria required to qualify as a .Brand TLD and to immediately notify ICANN of any changes in circumstances that could alter the statements made, and supporting materials provide with, this application.

Registry Operator acknowledges and agrees that this letter is binding on Registry Operator and, if any of the foregoing representations and agreements becomes untrue or not complied with, it shall be deemed a breach of the Registry Agreement by Registry Operator, and ICANN may assert its rights under the Registry Agreement, including by determining that the TLD no longer qualifies as a .Brand TLD pursuant to the terms of Specification 13.
